

determined that, pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and the Sac & Fox Tribe of the Mississippi in Iowa.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the human remains should contact Jennifer L. Kolb, Wisconsin Historical Museum, 30 N. Carroll St., Madison, WI 53703, telephone (608) 261-2461, before June 3, 2010. Repatriation of the human remains to the Sac & Fox Tribe of the Mississippi in Iowa may proceed after that date if no additional claimants come forward.

The Wisconsin Historical Society is responsible for notifying the Sac & Fox Tribe of the Mississippi in Iowa that this notice has been published.

Dated: April 12, 2010.

## DEPARTMENT OF THE INTERIOR

### National Park Service

#### Notice of Inventory Completion: Denver Museum of Nature & Science, Denver, CO

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains in the possession of the Denver Museum of Nature & Science, Denver, CO. The human remains were removed from Pettis County, MO.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

A detailed assessment of the human remains was made by the Denver Museum of Nature & Science professional staff in consultation with representatives of the Osage Nation, Oklahoma.

In 1933, human remains representing a minimum of two individuals were removed from a mound burial context four miles northwest of Sedalia, Pettis

County, MO, by G.D. Householder. Householder donated the individuals to the museum at some point thereafter. In 1994, the human remains were found in the museum's collections during an inventory, and then formally accessioned (DMNS catalogue numbers A1991.1 and A1991.2). The human remains were originally determined to be culturally unidentifiable. No known individuals were identified. No associated funerary objects are present.

Based on physical analysis, the human remains are determined to be Native American. Archeological evidence suggests that Pettis County mound sites generally date to the Mississippian nucleation horizon (A.D. 1350-1650). Oral tradition and historical documentation—supported by geographical, linguistic, folkloric, archeological evidence, and expert opinion—indicate that Pettis County has long been a part of the Osage traditional ancestral homelands and hunting territory. After consultation with the Osage Nation, Oklahoma, the museum reasonably believes that there is a shared group identity between the Osage people and the people of these ancient mounds.

Officials of the Denver Museum of Nature & Science have determined that, pursuant to 25 U.S.C. 2001 (9)-(10), the human remains described above represent the physical remains of two individuals of Native American ancestry. Officials of the Denver Museum of Nature & Science also have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and the Osage Nation, Oklahoma.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the human remains should contact Dr. Chip Colwell-Chanthaphonh, Denver Museum of Nature & Science, 2001 Colorado Blvd., Denver, CO 80205, telephone (303) 370-6378, before June 3, 2010. Repatriation of the human remains to the Osage Nation, Oklahoma may proceed after that date if no additional claimants come forward.

The Denver Museum of Nature & Science is responsible for notifying the Osage Nation, Oklahoma that this notice has been published.

Dated: April 14, 2010.

## DEPARTMENT OF LABOR

### Office of the Secretary

#### Submission for OMB Review: Comment Request

April 22, 2010.

The Department of Labor (DOL) hereby announces the submission of the following public information collection requests (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. chapter 35). A copy of each ICR, with applicable supporting documentation; including among other things a description of the likely respondents, proposed frequency of response, and estimated total burden may be obtained from the RegInfo.gov Web site at <http://www.reginfo.gov/public/do/PRAMain> or by contacting Darrin King on 202-693-4129 (this is not a toll-free number)/e-mail: [DOL\\_PRA\\_PUBLIC@dol.gov](mailto:DOL_PRA_PUBLIC@dol.gov).

Interested parties are encouraged to send comments to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the Department of Labor—Employment and Training Administration (ETA), Office of Management and Budget, Room 10235, Washington, DC 20503, Telephone: 202-395-7316/Fax: 202-395-5806 (these are not toll-free numbers), E-mail: [OIRA\\_submission@omb.eop.gov](mailto:OIRA_submission@omb.eop.gov) within 30 days from the date of this publication in the **Federal Register**. In order to ensure the appropriate consideration, comments should reference the OMB Control Number (see below).

The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
  - Enhance the quality, utility, and clarity of the information to be collected; and
  - Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
