

Department shall, subject to section 782(d) of the Act, use the facts otherwise available in reaching the applicable determination under this title. Furthermore, section 776(b) of the Act provides that, if a party has failed to act to the best of its ability, the Department may apply an adverse inference.

Thus, for the purposes of critical circumstances, we have applied adverse facts available (“AFA”) to Mayerton in accordance with sections 776(a) and (b) of the Act. Accordingly, as AFA we preliminarily find that there were massive imports of merchandise from Mayerton.

C. Separate Rate Applicants

As noted above, we requested seven months of shipment information from RHI, a mandatory respondent in this investigation, and determined that RHI’s imports were massive. Because it has been the Department’s practice to conduct its massive imports analysis of separate rate companies based on the experience of investigated companies,¹⁰ we did not request monthly shipment information from the separate rate applicants. The Department has relied upon RHI’s import data in determining whether there have been massive imports for the separate rate companies. Accordingly, based on RHI’s import data, we find that imports in the post-petition period were massive for those companies because RHI’s import volume is greater than 15 percent when comparing the base period to the comparison period. *See* Critical Circumstances Memo. Thus, pursuant to 19 CFR 351.206(h), we determine that this increase, being greater than 15 percent, shows that imports in the comparison period were massive for the separate rate companies.

D. PRC-Wide Entity

Because the PRC-wide entity did not cooperate with the Department by not responding to the Department’s antidumping questionnaire, we were unable to obtain shipment data from the PRC-wide entity for purposes of our critical circumstances analysis, and thus there is no verifiable information on the record with respect to its export volumes.

Section 776(a)(2) of the Act provides that, if an interested party or any other person (A) withholds information that has been requested by the administering authority or the Commission under this title, (B) fails to provide such information by the deadlines for submission of the information or in the

form and manner requested, subject to subsections (c)(1) and (e) of section 782 of the Act, (C) significantly impedes a proceeding under the Act, or (D) provides such information but the information cannot be verified as provided in section 782(i) of the Act, the Department shall, subject to section 782(d) of the Act, use the facts otherwise available in reaching the applicable determination under this title.

Furthermore, section 776(b) of the Act provides that, if a party has failed to act to the best of its ability, the Department may apply an adverse inference. The PRC-wide entity did not respond to the Department’s request for information. Thus, we are using facts available, in accordance with section 776(a) of the Act, and, pursuant to section 776(b) of the Act, we also find that AFA is warranted because the PRC-wide entity has not acted to the best of its ability in not responding to the request for information. Accordingly, as AFA we preliminarily find that there were massive imports of merchandise from the PRC-wide entity.¹¹

Critical Circumstances

Record evidence indicates that importers of the merchandise under consideration knew, or should have known, that exporters were selling the merchandise at LTFV, and that there was likely to be material injury by reason of such sales. In addition, record evidence indicates that RHI, Mayerton, the separate rate applicants and the PRC-wide entity had massive imports during a relatively short period. Therefore, in accordance with section 733(e)(1) of the Act, we preliminarily find that there is reason to believe or suspect that critical circumstances exist for imports of subject merchandise from RHI, Mayerton, the separate rate applicants and the PRC-wide entity in this antidumping duty investigation.

ITC Notification

In accordance with section 733(f) of the Act, we have notified the ITC of our preliminary determination.

Public Comment

As noted in the *Preliminary Determination*, case briefs or other written comments may be submitted to the Assistant Secretary for Import Administration no later than seven business days after the date on which the final verification report is issued in this proceeding. Rebuttal briefs limited to issues raised in case briefs must be received no later than five business days

after the deadline date for case briefs. *See* 19 CFR 351.309(c)(i) and (d). A list of authorities used and an executive summary of issues should accompany any briefs submitted to the Department. This summary should be limited to five pages total, including footnotes.

Suspension of Liquidation

With respect to the RHI, Mayerton, the separate rate applicants and the PRC-wide entity, in accordance with section 733(e)(2)(A) of the Act, we will direct CBP to suspend liquidation of all unliquidated entries of bricks from the PRC that were entered, or withdrawn from warehouse, for consumption on or after December 14, 2010, which is 90 days prior to March 12, 2010, the date of publication in the **Federal Register** of our *Preliminary Determination* in this investigation.

This determination is published pursuant to section 733(f) of the Act and 19 CFR 351.206(c)(2)(ii).

Dated: May 13, 2010.

Ronald K. Lorentzen,

Deputy Assistant Secretary for Import Administration.
