Certain Hot-Rolled Carbon Steel Flat Products from India: Notice of Final Results of Antidumping Duty Administrative Review and Rescission of Administrative Review in Part

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On January 8, 2010, the Department of Commerce (“the Department”) published the preliminary results of the antidumping duty administrative review for certain hot-rolled carbon steel flat products from India (“Indian Hot-Rolled”). See *Certain Hot-Rolled Carbon Steel Flat Products from India: Notice of Preliminary Results of Antidumping Duty Administrative Review, and Intent to Rescind in Part*, 75 FR 1031 (January 8, 2010) (“Preliminary Results”). The review covers one respondent, Essar Steel Limited (“Essar”). The period of review (“POR”) is December 1, 2007, through November 30, 2008. We invited parties to comment on our Preliminary Results. We did not receive any comments and we have made no changes for the final results of review.

EFFECTIVE DATE: May 14, 2010.

FOR FURTHER INFORMATION CONTACT: Joy Zhang or James Terpstra, AD/CVD Operations Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-1168 and (202) 482-3965, respectively.

SUPPLEMENTARY INFORMATION:

Background

On January 8, 2010, the Department published the *Preliminary Results*. Since the *Preliminary Results*, we have not received any comments from interested parties.

Scope of the Order

The merchandise subject to this order is certain hot-rolled carbon steel flat products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers), regardless of thickness, and in straight lengths, of a thickness of less than 4.75 mm and of a width measuring at least 10 times the thickness. Universal mill plate (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm, but not exceeding 1250 mm, and of a thickness of not less than 4 mm, not in coils and without patterns in relief) of a thickness not less than 4.0 mm is not included within the scope of this order.

Specifically included in the scope of this order are vacuum-degassed, fully stabilized (commonly referred to as interstitial-free “IF”) steels, high-strength low-alloy (“HSLA”) steels, and the substrate for motor lamination steels. IF steels are recognized as low-carbon steels with micro-alloying levels of elements such as titanium or niobium (also commonly referred to as columbium), or both, added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, vanadium, and molybdenum. The substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum.

Steel products included in the scope of this order, regardless of definitions in the Harmonized Tariff Schedule of the United States (“HTSUS”), are products in which: i) iron predominates, by weight, over each of the other contained elements; ii) the carbon content is 2 percent or less, by weight; and iii) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

- 1.80 percent of manganese, or
- 2.25 percent of silicon, or
- 1.00 percent of copper, or
- 0.50 percent of aluminum, or
- 1.25 percent of chromium, or
- 0.30 percent of cobalt, or
- 0.40 percent of lead, or
- 1.25 percent of nickel, or

- 0.30 percent of tungsten, or
- 0.10 percent of molybdenum, or
- 0.10 percent of niobium, or
- 0.15 percent of vanadium, or
- 0.15 percent of zirconium.

All products that meet the physical and chemical description provided above are within the scope of this order unless otherwise excluded. The following products, by way of example, are outside or specifically excluded from the scope of this order:

* Alloy hot-rolled carbon steel products in which at least one of the chemical elements exceeds those listed above (including, *e.g.*, American Society for Testing and Materials (“ASTM”) specifications A543, A387, A514, A517, A506).

* Society of Automotive Engineers (“SAE”)/American Iron & Steel Institute (“AISI”) grades of series 2300 and higher.

* Ball bearings steels, as defined in the HTSUS.

* Tool steels, as defined in the HTSUS.

* Silico-manganese (as defined in the HTSUS) or silicon electrical steel with a silicon level exceeding 2.25 percent.

* ASTM specifications A710 and A736.

* United States Steel (“USS”) Abrasion-resistant steels (USS AR 400, USS AR 500).

* All products (proprietary or otherwise) based on an alloy ASTM specification (sample specifications: ASTM A506, A507).

* Non-rectangular shapes, not in coils, which are the result of having been processed by cutting or stamping and which have assumed the character of articles or products classified outside chapter 72 of the HTSUS.

The merchandise subject to this order is currently classifiable in the HTSUS at subheadings: 7208.10.15.00, 7208.10.30.00, 7208.10.60.00, 7208.25.30.00, 7208.25.60.00, 7208.26.00.30, 7208.26.00.60, 7208.27.00.30, 7208.27.00.60, 7208.36.00.30, 7208.36.00.60, 7208.37.00.30, 7208.37.00.60, 7208.38.00.15, 7208.38.00.30, 7208.38.00.90, 7208.39.00.15, 7208.39.00.30, 7208.39.00.90, 7208.40.60.30, 7208.40.60.60, 7208.53.00.00, 7208.54.00.00, 7208.90.00.00, 7211.14.00.90, 7211.19.15.00, 7211.19.20.00, 7211.19.30.00, 7211.19.45.00, 7211.19.60.00, 7211.19.75.30, 7211.19.75.60, and 7211.19.75.90.

Certain hot-rolled carbon steel covered by this order, including: vacuum-degassed fully stabilized; high-strength low-alloy; and the substrate for motor lamination steel may also enter under

the following tariff numbers: 7225.11.00.00, 7225.19.00.00, 7225.30.30.50, 7225.30.70.00, 7225.40.70.00, 7225.99.00.90, 7226.11.10.00, 7226.11.90.30, 7226.11.90.60, 7226.19.10.00, 7226.19.90.00, 7226.91.50.00, 7226.91.70.00, 7226.91.80.00, and 7226.99.00.00. Subject merchandise may also enter under 7210.70.30.00, 7210.90.90.00, 7211.14.00.30, 7212.40.10.00, 7212.40.50.00, and 7212.50.00.00. Although the HTSUS subheadings are provided for convenience and customs purposes, the Department's written description of the merchandise subject to this order is dispositive.

Rescission of Review in Part

In the *Preliminary Results*, we found that the claims by Ispat Industries Limited ("Ispat"), JSW Steel Limited ("JSW"), and Tata Steel Limited ("Tata") that they made no shipments of subject merchandise during the POR were consistent with import data provided by U.S. Customs and Border Protection ("CBP"). Accordingly, we stated our intent to rescind the administrative review with respect to these companies. See *Preliminary Results*, 75 FR at 1033. We received no comment concerning our intent to rescind. We continue to find that Ispat, JSW and Tata had no shipments of hot-rolled products from India during the POR for the final results of this review. As such we are rescinding the review with respect to Ispat, JSW and Tata.

Adverse Facts Available

For the final results, we continue to find that, by failing to provide information we requested, Essar, did not act to the best of its ability. Thus, we continue to find that the use of adverse facts available ("AFA") is warranted for this company under sections 776(a)(2) and (b) of the Tariff Act of 1930, as amended ("the Act"). See *Preliminary Results*, 75 FR at 1033–1036.

As we explained in the *Preliminary Results*, the rate of 28.25 percent selected as the AFA for Essar is the highest calculated margin from the investigation in this case as adjusted to account for countervailing duties imposed to offset export subsidies. Further, as discussed in the *Preliminary Results*, we continue to find that the use of the rate of 28.25 percent as an AFA rate is sufficiently high to ensure that Essar does not benefit from failing to cooperate in our review by refusing to respond to our questionnaire. We consider the 28.25 percent rate corroborated "to the extent practicable" in accordance with section 776(c) of the

Act. See *Preliminary Results*, 75 FR at 1033–1036.

Final Results of the Review

As a result of this review, we determine find that the following dumping margin exists for the period December 1, 2007, through November 30, 2008.

Producer/Manufacturer	Rate Adjusted for Export Subsidies
Essar	28.25 %

Assessment

The Department will determine, and CBP shall assess, antidumping duties on all appropriate entries, pursuant to 19 CFR 351.212(b). The Department calculated importer-specific duty assessment rates on the basis of the ratio of the total antidumping duties calculated for the examined sales to the total entered value of the examined sales for that importer. Where the assessment rate is above *de minimis*, we will instruct CBP to assess duties on all entries of subject merchandise by that importer. The Department intends to issue appropriate assessment instructions directly to CBP 15 days after publication of these final results of review.

The Department clarified its "automatic assessment" regulation on May 6, 2003 (68 FR 23954). This clarification applies to POR entries of subject merchandise produced by companies examined in this review (*i.e.*, companies for which a dumping margin was calculated) where the companies did not know that their merchandise was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction. For a full discussion of this clarification, see *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003).

Cash Deposit Requirements

The following deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of certain hot-rolled carbon steel flat products from India entered, or withdrawn from warehouse, for consumption on or after the publication date of these final results, as provided by section 751(a) of the Act: (1) for companies covered by this review, the cash deposit rate will be the rate listed above; (2) for previously reviewed or investigated companies other than those covered by this review,

the cash deposit rate will be the company-specific rate established for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the less-than-fair-value investigation, but the producer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the subject merchandise; and (4) if neither the exporter nor the producer is a firm covered in this review, a prior review, or the investigation, the cash deposit rate will be 23.87 percent, the all-others rate established in the less-than-fair-value investigation. These deposit requirements shall remain in effect until further notice.

Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping and/or countervailing duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the presumption that reimbursement of antidumping and/or countervailing duties occurred and the subsequent increase in antidumping duties by the amount of antidumping and/or countervailing duties reimbursed.

Administrative Protective Order

This notice also is the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing these results and notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: May 5, 2010.

Ronald K. Lorentzen,
Deputy Assistant Secretary for Import Administration.
