[Project Nos. 2503–136]

Duke Energy Carolinas, LLC; Notice of Availability of Environmental Assessment

May 10, 2010.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed an application submitted by Duke Energy Carolinas, LLC (licensee) for non-project use of project lands and waters at the Keowee-Toxaway Project (FERC No. 2503). An environmental assessment (EA) has been prepared as part of staff's review of the proposal. The proposed use would be located on Lake Keowee in Oconee County, South Carolina.

In the application, the licensee proposes to issue a lease to Sleppy, LLC, to build a residential marina for the Wilderness Cove subdivision. The proposed marina would consist of 2 floating, cluster docks accommodating a total of 30 watercraft, one concrete boat ramp, and 189 linear feet of rip-rap inter-planted with native vegetation. The boat ramp would serve a private, dry-dock boat-storage facility intended for the residents of Wilderness Cove subdivision, which would be located outside of the project boundary. The EA contains Commission staff's analysis of the probable environmental impacts of the proposed action and concludes that approval of the proposal would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA is attached to a Commission order titled "Order Modifying and Approving Non-Project Use of Project Lands and Waters," which was issued May 10, 2010, and is available for review and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number (P-2503) in the docket number field to access the document. Guidance for Federal Land Management in the Chesapeake Bay Watershed

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: This notice announces the availability of a final Guidance for Federal Land Management in the Chesapeake Bay Watershed which EPA is publishing pursuant to Section 502 of Executive Order (EO) 13508 ("Chesapeake Bay Protection and Restoration", published on May 12,

2009). This guidance will allow the federal government to lead the way in protecting the Bay and its watershed with the most effective tools and practices available to reduce water pollution from a variety of nonpoint sources, including agricultural lands, urban and suburban areas, forestry, riparian areas, septic systems, and hydromodification. This guidance is the first product under the Chesapeake Bay Executive Order to provide technical tools that will be needed to restore the Bay. Section 501 of the Executive Order directs federal agencies with ten or more acres within the Chesapeake Bay watershed to implement the Section 502 guidance as expeditiously as practicable and to the extent permitted by law.

SUPPLEMENTARY INFORMATION:

I. General Information

Executive Order 13508, Chesapeake Bay Protection and Restoration, dated May 12, 2009 (74 FR 23099, May 15, 2009), directed EPA to prepare and publish a guidance for federal land management in the Chesapeake Bay watershed within one year. A draft of this guidance was released for public comment on March 24, 2010 (75 FR 91294, March 24). This final guidance incorporates revisions resulting from public comments, consideration by the federal agencies, and peer review comments.

Why was this guidance prepared?

The purpose of this guidance is to describe "proven cost-effective tools and practices that reduce water pollution" that are appropriate to restore and protect the Chesapeake Bay. Assuming that all necessary point source reductions are achieved and other needed restoration actions are taken, these tools and practices, when implemented broadly, aim to enable the Chesapeake Bay to be restored. While the primary audience for this document is Federal land managers, nonfederal land managers, including states, local governments, conservation districts, watershed organizations, developers, farmers and citizens may also find this guidance to be helpful.

In significant part, this guidance is being developed to offer solutions for implementation to meet specific Chesapeake Bay goals. EPA, in
