

compensation for the referrals of business, splits of fees or unearned fees.

In analyzing whether a particular payment or fee bears a reasonable relationship to the value of the goods or facilities actually furnished or services actually performed, HUD believes that payments must be commensurate with that amount normally charged for similar services, goods or facilities * * *. If the payment or a portion thereof bears no reasonable relationship to the market value of the goods, facilities or services provided, the excess over the market rate may be used as evidence of a compensated referral or an unearned fee in violation of Section 8(a) or (b) of RESPA. (See 24 CFR 3500.14(g)(2).) Moreover, HUD also believes that the market price used to determine whether a particular payment meets the reasonableness test may not include a referral fee or unearned fee, because such fees are prohibited by RESPA. Congress was clear that for payments to be legal under Section 8, they must bear a reasonable relationship to the value received by the person or company making the payment. (S. Rep. 93-866, at 6551.) 64 FR 10086.

D. Conclusion

Accordingly, HUD interprets section 8 of RESPA and HUD's regulations as these authorities apply to the compensation provided by home warranty companies to real estate brokers and agents as follows:

(1) A payment by an HWC for marketing services performed by real estate brokers or agents on behalf of the HWC that are directed to particular homebuyers or sellers is an illegal kickback for a referral under section 8;

(2) Depending upon the facts of a particular case, an HWC may compensate a real estate broker or agent for services when those services are actual, necessary and distinct from the primary services provided by the real estate broker or agent, and when those additional services are not nominal and are not services for which there is a duplicative charge; and

(3) The amount of compensation from the HWC that is permitted under section 8 for such additional services must be reasonably related to the value of those services and not include compensation for referrals of business.

F. Solicitation of Comment

This interpretive rule represents HUD's interpretation of its existing regulations and is exempt from the notice and comment requirements of the Administrative Procedure Act. (See 5 USC 553(b)(3)(A)). Nevertheless, HUD is interested in receiving feedback from the public on this interpretation, specifically with respect to clarity and scope.

I. Regulatory History

We did not publish a notice of proposed rulemaking (NPRM) for this rule. Under 5 U.S.C. 553(b)(3)(A), the Coast Guard finds this rule is exempt from notice and comment rulemaking requirements because these changes involve rules of agency organization, procedure, or practice. In addition, the Coast Guard finds notice and comment procedure are unnecessary under 5 U.S.C. 553 (b)(3)(B) as this rule consists only of corrections and editorial, organizational, and conforming amendments and these changes will have no substantive effect on the public. This rulemaking also implements the Federal Civil Penalties Inflation Adjustment Act of 1990, as amended by the Debt Collection Improvement Act of 1996, by revising the Penalty Adjustment Table published in 33 CFR 27.3. This revision reflects statutorily prescribed adjustments of civil monetary penalties (CMP) for 2010. These statutes do not allow for discretion in implementation, rendering prior notice and comment unnecessary and contrary to the public interest.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that, for the same reasons, good cause exists for making this rule effective upon publication in the **Federal Register**.

II. Background

Each year the printed edition of Title 33 of the Code of Federal Regulations is recodified on July 1. This rule, which becomes effective June 25, 2010, makes technical and editorial corrections throughout Title 33 in time to be reflected in the recodification. This rule does not create any substantive requirements.

III. Discussion of Rule

This rule amends 33 CFR Part 1 by adding a new paragraph to clarify the Coast Guard's District Commanders' authority to redelegate signature of

temporary deviations for bridge operating schedules. This rule clarifies existing practice which allows the District Commander to give the District Bridge Chief the authority to sign temporary deviations.

This rule revises 33 CFR Part 3 to designate Sector Honolulu Marine Inspection Zone and Captain of the Port Zone boundaries to accurately reflect current agency practice. We also add a new section to 33 CFR Part 3, to reflect internal agency organization providing for Officer in Charge, Marine Inspection (OCMI) authority in the Far East Maritime Inspection Zone. Additionally, we are adding a new paragraph to Part 3 to establish agency procedure and practice in execution of Search and Rescue in the Atlantic Area Search and Rescue Regions (SRR).

In this rule, the Coast Guard is publishing the 2010 Civil Monetary Penalty Inflation Adjustments. These adjustments, in 33 CFR Part 27, are made in accordance with the Federal Civil Penalties Inflation Adjustment Act of 1990, as amended by the Debt Collection Improvement Act of 1996, and implement the provisions of these statutes. These statutes require the Coast Guard to periodically adjust the civil monetary penalties for inflation by a method that is specifically prescribed within these statutes and which allows no discretion. The statutory method specifies the inflation measure to be used, the method for the calculation of the inflation adjustment, and the method for the numerical rounding of the results.

The publication in this final rule of the adjustments for 2010 establishes agency procedure for publishing the annual prescribed adjustment of civil penalties as a part of the Coast Guard's annual technical amendment to 33 CFR, as opposed to publishing separate rulemakings for the annual adjustments.

The last inflation adjustments were made in 2009. 74 FR 68150, December 23, 2009. The 2010 adjustments are based on the change in the Consumer Price Index for All Urban Consumers (CPI-U) from June 2008 to June 2009. The recorded change in CPI-U during that period was -1.43 percent. Because of the small change in CPI-U and the required rules for rounding, there was no change to any of the maximum penalty amounts from the previous adjustment and the 2010 amounts are therefore identical to the 2009 amounts.

This rule revises 33 CFR Part 155 to correct a typographical error found in 33 CFR 155.4030(g), which erroneously states the pumping rate factor as 0.16 gpm/ft² instead of 0.016 gpm/ft². In the preamble to the salvage and marine

firefighting final rule, the Coast Guard expressly disagreed with the suggestion that the application rates for foam be made consistent with National Fire Protection Association (NFPA) 11 and 11A which require a minimum application rate of 0.16 gallons per minute per square foot (gpm/ft²) for a fuel spill involving flammable liquids in depth. 73 FR 80618, December 31, 2008. Instead, as reflected in the preamble of that rule, § 155.4030(g) was intended to meet the quantity of foam requirements in the existing 46 CFR 34.20-5, and Coast Guard NVIC 06-72 "Guide to Fixed Fire-Fighting Equipment Aboard Merchant Vessels." These standards require a quantity of foam large enough to supply foam to one tenth of the surface over the cargo tanks, or the horizontal sectional area of the single largest tank. However, this minimum application rate was not reflected correctly in § 155.4030(g) due to a typographical error in the final rule. Thus, the pumping rate factor is corrected from 0.16 gpm/ft² to 0.016 gpm/ft². As discussed in the preamble to the salvage and marine firefighting final rule, the Coast Guard clearly intended to use the extinguishing agent application rate of 0.016 gpm/ft² to calculate the amount necessary to address a contained fire involving 10 percent of the deck area of the vessel for 20 minutes. If this typographical error was not corrected and the application rate remained at 0.16 gpm/ft², industry would be required to use 10 times the amount of foam than was considered in the final rule, resulting in increased cost and burden to industry.

This rule also revises 33 CFR Part 155 to correct an omission in the wording of 33 CFR 155.4035(b)(1). This technical amendment changes the salvage and marine firefighting final rule to align with the Coast Guard's intent that either the NFPA pre-fire plan or an alternative fire plan are acceptable for meeting the requirement for a marine firefighting pre-fire plan. In the preamble to the salvage and marine firefighting final rule, the Coast Guard said, "We added wording to allow SOLAS vessels to use their SOLAS fire plans in lieu of a fire plan developed under NFPA 1405 to § 155.4035(b)(1)." 73 FR 80624, December 31, 2008. However, this was inadvertently not added to § 155.4035(b)(1) in the final rule. We are correcting this omission by revising § 155.4035(b)(1) to reflect modification to this section as it was originally intended and stated in the preamble to the final rule. Additionally, although the preamble used the term "SOLAS fire plans," there is no such document under

the International Convention for the Safety of Life at Sea, 1974, as amended, (SOLAS). The revision to § 155.4035(b)(1) uses the correct reference: "SOLAS Chapter II-2, Regulation 15."

This rule revises 33 CFR Part 158 to implement non-discretionary provisions in the Act to Prevent Pollution from Ships (APPS) (33 U.S.C. 1901, *et al.*). APPS mandates pollution reception facilities' certificates issued under 33 U.S.C. 1905(c) are valid for a 5-year period or until certain conditions are met. We are revising 33 CFR Part 158 to incorporate this change to APPS as prescribed by the Coast Guard Authorization Act of 1996 (Pub. L. 104-324).

This rule removes an unnecessary note explaining LORAN-C functions in 33 CFR Part 167. The note provides no substantive guidance or requirement and is no longer applicable to the description of traffic separation schemes and precautionary areas in Sector New York.

This rule corrects latitude/longitude coordinates of certain Coast Guard Sector Marine Inspection Zones, Captain of the Port Zones, and other areas in 33 CFR Parts 110 and 167.

This rule updates various addresses for Coast Guard offices throughout Title 33 of the Code of Federal Regulations in order to conform to new mailing addresses and mailing address formats that came into use June 15, 2009. This rule also updates internal Coast Guard office designators, as well as certain personnel titles throughout Title 33. Changes in personnel titles included in this rule are only technical revisions reflecting changes in agency procedure and organization, and do not indicate new authorities.

Finally, this rule corrects non-substantive, typographical errors throughout Title 33.

IV. Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

A. Regulatory Planning and Review

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. Because this rule involves non-substantive changes and internal agency

practices and procedures, it will not impose any additional costs on the public.

B. Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

We estimate this rule will not impose any additional costs and should have little or no impact on small entities because the provisions of this rule are technical and non-substantive, and will have no substantive effect on the public and will impose no additional costs. Therefore, the Coast Guard certifies under 5 U.S.C. 605(b) that this final rule will not have a significant economic impact on a substantial number of small entities.

C. Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or Tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Taking of Private Property

This rule will not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and

Interference with Constitutionally Protected Property Rights.

G. Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

H. Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

I. Indian Tribal Governments

This rule does not have Tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian Tribes, on the relationship between the Federal Government and Indian Tribes, or on the distribution of power and responsibilities between the Federal Government and Indian Tribes.

J. Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

K. Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or

adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

L. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule is categorically excluded under section 2.B.2, figure 2–1, paragraph (34) (a) of the Instruction. This rule involves regulations which are editorial and/or procedural, such as those updating addresses or establishing application procedures. An environmental analysis checklist and a categorical exclusion determination are available in the docket where indicated under **ADDRESSES**.

¹ Enacted under the Tariff Act of 1930, exempt from inflation adjustments.

² These penalties increased in accordance with the statute to \$10,000 in 2005, \$15,000 in 2006, \$20,000 in 2007, and \$25,000 in 2008 and thereafter.
