

restaurants when those operations are conducted at any retail store or restaurant or similar retail-type establishment for sale in normal retail quantities (21 U.S.C. 661(c)(2) and 454(c)(2)). FSIS's regulations (9 CFR 303.1(d) and 381.10(d)) elaborate on the conditions under which requirements for inspection do not apply to retail operations involving the preparation or processing of meat, meat food, poultry, and poultry products.

Sales to Hotels, Restaurants, and Similar Institutions

Under these regulations, sales to hotels, restaurants, and similar institutions (other than household consumers) disqualify a store for exemption if the product sales exceed either of two maximum limits: 25 percent of the dollar value of total product sales or the calendar year dollar limitation set by the Administrator. The dollar limitation is adjusted automatically during the first quarter of the year if the Consumer Price Index (CPI), published by the Bureau of Labor Statistics, shows an increase or decrease of more than \$500 in the price of the same volume of product for the previous year. FSIS publishes a notice of the adjusted dollar limitations in the **Federal Register**. (See 9 CFR 303.1(d)(2)(iii)(b) and 381.10(d)(2)(iii)(b)).

The CPI for 2009 reveals an annual average price decrease for meat and meat food products at 0.6 percent and an annual average price increase for poultry products at 1.7 percent. When rounded to the nearest \$100, the price for meat and meat food products decreased by \$400 and the price for poultry products increased by \$800. Because the price of meat and meat food products did not decrease by more than \$500, and because the price of poultry products increased by more than \$500, FSIS is retaining the dollar limitation on sales to hotels, restaurants, and similar institutions at \$60,200 for meat and meat food products and is increasing it to \$49,400 for poultry products for calendar year 2010, in accordance with 9 CFR 303.1(d)(2)(iii)(b) and 381.10(d)(2)(iii)(b).

SUPPLEMENTARY INFORMATION:

I. Abstract

This collection of information is required by the Trademark Act Sections 13, 14, and 20, 15 U.S.C. 1063, 1064, and 1070, respectively. Under the Trademark Act, any individual or entity that adopts a trademark or service mark to identify its goods or services may apply to federally register its mark. Section 14 of the Trademark Act allows individuals and entities to file a petition to cancel a registration of a mark, while Section 13 allows individuals and entities who believe that they would be damaged by the registration of a mark to file an opposition, or an extension of time to file an opposition, to the registration of a mark. Section 20 of the Trademark Act allows individuals and entities to file an appeal from any final decision of the Trademark Examining Attorney assigned to review an application for registration of a mark.

The USPTO administers the Trademark Act pursuant to 37 CFR part 2, which contains the various rules that govern the filing of petitions to cancel the registrations of marks, notices of opposition to the registration of a mark, extensions of time to file an opposition, appeals, and other papers filed in connection with inter partes and ex partes proceedings. These petitions, notices, extensions, and additional papers are filed with the Trademark Trial and Appeal Board (TTAB), an administrative tribunal empowered to determine the right to register and subsequently determine the validity of a trademark.

The information in this collection can be submitted in paper format or electronically through the Electronic System for Trademark Trials and Appeals (ESTTA). There are no paper forms associated with this collection. However, the TTAB has suggested formats for the Petition to Cancel and the Notice of Opposition that individuals and entities can use when submitting these petitions and notices to the TTAB. These are not forms and, as such, do not have form numbers. If applicants or entities wish to submit the petitions, notices, extensions, and additional papers in inter partes and ex parte cases electronically, they must use the forms provided through ESTTA. Oppositions to extension of protection under the Madrid Protocol, as well as requests for extensions to oppose, must be filed electronically through ESTTA.

This collection contains two suggested formats and six electronic forms.

The additional papers filed in inter partes and ex parte proceedings can be filed in paper or electronically. Although the number of paper filings is decreasing in favor of electronic filings, there still are a small percentage of paper submissions.

The information in this collection is a matter of public record, and is used by the public for a variety of private business purposes related to establishing and enforcing trademark rights. This information is important to the public, as both common law trademark owners and federal trademark registrants must actively protect their own rights.

II. Method of Collection

By mail, hand delivery, or electronically through ESTTA when a party files a petition to cancel a trademark registration, an opposition to the registration of a trademark, a request to extend the time to file an opposition, a notice of appeals, or additional papers for inter partes and ex parte proceedings with the USPTO. However, notices of opposition and extensions of time to file notices of opposition against the extensions of protection under the Madrid Protocol must be filed electronically through ESTTA. Only notices of appeal for ex parte appeals can be submitted by facsimile, in accordance with 37 CFR 2.195(d)(3).

III. Data

OMB Number: 0651-0040.

Form Number(s): PTO 2120, 2151, 2153, 2188, 2189, and 2190.

Type of Review: Revision of a currently approved collection.

Affected Public: Business or other for profit; not-for-profit institutions.

Estimated Number of Respondents: 80,025 responses per year.

Estimated Time per Response: The USPTO estimates that it takes the public approximately 10 to 45 minutes (0.17 to 0.75 hours) to complete this information, depending on the request. This includes the time to gather the necessary information, prepare the petitions, notices, extensions, or additional papers, and submit the completed request to the USPTO. The USPTO believes that it will take the same amount of time (and possibly less time) to gather the necessary information, prepare the submission, and submit it electronically to the TTAB as it does to submit it in paper form.

Estimated Total Annual Respondent Burden Hours: 17,815 hours per year.

Estimated Total Annual Respondent Cost Burden: \$3,794,595. The USPTO
