

hours burden before adjustments is 33,719 hours [(841 non-index filings x 39 hours) + (20 index filings x 2 hours) + (22 acquiring person non-index filings requiring more precise valuation<sup>6</sup> x 40 hours)].

As in the past, however, staff further estimates that half of those submitting non-index filings will incorporate Item 4(a) and Item 4(b) documents by reference to an Internet link, and that doing so will reduce individual burden by one hour. Accordingly, the cumulative reduction to the above total would be 421 hours (841 non-index filings x ½ ≈ 421, multiplied by 1 hour), resulting in net estimated burden for fiscal year 2010 of 33,298 hours.

This estimate is conservative. In estimating PRA burden, staff considered “the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency.” 5 CFR 1320.3(b)(1). This includes “developing, acquiring, installing, and utilizing technology and systems for the purpose of disclosing and providing information.” 5 CFR 1320.3(b)(1)(iv). Although not expressly stated in the OMB definitions regulation implementing the PRA, the definition of burden arguably includes upgrading and maintaining computer and other systems used to comply with a rule’s requirements. Conversely, to the extent that these systems are customarily used in the ordinary course of business independent of the Rule, their associated upkeep would fall outside the realm of PRA “burden.” See 5 CFR 1320.3(b)(2).

Industry has been subject to the basic provisions of the HSR Rules since 1978. Thus, businesses have had several years

(and some have had decades) to integrate compliance systems into their business procedures. Accordingly, most companies now maintain records and provide updated order information of the kind required by the HSR Rules in their ordinary course of business. Nevertheless, staff conservatively assumes that the time devoted to compliance with the Rule by existing and new companies remains unchanged from its preceding estimate.

*Estimated labor costs:* \$15,317,080

Using the burden hours estimated above and applying an estimated average of \$460/hour for executive and attorney wages,<sup>7</sup> staff estimates that the total labor cost associated with the HSR Rules and the Notification and Report Form is approximately \$15,317,080 (33,298 hours x \$460/hour).

*Estimated annual non-labor cost burden:* \$0 or minimal

The applicable requirements impose minimal start-up costs, as businesses subject to the HSR Rules generally have or obtain necessary equipment for other business purposes. Staff believes that the above requirements necessitate ongoing, regular training so that covered entities stay current and have a clear understanding of federal mandates, but that this would be a small portion of and subsumed within the ordinary training that employees receive apart from that associated with the information collected under the HSR Rules and the corresponding Notification and Report Form.

*Title:* Application Requirements for the LIHEAP and Detailed Model Plan.

*OMB No.:* 0970–0075.

*Description:* States, including the District of Columbia, Tribes, tribal organizations and territories applying for LIHEAP block grant funds must submit an annual application (Model Plan) that meets the LIHEAP statutory and regulatory requirements prior to receiving Federal funds. A detailed application must be submitted every 3 years. Abbreviated applications may be submitted in alternate years. There have been no changes in the Model Plan since the approval of the addition of the LIHEAP Program Integrity Assessment and Plan by the Office of Management and Budget earlier this year.

Presidential Executive Order 13520, reducing Improper Payments and Eliminating Waste in Federal Programs, issued in November 2009, encourages Federal agencies to take deliberate and immediate action to eliminate fraud and improper payments. As part of the review of programs subsequent to this executive order, HHS has determined that additional information from each administering agency is necessary to assess grantee measures that are in place to prevent, detect or address waste, fraud and abuse in LIHEAP programs.

*Respondents:* State, Local or Tribal Governments.

transactions involving an acquisition of 50% or more of an entity’s assets or voting securities. The rationale for this exclusion is that the remainder, 38 transactions, reflects incremental acquisitions that fell between notification and filing fee thresholds and thus would likely need more precise valuation to determine which side of a threshold the transaction falls upon. The resulting fiscal year 2009 total, 38, is then used to project the fiscal year 2010 volume of such transactions. To do this, we first calculated the proportion this net figure
