

the long-term development of these approaches?

Losses Associated With Chemical, Nuclear, Biological, and Radiological (CNBR) Acts

24. What is the current availability and affordability of coverage for CNBR events? For what perils is coverage available, subject to what limits, and under what policy terms and conditions? Is there a difference in the availability and affordability of coverage for CNBR events caused by acts of terrorism? To what extent have various States allowed insurers to exclude coverage for CNBR events (Please comment on requirements for workers' compensation and fire-following coverage.)? How have exclusions developed?

25. Is it the case that some insurers appear unwilling to provide coverage for CNBR events caused by acts of terrorism, despite TRIA limits on an insurer's maximum loss exposure? If so, why?

26. In the long-term, what are the key factors that will determine the availability and affordability of terrorism risk insurance coverage for CNBR events? The President's Working Group on Financial Markets previously reported that there appeared to be little potential for market development. Has anything changed since 2006?

Deductible and Co-Share Levels

27. Under the Program, an insurer's annual deductible is a percentage of certain direct earned premiums (as defined by TRIA and regulation). TRIA, as originally enacted, graduated the percentage applied for each year. The Terrorism Risk Insurance Program Reauthorization Act of 2007 established a set percentage of 20 percent for each Program year beginning in 2007. Please comment for each year since 2006 as to whether direct earned premiums in TRIA lines and insurer deductibles have increased or decreased? If so, in what amounts? Please provide data as available.

28. How might any increases to the insurer deductible level or decreases to the Federal share above such deductible levels, prior to the Program's expiration in 2014, affect the availability and affordability of terrorism risk insurance? Please comment on the degree, amount or increment of any recommended increase.

Expiration of the Program

29. Describe efforts undertaken by the insurance industry and/or policyholders since 2006, when the President's Working Group on Financial Markets

issued its last report, to ensure the availability and affordability of terrorism risk insurance after 2014 when the Program expires, and long-term?

30. Please comment on any anticipated State approaches to ensure the continued availability and affordability of terrorism risk insurance after the Program expires in 2014 (such as those approaches taken by the States after September 11, 2001 and before TRIA was enacted on November 26, 2002).

31. Please comment on any other developments in markets that might affect the continued availability and affordability of terrorism risk insurance.

32. In the absence of the Program, in what forms, at what levels, under what terms and conditions, and at what price might terrorism risk insurance be available; and, at what duration (*i.e.*, long-term)? Please distinguish from State-mandated coverage, such as workers' compensation and fire insurance.
