SUPPLEMENTARY INFORMATION:

Title: Interstate Movement of Certain Land Tortoises.

OMB Number: 0579-0156.

Type of Request: Extension of approval of an information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) regulates the importation and interstate movement of certain animals and animal products to prevent the introduction into or dissemination within the United States of pests and diseases of livestock.

The regulations in 9 CFR part 93 prohibit the importation of the leopard tortoise, the African spurred tortoise, and the Bell's hingeback tortoise to prevent the introduction and spread of exotic ticks known to be vectors of heartwater disease, an acute, infectious disease of cattle and other ruminants. The regulations in 9 CFR part 74 prohibit the interstate movement of those tortoises that are already in the United States unless the tortoises are accompanied by a health certificate or certificate of veterinary inspection. The certificate must be signed by an APHIS accredited veterinarian and must state that the tortoises have been examined by that veterinarian and found free of ticks.

We are asking the Office of Management and Budget (OMB) to approve our use of this information collection activity for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic,

mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 2.0 hours per response.

Respondents: APHIS accredited veterinarians, U.S. tortoise breeders, members of tortoise adoption organizations.

Estimated annual number of respondents: 50.

Estimated annual number of responses per respondent: 10.

Estimated annual number of responses: 500.

Estimated total annual burden on respondents: 1,000 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 28th day of May 2010.

SUPPLEMENTARY INFORMATION:

Title: Importation of Artificially Dwarfed Plants.

OMB Number: 0579-0176.

Type of Request: Extension of approval of an information collection.

Abstract: Under the Plant Protection Act (7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service.

The regulations contained in "Subpart—Nursery Stock, Plants, Roots, Bulbs, Seeds, and Other Plant Products" (7 CFR 319.37 through 319.37-14) prohibit or restrict the importation of living plants, plant parts, and seeds for propagation.

Among other things, the regulations require artificially dwarfed plants imported into the United States to be accompanied by a phytosanitary certificate issued by the government of the country of origin. This certificate must contain declarations that certain conditions were met in the country of origin to protect against the infestation of the plants by longhorned beetles and other plant pests.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.2533333 hours per response.

Respondents: Plant health officials of exporting countries, importers.

Estimated annual number of respondents: 30.

Estimated annual number of responses per respondent: 5.

Estimated annual number of responses: 150.

Estimated total annual burden on respondents: 38 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

SUPPLEMENTARY INFORMATION:

Background

The World Trade Organization (WTO) was established on January 1, 1995, as the common international institutional framework for the conduct of trade relations among its members in matters related to the Uruguay Round Trade Agreements. The WTO is the successor organization to the General Agreement on Tariffs and Trade (GATT). U.S. membership in the WTO was approved and the Uruguay Round Agreements Act was signed into law by the President on December 8, 1994. The Uruguay Round Agreements became effective, with respect to the United States, on January 1, 1995. Pursuant to section 491 of the Trade Agreements Act of 1979, as amended, the President is required to designate an agency to be "responsible for informing the public of the sanitary and phytosanitary (SPS) standard-setting activities of each international standard-setting organization." The main organizations are Codex, the World Organisation for Animal Health, and the International Plant Protection Convention. The President, pursuant to Proclamation No. 6780 of March 23, 1995 (60 FR 15845), designated the U.S. Department of Agriculture as the agency responsible for informing the public of SPS standard-setting activities of each international standard-setting organization. The Secretary of Agriculture has delegated to the Office of Food Safety the responsibility to inform the public of the SPS standard-setting activities of Codex. The Office of Food Safety has, in turn, assigned the responsibility for informing the public
