

Non-recipients will be asked about their familiarity with the DPG program, the reasons they did not apply for the program, and the factors that contributed to their ability to reach initial closing within 18 months.

Members of Affected Public: The telephone sponsor survey will affect approximately 100 recipients of a

Section 202 Supportive Housing for the Elderly grant.

Estimation of the total number of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: For the DPG recipient survey, the researchers will administer a one-time telephone survey to 70

sponsor staff. These interviews are expected to last 60 minutes for a total burden hour estimate of 70 hours. For the non-recipient survey, the researchers will administer a one-time telephone survey to 30 sponsor staff. The non-recipient interviews are expected to last 30 minutes for a total burden hour estimate of 15 hours.

Respondents	Number of respondents	Number responses per respondent	Average burden/response (in hours)	Total burden hours
DPG Recipients	70	1	1.0	70
Non-recipients	30	1	0.5	15
Total	100	100	85

Status of the proposed information collection: Pending OMB approval.

Authority: Section 3506 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: April 28, 2010.

Raphael W. Bostic,
Assistant Secretary for Policy Development and Research.

ADDRESSES: Send your comments on the IC to Hope Grey, Information Collection Clearance Officer, Fish and Wildlife Service, MS 222-ARLSQ, 4401 North Fairfax Drive, Arlington, VA 22203 (mail); or *hope_grey@fws.gov* (e-mail).

FOR FURTHER INFORMATION CONTACT: To request additional information about this IC, contact Hope Grey by mail or e-mail (see ADDRESSES) or by telephone at (703) 358-2482.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd-668ee), as amended by the National Wildlife Refuge System Improvement Act of 1997, and the Refuge Recreation Act of 1962 (16 U.S.C. 460k-460k-4) govern the administration and uses of national wildlife refuges and wetland management districts. We are authorized to permit public uses on lands of the National Wildlife Refuge System, including hunting, fishing, wildlife observation, wildlife photography, and environmental education and interpretation, and other visitor uses when we find that the activities are compatible and appropriate with the purpose or purposes for which the refuges were established.

We collect information on hunters and anglers and other visitors in order to protect refuge resources and administer and evaluate the success of visitor programs. Because of high demand and limited resources, we often provide visitor opportunities by permit, based on dates, locations, or type of public use. We may not allow all opportunities on all refuges and harvest information differs on each refuge. Therefore, we are proposing two forms to collect this information. Not all

refuges will use each form and some refuges may collect the information in a nonform format. We propose to collect:

- Information on the visitor (name, address, and contact information).
- Whether or not hunters/anglers were successful (number and type of harvest/caught).

- Purpose of visit (hunting, fishing, wildlife observation, wildlife photography, auto touring, birding, hiking, boating/canoeing, visitor center, special event, environmental education class, volunteering, other recreation).
- Date of visit.

This information will be a vital tool in meeting refuge objectives and maintaining quality visitor experiences. The above information will help us:

- Administer and monitor visitor programs and facilities on refuges.
- Distribute visitor permits to ensure safety of visitors.
- Ensure a quality visitor experience.
- Minimize resource disturbance, manage healthy game populations, and ensure the protection of fish and wildlife species.
- Assist in Statewide wildlife management and enforcement and develop reliable estimates of the number of all game fish and wildlife.
- Determine facility and program needs and budgets.

II. Data

OMB Control Number: 1018-XXXX.
Title: Refuge Daily Visitor Use Report and Check-In Permit.

Service Form Number(s): 3-2405 and 3-2406.

Type of Request: Request for a new OMB control number.

Affected Public: Visitors to national wildlife refuges.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[FWS-R4-R-2010-N091] [40137-1263-0000-0X]

Proposed Information Collection; OMB Control Number 1018-NEW; Refuge Daily Visitor Use Report and Check-In Permit

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: We (Fish and Wildlife Service) will ask the Office of Management and Budget (OMB) to approve the information collection (IC) described below. As required by the Paperwork Reduction Act of 1995 and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this opportunity to comment on this IC. We may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: To ensure that we are able to consider your comments on this IC, we must receive them by July 6, 2010.

Activity	Number of annual respondents	Number of annual responses	Completion time per response	Annual burden hours
FWS Form 3-2405 - Visitor Check-In Permit and Use Report	590,000	590,000	5 minutes	49,167
FWS Form 3-2406 - Daily Visitor Use Report	60,000	60,000	5 minutes	5,000
Totals	650,000	650,000	54,167

III. Request for Comments

We invite comments concerning this IC on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this IC. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: April 30, 2010

Hope Grey,

Information Collection Clearance Officer,
Fish and Wildlife Service.

BILLING CODE 4310-55-S

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Mormon Island Auxiliary Dam (MIAD) Modification Project, Sacramento and El Dorado Counties, CA

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of availability of the Final Supplemental Environmental Impact Statement/Environmental Impact Report (EIS/EIR).

SUMMARY: Pursuant to the National Environmental Policy Act and the California Environmental Quality Act (CEQA), the Bureau of Reclamation (Reclamation), the lead Federal agency

and the Sacramento Area Flood Control Agency (SAFCA), the CEQA lead agency, have prepared a Final Supplemental EIS/EIR for the MIAD Modification Project. The Final Supplemental EIS/EIR contains responses to comments received on the Draft Supplemental EIS/EIR.

A Notice of Availability of the Draft Supplemental EIS/EIR was published in the **Federal Register** on Friday, November 27, 2009 (74 FR 62346). The public review period on the Draft Supplemental EIS/EIR ended on January 18, 2010.

The MIAD Modification Project is a feature of the larger Folsom Dam Safety/Flood Damage Reduction (DS/FDR) Project currently underway by Reclamation, the U.S. Army Corps of Engineers (Corps), and the Corps' non-Federal sponsors, the Central Valley Flood Protection Board and SAFCA, to address hydrologic, static, and seismic issues at Folsom Dam and Reservoir. The analysis in the Folsom DS/FDR EIS/EIR considered several methods to modify MIAD to achieve Reclamation's risk standards for dam safety. Subsequent investigations have shown that the preferred alternative's design approaches and construction techniques need to be changed to achieve Reclamation's existing risk standards for dam safety. Specifically, the utilization of jet grouting to stabilize the foundation of MIAD will not meet Reclamation's dam safety standards. The MIAD Supplemental EIS/EIR analyzes additional techniques to stabilize the MIAD foundation to meet the existing risk standards for dam safety.

Additionally, the supplement addresses potential environmental effects associated with completing mitigation for the Folsom DS/FDR Project at the Mississippi Bar site. The two mitigation alternatives include the improvement of up to 80 acres of seasonal wetland and riparian habitat and the no action alternative. The environmental effects of the mitigation were not addressed in the previous environmental document as the location for mitigation had not been determined.

DATES: SAFCA will complete a CEQA Findings on the Final Supplemental EIS/EIR within 30 days of the document's release. No Federal decision will be made until 30 days after the

release of the Final Supplemental EIS/EIR. After this 30-day waiting period, Reclamation will complete a Record of Decision (ROD) for the MIAD modifications. A second ROD is anticipated for the habitat mitigation actions at Mississippi Bar. The RODs and CEQA Findings will identify the recommended action to be implemented, including any measures found necessary to avoid, reduce, or mitigate any significant adverse project effects.

ADDRESSES: Send requests for a compact disk or a bound copy of the Final Supplemental EIS/EIR to Mr. Matthew See, Bureau of Reclamation, 7794 Folsom Dam Road, Folsom, CA 95630 (e-mail: msee@usbr.gov; telephone: 916-989-7198). The MIAD Final Supplemental EIS/EIR will also be available at: http://www.usbr.gov/mp/nepa/nepa_projdetails.cfm?Project_ID=3472.

See the **SUPPLEMENTARY INFORMATION** section for locations where copies of the Final Supplemental EIS/EIR are available for public review.

FOR FURTHER INFORMATION CONTACT: Mr. Matthew See at 916-989-7198, TDD 916-989-7285, e-mail msee@usbr.gov.

SUPPLEMENTARY INFORMATION: The Folsom Facility consists of 12 structures (dams and dikes), that impound the American River forming Folsom Reservoir. As part of their responsibilities, Reclamation and the Corps have determined that the Folsom Facility requires structural improvements to increase overall public safety above existing conditions including addressing dam safety and security issues. Both Reclamation and the Corps share in the responsibility of ensuring that the Folsom Facility is maintained and operated under their respective agency dam safety regulations and guidelines, as defined by Congress. The improvements will enhance the facility's ability to reduce flood damages posed by hydrologic (flood), seismic (earthquake), and static (seepage) events. These events have a low probability of occurrence in a given year; however, due to the large population downstream of Folsom Dam, modifying the facilities is prudent and necessary to improve public safety above current baseline conditions and meet current safety standards.
