**SUPPLEMENTARY INFORMATION:**

OMB Control Number: 3060-0742.  
Title: Sections 52.21 through 52.33, Telephone Number Portability (47 CFR Part 52, Subpart C) and CC Docket No. 95-116.

Form Number: N/A.  
Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 3,616 respondents; 10,001,890 responses.

Estimated Time per Response: 4 minutes – 410 hours.

Frequency of Response: One time and on occasion reporting requirements and recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. section 1, 2, 3, 251 and 332 of the Communications Act of 1934, as amended.

Total Annual Burden: 672,516 hours.

Total Annual Cost: \$13,424,320.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: The Commission is not requesting that respondents submit confidential information to the Commission. If the Commission requests respondents to submit information which the respondents believe is confidential, respondents may request confidential treatment under 47 CFR 0.459 of the Commission rules.

Needs and Uses: The Commission will submit this expiring information collection (IC) as a revision to the Office of Management and Budget (OMB) to obtain the full three year clearance from them. The Commission has changed the reporting requirements and significantly increased the estimated hour and cost burdens. This increase is based on 1,626 carriers that engage in simple intermodal and wireline-to-wireline ports. We estimate that 1,626 carriers will complete an average of 6,150 ports per year with an average of 410 hours per response which results in 666,666 hours of additional burden to this IC and \$13,333,320 in additional annual costs.

The Commission is revising this IC by adding standardized local service request data fields. Section 251(b)(2) of the Telecommunications Act of 1996 requires LECs to "provide, to the extent technically feasible, number portability in accordance with requirements prescribed by the Commission." Through the Local Number Portability (LNP) process, consumers have the ability to retain their phone number when switching telecommunications service providers, enabling them to choose a provider that best suits their needs and enhancing competition. In the Porting Internal Order and Further Notice, the Commission mandated a one business day porting interval for simple wireline-to-wireline and intermodal port requests. The information collected in the standard local service request data fields is necessary to complete simple wireline-to-wireline and intermodal ports within the one business day porting interval mandated by the Commission and will be used to

comply with section 251 of the Telecommunications Act of 1996.
