Corrosion-Resistant Carbon Steel Flat Products From the Republic of Korea: Extension of Time Limits for the Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

FOR FURTHER INFORMATION CONTACT: Victoria Cho, AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave., NW., Washington, DC 20230; *telephone:* (202) 482-5075.

Background

On September 22, 2009, the U.S. Department of Commerce ("Department") published a notice of initiation of the administrative review of the antidumping duty order on corrosion-resistant carbon steel flat products from the Republic of Korea, covering the period August 1, 2008 to July 31, 2009. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 74 FR 48224 (September 22, 2009). The preliminary results of this review were due no later than May 3, 2010. As explained in the memorandum from the Deputy Assistant Secretary for Import Administration, the Department has exercised its discretion to toll deadlines for the duration of the closure of the Federal Government from February 5, through February 12, 2010. Thus, all deadlines in this segment of the proceeding have been extended by seven days. The revised deadline for the preliminary results of this review is now

May 10, 2010. *See Memorandum to the Record from Ronald Lorentzen, DAS for Import Administration, regarding "Tolling of Administrative Deadlines as a Result of the Government Closure During the Recent Snowstorm,"* dated February 12, 2010.

Extension of Time Limit of Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires that the Department make a preliminary determination within 245 days after the last day of the anniversary month of an order for which a review is requested. Section 751(a)(3)(A) of the Act further states that if it is not practicable to complete the review within the time period specified, the administering authority may extend the 245-day period to issue its preliminary results to up to 365 days.

We determine that completion of the preliminary results of this review within the 245-day period is not practicable. Additional time is needed to gather and analyze a significant amount of information pertaining to sales practices, manufacturing costs and corporate relationships pertaining to each company participating in the review. Given the number and complexity of issues in this case, and in accordance with section 751(a)(3)(A) of the Act, we are fully extending the time period for issuing the preliminary results of review. Therefore, the preliminary results are now due no later than September 7, 2010. The final results continue to be due 120 days after publication of the preliminary results.

This notice is published pursuant to sections 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: April 30, 2010.

Edward C. Yang,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

[A-201-836]

Light-Walled Rectangular Pipe and Tube from Mexico; Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: May 10, 2010.

FOR FURTHER INFORMATION CONTACT: Brian Davis (Regiomontana) or Ericka Ukrow (Maquilacero), AD/CVD Operations, Office 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW, Washington, DC 20230; *telephone:* (202) 482-7924 or (202) 482-0405, respectively.

SUPPLEMENTARY INFORMATION:

Background

On September 22, 2009, the Department of Commerce (the Department) published in the **Federal Register** the initiation of administrative review of the antidumping duty order on light-walled rectangular pipe and tube from Mexico, covering the period of January 30, 2008, to July 31, 2009. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 74 FR 48224 (September 22, 2009). The current deadline for the preliminary results of this review is May 10, 2010.¹

Extension of Time Limits for Preliminary Results of Review

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires that the Department complete the preliminary results of an administrative review within 245 days after the last day of the anniversary month of an order for which a review is requested. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the preliminary results to a maximum of 365 days after the last day of the anniversary month of an order for which a review is requested.

The Department finds that it is not practicable to complete the preliminary results of this review within the original time frame because additional information from both mandatory respondents, Regiomontana S.A. de C.V. (Regiomontana) and Maquilacero S.A. de C.V. (Maquilacero), is necessary to complete our analysis. Additionally, we intend to conduct sales and cost verifications of Regiomontana's

¹ As explained in the memorandum from the Deputy Assistant Secretary for Import Administration, the Department has exercised its discretion to toll deadlines for the duration of the closure of the federal government from February 5, through February 12, 2010. Thus, all deadlines in this segment of the proceeding have been extended by seven days. The revised deadline for the preliminary results of this review is now May 10, 2010. *See Memorandum to the Record from Ronald Lorentzen, DAS for Import Administration, regarding "Tolling of Administrative Deadlines As a Result of the Government Closure During the Recent Snowstorm,"* dated February 12, 2010.

responses and release our verification reports prior to issuance of the preliminary results. Because the Department requires additional time to address the above, it is not practicable to complete this review within the original time limit (*i.e.*, May 10, 2010). Accordingly, the Department is extending the time limit for completion of the preliminary results of this administrative review by 120 days (*i.e.*, September 7, 2010), in accordance with section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2). We intend to issue the final results no later than 120 days after publication of the preliminary results notice.

This extension is issued and published in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: May 4, 2010.

John M. Andersen,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

National Telecommunications and Information Administration

[Docket No. 100504211-0211-01]

Notice of a Grant With the Public Broadcasting Service

AGENCY: National Telecommunications and Information Administration, U.S. Department of Commerce.

ACTION: Notice of a grant to the Public Broadcasting Service.

SUMMARY: The National Telecommunications and Information Administration (NTIA) announces its intent to award a grant to the Public Broadcasting Service (PBS), a private, nonprofit corporation whose members are America's public television stations. The PBS mission is to acquire and distribute quality children's, cultural, educational, history, nature, news, public affairs and science television programming and related services to 356 noncommercial stations serving all 50 states and the U.S. territories through a satellite interconnection system. This grant will support development of the Commercial Mobile Alert System (CMAS), a national system to distribute emergency alert messages to the American public via commercial mobile service (CMS) devices (*e.g.*, cellular telephones).

FOR FURTHER INFORMATION CONTACT: William Cooperman, Director, Public

Broadcasting Division, *telephone:* (202) 482-5802; *Fax:* (202) 482-2156; *e-mail:* wcooperman@ntia.doc.gov.

SUPPLEMENTARY INFORMATION:

Statutory Authority: Section 3010 of the Deficit Reduction Act of 2005, Public Law 109-171, 120 Stat. 4, 26-27 (Feb. 8, 2006) (establishing the National Alert and Tsunami Warning Program); Section 606 of the SAFE Port Act, Public Law 109-347, 120 Stat. 1884, 1941 (Oct. 13, 2006) (directing NTIA to compensate public television station licensees or permittees for reasonable costs incurred in complying with the requirements to support the distribution of geographically targeted alerts by commercial mobile service providers).

Background

Section 3010 of the Deficit Reduction Act of 2005 directed NTIA to establish a National Alert and Tsunami Warning Program and provided up to \$156 million during fiscal years 2007 through 2012 from the Digital Television Transition and Public Safety Act fund to pay for this effort. NTIA was directed to implement a unified national alert system capable of alerting the public, on a national, regional, or local basis to emergency situations by using a variety of communications technologies.

Congress subsequently enacted the WARN Act, Title VI of the SAFE Port Act, directing NTIA's expenditure of some of the funds provided under Section 3010 of the Deficit Reduction Act. The WARN Act set forth requirements to enable alerting capability for commercial mobile service providers that voluntarily elect to transmit emergency alerts as part of a national emergency alerting system. NTIA was directed to fund certain aspects of those activities in section 606 of the WARN Act, including compensating public television broadcasters for their reasonable costs to comply with the requirements imposed by section 602(c) of the WARN Act. Section 602(c) directed the Federal Communications Commission (FCC) to adopt regulations to require public television broadcasters to install necessary equipment and technologies on, or as part of, any broadcast television digital signal transmitter to enable the distribution of geographically targeted alerts by commercial mobile service providers that have elected to transmit emergency alerts.

On July 8, 2008, the FCC adopted rules requiring public television stations to install equipment and technologies to enable them to distribute geo-targeted emergency alerts to participating CMS providers. See The Commercial Mobile Alert System, Second Report and Order

and Further Notice of Proposed Rulemaking (Second Report), PS Dkt. No. 07-087, 23 F.C.C. Rcd. 10765 (July 8, 2008). The Second Report specified the functionality that must be built at the nation's public television stations and at a central collector to permit the public broadcasting system to provide a redundant pathway as one part of a national alerting system. The Second Report identified five types of equipment (Geo-targeting Systems, Groomers, Data Receivers, PBS Equipment, and Back-up Power Equipment) recommended by the Association of Public Television Stations (APTS) for this purpose. The Second Report also acknowledged that PBS or a similarly situated entity would provide the interface feed between the Alert Gateway, the national emergency message aggregator through which emergency messages would be disseminated, and the public broadcast television stations.

NTIA received an unsolicited proposal from PBS, which seeks funding on behalf of all affected public television stations as well as for elements of CMAS to be performed by PBS. APTS, an organization representing America's public television stations, has endorsed the proposal. The PBS proposal included the elements supported by APTS in its FCC filings and discussed by the FCC in the Second Report. NTIA has reviewed the PBS proposal pursuant to Department of Commerce policy and intends to award PBS a non-competitive grant under the authority of the Deficit Reduction Act of 2005 and the WARN Act to cover the costs of equipment necessary for public television stations to install equipment and systems to comply with the FCC requirements of the Second Report. PBS is uniquely qualified and best able to administer this award because it manages the national public television interconnection system, which will be the redundant pathway used by the public television stations for this national emergency alerting system; it has the demonstrated ability to work collaboratively with the public television stations to implement the project in the limited timeframe required by the FCC; and its management has the technical skills to implement and administer the project.

Dated: May 4, 2010.

Bernadette McGuire-Rivera,

Associate Administrator, Office of Telecommunications and Information Applications.
