Proposed Project: Regional Extension Center (REC) Cooperative Agreement Program OMB No. 0990-NEW—Office of the National Coordinator for Health Information Technology.

Abstract: The REC Cooperative Agreement program has been targeted as the Department of Health and Human Services' (HHS) high priority programs and is supportive of HHS Strategic Goal

1: Health Care, objective 1.3: Improve health care quality, safety, cost, and value. Each Regional Center is required to plan and implement the outreach, education and technical assistance necessary to meet the objective of assisting providers in its geographic service area to achieve meaningful use of electronic health records (EHR). Each Center is required to report data on a monthly basis, throughout the 24-month duration of the first project period, including the number of providers registered via signed agreements with the REC, the number of providers who have purchased and are using an ONC-certified HER, with e-prescribing and quality reporting functionalities, and the number of providers who have become meaningful users of EHR, in a certification process determined by the Center for Medicaid and Medicare Services (CMS). The tool provides a data hub and central location for program participants to collect this data. Additionally, it allows for the synergy of grantee business processes and technology to increase transparency, portability, and accuracy of ONC-monthly and ARRA-quarterly reporting requirements.
