[Project No. 12687–003]

Public Utility District No. 1 of Snohomish County; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

May 14, 2010.

On March 2, 2010, and supplemented on April 29, 2010, and May 4, 2010, Public Utility District No. 1 of Snohomish County, Washington (Snohomish PUD) filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Deception Pass Tidal Energy Project (project). The project would be located in Puget Sound within Deception Pass, between Whidbey Island and Fidalgo Island, in Skagit and Island Counties, Washington. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners’ express permission.

The proposed project would consist of the following: (1) Four approximately 66-foot-diameter, 1.6-megawatt horizontal axis tidal energy turbine/generator units, each mounted approximately 25 feet above the sea bed; (2) an approximately 1-mile-long subsea transmission cable, which may be buried as it approaches shore at Miller Bay; (3) a cable termination vault on shore; (4) either an approximately 6.5-mile long above ground transmission line connecting with Puget Sound Energy’s existing March Point substation, or an above ground transmission line and new substation connecting with an existing 115-kilovolt line, the location of which is yet to be determined; and (5) appurtenant facilities. The project is estimated to have average annual generation of 20.7 gigawatt-hours, which would be distributed by the Snohomish PUD.
