

significantly frustrate implementation of proposed agency action. I have made this determination under the authority granted me by the Chairman's Delegation of Authority dated July 19, 1993.

The agenda for the sessions on May 20, 2010 will be as follows:

Committee Meetings

(Open to the Public)
Policy Discussion:

9 a.m.–10:30 a.m. Digital
Humanities—Room 402
Federal/State Partnership and Public Programs—Room 507
Preservation and Access—Room 415
Research Programs—Room 315
(Closed to the Public)
Discussion of specific grant applications and programs before the Council:

10:30 a.m. until Adjourned Digital
Humanities—Room 402
Federal/State Partnership and Public Programs—Room 507
Preservation and Access—Room 415
Research Programs—Room 315

The morning session of the meeting on May 21, 2010 will convene at 9 a.m., in the first floor Council Room M–09, and will be open to the public, as set out below. The agenda for the morning session will be as follows:

A. Minutes of the Previous Meeting

B. Reports

1. Introductory Remarks.
2. Presentation by David Grubin on *The Buddha*, an NEH-supported project.
3. Staff Report.
4. Congressional Report.
5. Reports on Policy and General Matters.
 - a. Digital Humanities
 - b. Federal/State Partnership
 - c. Public Programs
 - d. Preservation and Access
 - e. Research Programs

The remainder of the proposed meeting will be given to the consideration of specific applications and will be closed to the public for the reasons stated above.

Further information about this meeting can be obtained from Michael P. McDonald, Advisory Committee Management Officer, National Endowment for the Humanities, 1100 Pennsylvania Avenue, NW., Washington, DC 20506, or by calling (202) 606–8322, TDD (202) 606–8282. Advance notice of any special needs or accommodations is appreciated.

Michael P. McDonald,

Advisory Committee Management Officer.

BILLING CODE 7536–01–P

NUCLEAR REGULATORY COMMISSION

[Docket No. 40–9083; NRC–2009–0352]

License No. SUB–459; Acknowledgement of Request for Enforcement Action Against U.S. Army Installation Command (Schofield Barracks and Pohakuloa Training Area, Hawaii)

Notice is hereby given that by petition dated March 4, 2010, Isaac D. Harp (petitioner) has requested that the U.S. Nuclear Regulatory Commission (NRC) take enforcement action against the U.S. Army for the unlicensed possession and use of depleted uranium.

As the basis for this request, the petitioner states that the Army's license, SUB–459, expired on October 31, 1964, and if any depleted uranium was possessed or released to the environment after the expiration date, that was an unlawful act and subject to NRC enforcement policies.

The request is being treated pursuant to 10 CFR 2.206 of the Commission's regulations. The request has been referred to the Director of the Office of Federal and State Materials and Environmental Management Programs (FSME). As provided by Section 2.206, the petitioner met with the FSME petition review board on April 14, 2010, to discuss the petition. The results of that discussion were considered in the board's determination regarding the petitioner's request and in establishing the schedule for the review of the petition.

A copy of the request is available in ADAMS (ML100640665) for inspection at the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, and from the ADAMS Public Library component on the NRC's Web site, <http://www.nrc.gov> (the Public Electronic Reading Room).

Dated at Rockville, Maryland this 26th day of April, 2010.

For the U.S. Nuclear Regulatory Commission.

Keith I. McConnell,

Deputy Director, Decommissioning and Uranium Recovery Licensing Directorate, Division of Waste Management and Environmental Protection Program, Office of Federal and State Materials and Environmental Management Programs.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–16; NRC–2009–0073]

DTE ENERGY; Enrico Fermi Atomic Power Plant Unit 1; Exemption From Certain Low-Level Waste Shipment Tracking Requirements In 10 CFR Part 20 Appendix G

1.0 Background

DTE Energy (DTE) is the licensee and holder of Facility Operating License No. DPR–9 issued for Enrico Fermi Atomic Power Plant, Unit 1 (Fermi-1), located in Monroe County, Michigan. Fermi-1 is a permanently shutdown nuclear reactor facility. DTE is in the process of decommissioning Fermi-1 and radioactive waste shipments from the site are ongoing and expected to increase over the next year. During the decommissioning process, large volumes of slightly contaminated concrete rubble and debris are generated that require shipment for disposal in offsite low-level radioactive waste disposal sites. Experience at other decommissioning nuclear power facilities has shown that, due primarily to the volume of radioactive waste; licensees have encountered an increase in the number of routine shipments that take longer than 20 days from transfer to the shipper to receipt acknowledgment from the disposal site. Each shipment with receipt notifications greater than 20 days requires a special investigation and report to the U.S. Nuclear Regulatory Commission (NRC or the Commission) which the licensee believes to be burdensome and unnecessary to meet the intent of the regulation.

2.0 Request/Action

In a letter to the Commission dated November 13, 2009, DTE requested an exemption from the requirements in 10 CFR part 20, appendix G, section III.E, to investigate and file a report to the NRC if shipments of low-level radioactive waste are not acknowledged by the intended recipient within 20 days after transfer to the shipper. This exemption would extend the time period that can elapse during shipments of low-level radioactive waste before DTE is required to investigate and file a report to the NRC from 20 days to 35 days. The exemption would be applicable to rail and truck/rail mixed-mode shipments. The exemption request is based on an analysis of the historical data of low-level radioactive waste shipment times from the Fermi-1 site to the disposal site.
