FOR FURTHER INFORMATION CONTACT: If you have questions on this notice, call LTJG Christine Dimitroff, District Eight, Prevention Branch, U.S. Coast Guard, telephone 504–671–2176. If you have questions on viewing or submitting material to the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202–366–9826. SUPPLEMENTARY INFORMATION:

Background and Purpose

A Certificate of Alternative Compliance, as allowed under Title 33, Code of Federal Regulation, Parts 81 and 89, has been issued for the offshore supply vessel PEYTON CANDIES, O.N. 1219737. Full compliance with 72 COLREGS and Inland Rules Act would hinder the vessel's ability to conduct loading and unloading operations. The horizontal distance between the forward and aft masthead lights may be 6.506 meters. Placing the aft masthead light at the horizontal distance from the forward masthead light as required by Annex I, paragraph 3(a) of the 72 COLREGS would result in an aft masthead light location directly over the aft cargo deck where it would interfere with loading and unloading operations.

The Certificate of Alternative Compliance allows for the horizontal separation of the forward and aft masthead lights to deviate from the requirements of Annex I, paragraph 3(a) of 72 COLREGS. This notice is issued under authority of 33 U.S.C. 1605(c), and 33 CFR 81.18.

Dated: April 15, 2010.

J.W. Johnson,

Commander, U.S. Coast Guard, Chief, Inspections and Investigations Branch, By Direction of the Commander, Eighth Coast Guard District.

Coast Guard

[Docket No. USCG-2010-0342]

Certificate of Alternative Compliance for the Crew Boat CAPT PEYTON P

AGENCY: Coast Guard, DHS. **ACTION:** Notice.

SUMMARY: The Coast Guard announces that a Certificate of Alternative Compliance was issued for the crew boat CAPT PEYTON P as required by 33 U.S.C. 1605(c) and 33 CFR 81.18. **DATES:** The Certificate of Alternate Compliance was issued on April 22, 2010.

ADDRESSES: The docket for this notice is available for inspection or copying at the Docket Management Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. You may also find this docket on the Internet by going to *http://www.regulations.gov*, inserting USCG–2010–0342 in the "Keyword" box, and then clicking "Search."

FOR FURTHER INFORMATION CONTACT: If you have questions on this notice, call LTJG Christine Dimitroff, District Eight, Prevention Branch, U.S. Coast Guard, telephone 504–671–2176. If you have questions on viewing or submitting material to the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202–366–9826.

SUPPLEMENTARY INFORMATION:

Background and Purpose

A Certificate of Alternative Compliance as allowed under title 33, Code of Federal Regulation, parts 81 and 89, has been issued for the crew boat CAPT PEYTON P, O.N. 1224730. Full compliance with 72 COLREGS and the Inland Rules Act would hinder the vessel's ability to maneuver within close proximity of offshore platforms. Due to the design of the vessel it would be difficult and impractical to build a supporting structure that would put the side lights within 2'11-7/8" from the greatest breadth of the vessel, as required by Annex I, paragraph 3(b) of the 72 COLREGS and Annex I, Section 84.05(b), of the Inland Rules Act. Compliance with the rule would cause the lights on the crew boat CAPT PEYTON P to be in a location which would be highly susceptible to damage from offshore platforms. The crew boat CAPT PEYTON P cannot comply fully with lighting requirements as set out in international regulations without interfering with the special function of the vessel (33 U.S.C. 1605(c); 33 CFR 81.18). Locating the side lights $5'7-\frac{1}{16''}$ inboard from the greatest breadth of the vessel on the pilot house will provide a sheltered location for the lights and allow maneuvering within close proximity to offshore platforms.

In addition, the forward masthead light may be located on the top forward portion of the pilothouse 18'-2" above the hull. Placing the forward masthead light at the height as required by Annex I, paragraph 2(a) of the 72 COLREGS, and Annex I, Section 84.03(a) of the Inland Rules Act, would result in a masthead light location highly susceptible to damage when working in close proximity to offshore platforms.

Furthermore the horizontal distance between the forward and aft masthead lights may be 16'-9¹⁵/₁₆". Placing the aft masthead light at the horizontal distance from the forward masthead light as required by Annex I, paragraph 3(a) of the 72 COLREGS, and Annex I, Section 84.05(a) of the Inland Rules Act, would result in an aft masthead light location directly over the aft cargo deck where it would interfere with loading and unloading operations.

The Certificate of Alternative Compliance allows for the placement of the side lights to deviate from requirements set forth in Annex I, paragraph 3(b) of 72 COLREGS, and Annex I, paragraph 84.05(b) of the Inland Rules Act. In addition the Certificate of Alternative Compliance allows for the vertical placement of the forward masthead light to deviate from requirements set forth in Annex I, paragraph 2(a), and Annex I, Section 84.03(a) of the Inland Rules Act. Furthermore the Certificate of Alternative Compliance allows for the horizontal separation of the forward and aft masthead lights to deviate from the requirements of Annex I, paragraph 3(a) of 72 COLREGS, and Annex I, Section 84.05(a) of the Inland Rules Act.

This notice is issued under authority of 33 U.S.C. 1605(c), and 33 CFR 81.18.

Dated: April 27, 2010.

J.W. Johnson,

Commander, U.S. Coast Guard, Chief, Inspections and Investigations Branch, By Direction of the Commander, Eighth Coast Guard District.

Alaska Native Claims Selection

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of decision approving lands for conveyance.

SUMMARY: As required by 43 CFR 2650.7(d), notice is hereby given that the Bureau of Land Management will issue an appealable decision approving the conveyance of the surface estate in

certain lands to The Aleut Corporation pursuant to the Alaska Native Claims Settlement Act. The lands are located on the Rat Islands, west of Adak, Alaska, aggregating 187.08 acres. Notice of the decision will also be published four times in the Anchorage Daily News.

DATES: The time limits for filing an appeal are:

1. Any party claiming a property interest which is adversely affected by the decision shall have until June 11, 2010 to file an appeal.

2. Parties receiving service of the decision by certified mail shall have 30 days from the date of receipt to file an appeal.

[•] Parties who do not file an appeal in accordance with the requirements of 43 CFR part 4, subpart E, shall be deemed to have waived their rights.

ADDRESSES: A copy of the decision may be obtained from: Bureau of Land Management, Alaska State Office, 222 West Seventh Avenue, #13, Anchorage, Alaska 99513–7504.

FOR FURTHER INFORMATION CONTACT: The Bureau of Land Management by phone at 907–271–5960, or by e-mail at *ak.blm.conveyance@ak.blm.gov.* Persons who use a telecommunication device (TTD) may contact the BLM by calling the Federal Information Relay Service (FIRS) at 1–800–877–8339, 24 hours a day, 7 days a week.

National Park Service

Notice of Intent to Repatriate a Cultural Item: U.S. Department of Defense, Army Corps of Engineers, Walla Walla District, Walla Walla, WA and Museum of Anthropology, Washington State University, Pullman, WA

AGENCY: National Park Service, Interior. **ACTION:** Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3005, of the intent to repatriate a cultural item in the possession of the U.S. Department of Defense, Army Corps of Engineers, Walla Walla District, Walla Walla, WA, and Museum of Anthropology, Washington State University, Pullman, WA, that meets the definition of "unassociated funerary object" under 25 U.S.C. 3001.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the cultural item. The National Park Service is not responsible for the determinations in this notice.

In 1968, an unassociated funerary object was removed from the floodplain area of site 45FR50, Marmes Rockshelter, in Franklin County, WA. during excavations conducted by Washington State University under contract with the Army Corps of Engineers. The object is an articulated owl foot, originally found between two modified stone flakes, in the Marmes Windust Phase stratum at the site (11,000-8,000 BP). The object - the owl foot bones and two modified chert or chalcedony flakes - was accessioned by Washington State University under inventory number 5780.

Site 45FR50 consists of a rockshelter and sloping floodplain area in front of the rockshelter proper. The archeological materials at site 45FR50 have been variously classified into chronological and cultural phases, and include the Windust Phase (+11,000– 8000 BP), Cascade Phase (8000–4500 BP), Tucannon Phase (4500–2500 BP), and Harder Phase (2500–500 BP). The floodplain deposits date from the earliest period, or the Windust Phase.

Human remains representing a minimum of four individuals and associated funerary objects were excavated from the floodplain deposits. The associated funerary objects included 23 pieces of faunal material directly associated with the human remains, and four bone rods found with a specific individual identified at the time of excavation as Marmes I. Other cultural items excavated from the earliest deposit (Windust Phase) include stone tools and lithic debitage, worked and unworked faunal bone, and possibly some red ochre. The owl foot object (consisting of the owl foot bones and two modified flakes) was excavated from the Windust Phase stratum, but was not found in direct association with any human remains. However, owls are important in southern Plateau Native American culture as ceremonial symbols, and items such as the owl foot object are still used as funerary items in Yakama and Nez Perce burials. Owl parts were often buried with medicine
