An e-mail confirming registration will include the details needed to participate in the Web meeting. Non-US citizens are encouraged to participate in the web meeting. Non-US citizens who do not register to attend in person on or before June 2, 2010, will not be granted access to the meeting site and will not be able to attend the meeting in-person due to mandatory security clearance procedures at the Patriots Plaza facility.

Background: NORA is a partnership program to stimulate innovative research in occupational safety and health leading to improved workplace practices. Unveiled in 1996, NORA has become a research framework for the nation. Diverse parties collaborate to identify the most critical issues in workplace safety and health. Partners then work together to develop goals and objectives for addressing those needs and to move the research results into practice. The NIOSH role is facilitator of the process. For more information about NORA, see <http://www.cdc.gov/niosh/nora/about.html>.

Since 2006, NORA has been structured according to industrial sectors. Eight major sector groups have been defined using the North American Industrial Classification System (NAICS). After receiving public input through the web and town hall meetings, ten NORA Sector Councils have been working to define sector-specific strategic plans for conducting

research and moving the results into widespread practice. During 2008–2009, most of these Councils have posted draft strategic plans for public comment. Seven have posted finalized National Sector Agendas after considering comments on the drafts. For more information, see the link above and choose "Sector-based Approach," "NORA Sector Councils," "Sector Agendas" and "Comment on Draft Sector Agendas" from the right-side menu.
