

proposed collection of information, including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: Occupational Safety and Health Administration.

Type of Review: Existing collection in use without an OMB Control Number.

Title of Collection: OSHA Training Institute Education Centers Program, and OSHA Outreach Training Program Data Collection.

OMB Control Number: Pending.

Affected Public: Business or other for-profits and Individuals or Households.

Estimated Number of Respondents: 13,025.

Estimated Total Annual Burden Hours: 11,135.

Estimated Total Annual Costs Burden (Operation and Maintenance): \$0.

Description: OSHA's Office of Training and Educational Programs is designed to recognize and promote excellence in safety and health training. The OSHA Training Institute's (OTI) Education Centers offer courses for the private sector and other Federal agency personnel at locations throughout the United States. OSHA extends its training reach to workers through its various Outreach Training Programs. Through the Outreach Training Programs, qualified individuals complete an OSHA trainer course and become authorized to teach student courses. The collection of information requirements contained in these programs are necessary to evaluate the applicant organization and to implement, oversee, and monitor the OTI Education Centers and Outreach Training Programs, courses and trainers. For additional information, see the related 60-day preclearance notice published in the **Federal Register** on September 22, 2009 (Vol. 74, page 48293). PRA documentation prepared in association with the preclearance notice is available on <http://www.regulations.gov> under docket number OSHA-2009-0022.

Darrin A. King,

Departmental Clearance Officer.

BILLING CODE 4510-26-P

DEPARTMENT OF LABOR

Employment and Training Administration

[TA-W-64,391]

Harris Stratex Networks Corporation, Currently Known As Aviat U.S., Inc., dba Aviat Networks, Inc., Production Division, Including On-Site Leased Workers From Manpower, Green Resources and Volt Technical Resources, San Antonio, TX; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273), and Section 246 of the Trade Act of 1974 (26 U.S.C. 2813), as amended, the Department of Labor issued a Certification Regarding Eligibility to Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance on December 9, 2008, applicable to workers of Harris Stratex Networks Corporation, Production Division, including on-site leased workers from Manpower, Green Resources, and Volt Technical Resources, San Antonio, Texas. The notice was published in the **Federal Register** on December 30, 2008 (73 FR 79914).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The workers were engaged in the production of Truepoint 5000 XCVR microwave radios and are separately identifiable from workers producing other microwave radios.

New information shows that following an earlier merger, Harris Stratex Networks, Inc. is currently known as Aviat U.S., Inc., dba Aviat Networks, Inc. Workers separated from employment at the subject firm have their wages reported under a separate unemployment insurance (UI) tax account under the name Aviat U.S., Inc., dba Aviat Networks, Inc.

Accordingly, the Department is amending this certification to properly reflect this matter.

The intent of the Department's certification is to include all workers of the subject firm who were adversely affected by increased imports following a shift in production to Malaysia and Taiwan.

The amended notice applicable to TA-W-64,391 is hereby issued as follows:

"All workers of Harris Stratex Networks Corporation, currently known as Aviat U.S., Inc., dba Aviat Networks, Inc., Production

Division, engaged in employment related to the production of Truepoint 5000 XCVR microwave radios, including on-site leased workers from Manpower, Green Resources, and Volt Technical Services, San Antonio, Texas, who became totally or partially separated from employment on or after November 6, 2007, through December 9, 2010, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974, and are also eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974."

Signed at Washington, DC, this 25th day of May 2010.

Elliott S. Kushner,

Certifying Officer, Division of Trade Adjustment Assistance.

BILLING CODE 4510-FN-P

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: National Science Foundation.

ACTION: Notice.

SUMMARY: The National Science Foundation (NSF) is announcing plans to request establishment and clearance of this collection. In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting OMB clearance of this collection for no longer than 3 years.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be received by August 9, 2010 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: Written comments regarding the information collection and requests for copies of the proposed information collection request should be

addressed to Suzanne Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Blvd., Rm. 295, Arlington, VA 22230, or by e-mail to splimpto@nsf.gov.

FOR FURTHER INFORMATION CONTACT:

Suzanne Plimpton on (703) 292-7556 or send e-mail to splimpto@nsf.gov.

Individuals who use a

telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION: Request for Clearance for Evaluation of the National Science Foundation's (NSF) Robert Noyce Teacher Scholarship (Noyce) Program.

Title of Collection: Evaluation of the Robert Noyce Teacher Scholarship Program.

OMB Control No.: 3145-(NEW)
Expiration Date of Approval: Not applicable.

Abstract: The National Science Foundation (NSF) requests a three-year clearance for research, evaluation and data collection (e.g., surveys and interviews) about the Noyce Program. NSF established the Robert Noyce Teacher Scholarship Program to encourage talented STEM majors and professionals to become K-12 mathematics and science teachers. The Noyce Program awards scholarships, stipends, fellowships and internships to support the preparation of K-12 teachers in mathematics and science. For specific details and the most updated information regarding Noyce program operations, please visit the NSF Web site at: http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5733.

The study will survey Principal Investigators of the Noyce Program, Science, Technology, Engineering, or Mathematics (STEM) Faculty involved in the Noyce Program, Noyce Recipients, and K-12 Principals in schools where former recipients are teaching. Noyce recipients may be undergraduates majoring in a science, technology, engineering, or mathematics (STEM) discipline; STEM post-baccalaureates; STEM professionals; or exemplary mathematics and science teachers, who have master's degrees. The Noyce program evaluation will include all awards made between 2003 and 2009.

NSF has contracted a program evaluation of the Noyce Program, to be conducted by Abt Associates Inc. Through this evaluation of the Noyce Program, NSF aims to examine and document:

(1) The strategies and programs Noyce grantees use to recruit and retain teacher

candidates, both during teacher preparation and during the induction period;

(2) The institutional change occurring within STEM departments regarding the preparation of future mathematics and science teachers;

(3) The relationships between characteristics of the Noyce Program, types of Noyce recipients, characteristics of the schools in which Noyce recipients teach, and recipients' plans to teach in high-need schools and to pursue leadership roles; and

(4) The impacts of the Noyce program on teacher recruitment and retention and on teacher effectiveness.

The methods of data collection will include both primary and secondary data collections. Primary data collection will include surveys and telephone interviews; secondary data sources include open sources, records at NSF and grantee institutions, and state departments of education and teacher retirement funds. There is a bounded (or limited) number of respondents within the general public who will be affected by this research, including current and former Noyce grantees and associated faculty, STEM majors, post-baccalaureates, or professionals eligible who are supported by Noyce funding, and K-12 principals and district administrators. NSF will use the Noyce program evaluation data and analyses to provide information and/or respond to requests from Committees of Visitors (COV), Congress and the Office of Management and Budget, particularly as related to the Government Performance and Results Act (GPRA) and the Program Assessment Rating Tool (PART) or its replacement. NSF will also use the program evaluation to share the broader impacts of the Noyce program with the general public.

Respondents: Individuals, Federal Government, State, Local or Tribal Government and not-for-profit institutions.

Estimated Number of Respondents: 5,000.

Burden on the Public: 2,400 hours.

Dated: June 3, 2010.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2010-0190]

Notice Applications and Amendments to Facility Operating Licenses Involving Proposed No Significant Hazards Considerations and Containing Sensitive Unclassified Non-Safeguards Information and Order Imposing Procedures for Access to Sensitive Unclassified Non-Safeguards Information

I. Background

Pursuant to section 189a. (2) of the Atomic Energy Act of 1954, as amended (the Act), the U.S. Nuclear Regulatory Commission (the Commission or NRC staff) is publishing this notice. The Act requires the Commission to publish notice of any amendments issued, or proposed to be issued and grants the Commission the authority to issue and make immediately effective any amendment to an operating license upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person.

This notice includes notices of amendments containing sensitive unclassified non-safeguards information (SUNSI).

Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The Commission has made a proposed determination that the following amendment requests involve no significant hazards consideration. Under the Commission's regulations in Title 10 of the Code of Federal Regulations (10 CFR) 50.92(c), this means that operation of the facility in accordance with the proposed amendment would not (1) Involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. The basis for this proposed determination for each amendment request is shown below.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination.
