

address, a description and the location of the records requested, compliant tracking number, and verification of identity. FMCSA's requirement for verification of identity for NCCDB include the following:

- Complaint ID/tracking number of the complaint.
- Name address and telephone number.
- Date of complaint.
- Origin and destination of the complaint (If appropriate).
- Respondent's name and DOT number (If appropriate).
- Description of the complaint.

RECORD ACCESS PROCEDURES:

Individuals seeking access to information about them in this system should apply to the System Manager, following the same procedure as indicated under "Notification Procedure."

CONTESTING RECORD PROCEDURES:

Individuals seeking to contest the content of information about them in this system should apply to the System Manager, following the same procedure as indicated under "Notification Procedure."

RECORD SOURCE CATEGORIES:

NCCDB complaints are obtained from consumers, motor carriers, brokers, and consumers who contract with Hazardous Materials motor carriers and Cargo Tank Facilities.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

Pursuant to subsection (k)(2) of the Privacy Act (5 U.S.C. 552a(k)(2)), portions of this system are exempt from the requirements of subsections (c)(3), (d), (e)(4)(G)–(I) and (f) of the Act, for the reasons stated in DOT's Privacy Act regulation (49 CFR Part 10, Appendix, Part II at A.8.

Dated: May 6, 2010.

Habib Azarsina,

Departmental Privacy Officer.

BILLING CODE 4910-9X-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket No. FRA-2000-7257; Notice No. 61]

Railroad Safety Advisory Committee; Charter Renewal

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Announcement of Charter Renewal of the Railroad Safety Advisory Committee (RSAC).

SUMMARY: FRA announces the charter renewal of the RSAC, a Federal Advisory Committee that develops railroad safety regulations through a consensus process. This charter renewal will take effect on May 17, 2010, and will expire after 2 years.

FOR FURTHER INFORMATION CONTACT: Larry Woolverton, RSAC Administrative Officer/Coordinator, FRA, 1200 New Jersey Avenue, SE., Mailstop 25, Washington, DC 20590, (202) 493-6212; or Grady Cothen, Deputy Associate Administrator for Safety, FRA, 1200 New Jersey Avenue, SE., Mailstop 25, Washington, DC 20590, (202) 493-6302.

SUPPLEMENTARY INFORMATION: Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), FRA is giving notice of the charter renewal for the RSAC. The RSAC was established to provide advice and recommendations to FRA on railroad safety matters. The RSAC is composed of 54 voting representatives from 31 member organizations, representing various rail industry perspectives. In addition, there are non-voting advisory representatives from the agencies with railroad safety regulatory responsibility in Canada and Mexico, the National Transportation Safety Board, and the Federal Transit Administration. The diversity of the Committee ensures the requisite range of views and expertise necessary to discharge its responsibilities. See the RSAC Web site for details on pending tasks at: <http://rsac.fra.dot.gov/>. Please refer to the notice published in the **Federal Register** on March 11, 1996, 61 FR 9740, for additional information about the RSAC.

Issued in Washington, DC, on May 7, 2010.

Grady C. Cothen, Jr.,

Deputy Associate Administrator for Safety Standards and Program Development.

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement: Multiple Counties, New York, and New Jersey

AGENCY: Federal Highway Administration (FHWA), USDOT.

ACTION: Revised Notice of Intent (NOI).

SUMMARY: The Federal Highway Administration (FHWA) and the Port Authority of New York and New Jersey

(PANYNJ) are issuing this Revised Notice of Intent (NOI) to advise the public of modifications to the environmental review process for the Cross Harbor Freight Movement Program (Project Identification Number: X500.19). These revisions include a change in project sponsorship to the PANYNJ, the intent of FHWA and PANYNJ to use a tiered process to facilitate project decision-making, and the intent of FHWA and PANYNJ to utilize the environmental review provisions afforded under Section 6002 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU). This notice revises the NOI that was published in the **Federal Register** on June 7, 2001.

The greater New York/New Jersey region is the financial center of the U.S. economy and the nation's largest consumer market. The regional economy relies on a goods movement system overwhelmingly dependent on trucking and an aging and congested highway network. Regional forecasts of truck growth vary depending on the source, year, and geography, but available sources agree that truck tonnage is anticipated to increase substantially, with some forecasts calling for a 36% increase in tonnage by 2035. In the absence of network or system improvements, this growth and the region's dependence on trucking for freight distribution will result in serious regional highway congestion and extended travel delays—a trend which could threaten the economic vitality of the greater New York/New Jersey region.

The EIS will analyze alternatives that would provide short-term and long-term strategies for improving the regional freight network, reducing traffic congestion, enhancing modal diversity and system redundancy, improving air quality, and providing economic benefits. The FHWA and PANYNJ are serving as joint-lead agencies for the preparation of the EIS and are issuing this notice to solicit public and agency input into the scope of the EIS and to advise the public that outreach activities will be conducted by FHWA and PANYNJ. New York State and New Jersey Departments of Transportation (NYSDOT and NJDOT) are serving as cooperating agencies for the preparation of the EIS.

The EIS analyses will be conducted using "tiering," as described in 40 CFR 1508.28, which is a staged process applied to the environmental review of complex projects. Tier I of the EIS will allow the agencies to focus on general transportation modes and alignments for the proposed project, including logical
