Credit Reforms in Organized Wholesale Electric Markets; Notice of Agenda for Technical Conference

May 5, 2010.

As announced in the Notice of Technical Conference issued on April 15, 2010, Commission staff will hold a technical conference on May 11, 2010. The purpose of this conference is to discuss the proposal in the Credit Reforms in Organized Wholesale Electric Markets Notice of Proposed Rulemaking¹ regarding whether Independent System Operator (ISO)/Regional Transmission Operators (RTOs) should adopt certain tariff revisions to clarify their status as a party to each transaction so as to eliminate ambiguity regarding their ability to “set-off” market obligations and whether this proposal will have additional ramifications. The conference will be held from 9 a.m. to 12:30 p.m. (EDT), in the Commission Meeting Room at the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC. All interested persons are invited to attend, and registration is not required.

The agenda is attached. There will be two panels. The first panel will discuss the issue from the perspective of the ISO/RTO as market administrator but will also include the perspective of regulatory oversight in related markets. The second panel will discuss the issue from both a market participant perspective and a legal perspective.

As previously announced, a free webcast of this event will be available. Anyone with internet access who desires to view this event can do so by navigating <http://www.ferc.gov>'s Calendar of Events and locating this event in the Calendar.
