development common goals and objectives. An application form is used to collect basic information from the student to determine eligibility and qualifications for fellowship. The NHI is authorized under Section 5204 of The Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users of 2005 (SAFETEA–LU) which calls for the development and delivery of courses for the transportation community and requires the involvement and satisfaction measurement of transportation partners. One vital component involved in reaching those goals is providing training pertaining to highway activities, making sure that professionals and members of the public have access to the best, most accurate information. Towards this goal, the NHI develops and implements applicable training programs. To manage this increasingly complex task and to make the training process more accessible and useful, NHI has automated an online training management tool—the NHI Web Portal. The training evaluation and registration forms collect basic participant data for record keeping and basic course and instructor evaluation information for customer feedback about what NHI is doing well and what we need to improve.
