July 20 will conclude with time devoted to a discussion of future directions for SAS.

On July 21, 2010, the morning will begin with a panel discussing regulatory challenges that are posed by the increasing use of the internet and electronic media in human subjects research. After lunch, a panel will focus on the genetic research involving members of the Havasupai Indian tribe, which was the focus of a recently settled lawsuit brought by the Havasupai Indian tribe against the Arizona State University, and the implications this research and the related legal settlement present for informed consent and biospecimen research. The day will conclude with a report from the Subcommittee on Harmonization (SOH). The SOH was established by SACHRP at its July 2009 meeting, and is charged with identifying and prioritizing areas in which regulations and/or guidelines for human subjects research adopted by various agencies or offices within HHS would benefit from harmonization, consistency, clarity, simplification and/or coordination. Public comment will be heard on both days.

Public attendance at the meeting is limited to space available. Individuals who plan to attend the meeting and need special assistance, such as sign language interpretation or other reasonable accommodations, should notify the designated contact persons.
