Nam Co., Ltd., have retained their management positions. These four individuals were also on the company's board of directors before and after the change in name. Since the change in corporate status, Phuong Nam has eliminated two positions, Vice Director of Personnel and Vice Director of Engineering, in order to streamline the corporation.

In addition, the submission indicates that the production facilities for Phuong Nam Co., Ltd., and Phuong Nam Foodstuff Corp. are identical. Following the name change, Phuong Nam Foodstuff Corp. retained the same address and assets as Phuong Nam Co., Ltd. See Attachment 4 of Phuong Nam's May 14, 2010, submission.

Attachment 5 of Phuong Nam's submission identifies entities that supplied packaging material and shrimp to the company before and after its transformation from a limited liability company to a joint-stock company. A significant number of suppliers for the joint-stock company are identical to suppliers of the limited liability company.

Futher, Phuong Nam addressed changes to its customer base in Attachment 6 of its submission. This attachment contains two lists that identify the names and addresses of the company's customers before and after its transformation. There are numerous customers that appear on both lists, but the lists are not identical. Phuong Nam claims that changes in its customer base are due to the nature of competition in the seafood industry, where customers are periodically gained and lost.

Given the few changes noted above, we have preliminarily determined that no major changes have occurred with respect to Phuong Nam's management, production facilities, suppliers, or customer base as a result of its name change to Phuong Nam Foodstuff Corp.

When it concludes that expedited action is warranted, the Department may publish the notice of initiation and preliminary results for a changedcircumstances review concurrently. See 19 CFR 351.221(c)(3)(ii). See also Initiation and Preliminary Results of Antidumping Duty Changed Circumstances Review: Canned Pineapple Fruit from Thailand; 69 FR 30878 (June 1, 2004). We have determined that expedition of this changed-circumstances review is warranted because we have the information necessary to make a preliminary finding already on the record. In this case, we preliminarily find that Phuong Nam Foodstuff Corp. is the successor-in-interest to Phuong Nam Co., Ltd., and, as such, is entitled

to Phuong Nam Co., Ltd's, cash-deposit rate with respect to entries of subject merchandise.

Should our final results remain the same as these preliminary results, effective the date of publication of the final results, we will instruct U.S. Customs and Border Protection to assign entries of merchandise produced or exported by Phuong Nam Foodstuff Corp. the antidumping duty cashdeposit rate applicable to Phuong Nam Co., Ltd.

DEPARTMENT OF COMMERCE

International Trade Administration

Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce ("the Department") has received requests to conduct administrative reviews of various antidumping and countervailing duty orders and findings with May anniversary dates. In accordance with the Department's regulations, we are initiating those administrative reviews. The Department also received requests to revoke one antidumping duty order and one countervailing duty order in part.

DATES: Effective Date: June 30, 2010. FOR FURTHER INFORMATION CONTACT: Sheila E. Forbes, Office of AD/CVD Operations, Customs Unit, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230, telephone: (202) 482–4697.

SUPPLEMENTARY INFORMATION:

Background

The Department has received timely requests, in accordance with 19 CFR 351.213(b), for administrative reviews of various antidumping and countervailing duty orders and findings with May anniversary dates. The Department also received requests to revoke in part the antidumping duty order on Ball Bearings and Parts Thereof from Japan for two exporters and the countervailing duty order on Stainless Steel Plate in Coils from Belgium for one exporter.

Notice of No Sales

Under 19 CFR 351.213(d)(3), the Department may rescind a review where there are no exports, sales, or entries of subject merchandise during the respective period of review ("POR") listed below. If a producer or exporter named in this initiation notice had no exports, sales, or entries during the POR, it must notify the Department within 60 days of publication of this notice in the Federal Register. The Department will consider rescinding the review only if the producer or exporter, as appropriate, submits a properly filed and timely statement certifying that it had no exports, sales, or entries of subject merchandise during the POR. All submissions must be made in accordance with 19 CFR 351.303 and

are subject to verification in accordance with section 782(i) of the Tariff Act of 1930, as amended ("the Act"). Six copies of the submission should be submitted to the Assistant Secretary for Import Administration, International Trade Administration, Room 1870, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230. Further, in accordance with 19 CFR 351.303(f)(1)(i), a copy of each request must be served on every party on the Department's service list.

Respondent Selection

In the event the Department limits the number of respondents for individual examination for administrative reviews, the Department intends to select respondents based on U.S. Customs and Border Protection ("CBP") data for U.S. imports during the POR. We intend to release the CBP data under Administrative Protective Order ("APO") to all parties having an APO within five days of publication of this initiation notice and to make our decision regarding respondent selection within 20 days of publication of this Federal Register notice. The Department invites comments regarding the CBP data and respondent selection within 10 calendar days of publication of this Federal Register notice.

Separate Rates

In proceedings involving non-market economy ("NME") countries, the Department begins with a rebuttable presumption that all companies within the country are subject to government control and, thus, should be assigned a single antidumping duty deposit rate. It is the Department's policy to assign all exporters of merchandise subject to an administrative review in an NME country this single rate unless an exporter can demonstrate that it is sufficiently independent so as to be entitled to a separate rate.

To establish whether a firm is sufficiently independent from government control of its export activities to be entitled to a separate rate, the Department analyzes each entity exporting the subject merchandise under a test arising from the Final Determination of Sales at Less Than Fair Value: Sparklers from the People's Republic of China, 56 FR 20588 (May 6, 1991), as amplified by Final Determination of Sales at Less Than Fair Value: Silicon Carbide from the People's Republic of China, 59 FR 22585 (May 2, 1994). In accordance with the separate-rates criteria, the Department assigns separate rates to companies in NME cases only if respondents can demonstrate the absence of both de jure and de facto government control over export activities.

All firms listed below that wish to qualify for separate-rate status in the administrative reviews involving NME countries must complete, as appropriate, either a separate-rate application or certification, as described below. For these administrative reviews, in order to demonstrate separate-rate eligibility, the Department requires entities for whom a review was requested, that were assigned a separate rate in the most recent segment of this proceeding in which they participated, to certify that they continue to meet the criteria for obtaining a separate rate. The Separate Rate Certification form will be available on the Department's Web site at http://www.trade.gov/ia on the date of publication of this Federal Register notice. In responding to the certification, please follow the "Instructions for Filing the Certification" in the Separate Rate Certification. Separate Rate Certifications are due to the Department no later than 60 calendar days after publication of this Federal Register notice. The deadline and requirement for submitting a Certification applies equally to NMEowned firms, wholly foreign-owned firms, and foreign sellers who purchase and export subject merchandise to the United States.

Entities that currently do not have a separate rate from a completed segment of the proceeding ¹ should timely file a

Separate Rate Application to demonstrate eligibility for a separate rate in this proceeding. In addition, companies that received a separate rate in a completed segment of the proceeding that have subsequently made changes, including, but not limited to, changes to corporate structure, acquisitions of new companies or facilities, or changes to their official company name,2 should timely file a Separate Rate Application to demonstrate eligibility for a separate rate in this proceeding. The Separate Rate Application will be available on the Department's Web site at http:// www.trade.gov/ia on the date of publication of this Federal Register notice. In responding to the Separate Rate Application, refer to the instructions contained in the application. Separate Rate Applications are due to the Department no later than 60 calendar days of publication of this Federal Register notice. The deadline and requirement for submitting a Separate Rate Application applies equally to NME-owned firms, wholly foreign-owned firms, and foreign sellers that purchase and export subject merchandise to the United States.

For exporters and producers who submit a separate-rate status application or certification and subsequently are selected as mandatory respondents, these exporters and producers will no longer be eligible for separate rate status unless they respond to all parts of the questionnaire as mandatory respondents.

Initiation of Reviews

In accordance with 19 CFR 351.221(c)(1)(i), we are initiating administrative reviews of the following antidumping and countervailing duty orders and findings. We intend to issue the final results of these reviews not later than May 31, 2011.

¹ Such entities include entities that have not participated in the proceeding, entities that were preliminarily granted a separate rate in any currently incomplete segment of the proceeding (e.g., an ongoing administrative review, new shipper review, etc.) and entities that lost their

separate rate in the most recently complete segment of the proceeding in which they participated.

² Only changes to the official company name, rather than trade names, need to be addressed via a Separate Rate Application. Information regarding new trade names may be submitted via a Separate Rate Certification.

⁶ Petitioners, Calgon Carbon Corporation and Norit Americans Inc., also requested a review of ten additional companies, but were unable to provide addresses for these companies. The Department finds that Petitioners did not demonstrate that they made a reasonable attempt to serve these companies with the request for review as required by 19 CFR 351.303(f)(3)(ii), nor did they explain satisfactorily why they desire a review of these companies, as required by 19 CFR 351.213(b)(1). Therefore, we are not initiating a review with respect to the following companies: Actview Carbon Technology Co., Ltd.; Alashan Yongtai Activated Carbon Co., Ltd.; Beijing Huapeng Environment Protection Materials; Huaxin Active Carbon Plant; Jilin Goodwill Activated Carbon Plant; Kaihua Xinghua Chemical Plant; Xinyuan Carbon; Yinyuan Carbon; YunGuan

During any administrative review covering all or part of a period falling between the first and second or third and fourth anniversary of the publication of an antidumping duty order under 19 CFR 351.211 or a determination under 19 CFR 351.218(f)(4) to continue an order or suspended investigation (after sunset review), the Secretary, if requested by a domestic interested party within 30 days of the date of publication of the notice of initiation of the review, will determine, consistent with FAG Italia v. United States, 291 F.3d 806 (Fed. Cir. 2002), as appropriate, whether antidumping duties have been absorbed by an exporter or producer subject to the review if the subject merchandise is sold in the United States through an importer that is affiliated with such exporter or producer. The request must

Chemical Factory; and Yuanguang Activated Carbon Co., Ltd.

⁷ We intend to issue the final results of these reviews not later than April 30, 2011. These five companies are in addition to the companies initiated upon on May 28, 2010. See Initiation of Antidumping and Countervailing Duty Administrative Reviews, 75 FR 29976, at footnote 5 (May 28, 2010). Petitioners provided addresses for these five companies in their submission dated May 24, 2010.

include the name(s) of the exporter or producer for which the inquiry is requested.

For the first administrative review of any order, there will be no assessment of antidumping or countervailing duties on entries of subject merchandise entered, or withdrawn from warehouse, for consumption during the relevant provisional-measures "gap" period, of the order, if such a gap period is applicable to the POR.

Interested parties must submit applications for disclosure under administrative protective orders in accordance with 19 CFR 351.305. On January 22, 2008, the Department published Antidumping and Countervailing Duty Proceedings: Documents Submission Procedures; APO Procedures (73 FR 3634). Those procedures apply to administrative reviews included in this notice of initiation. Parties wishing to participate in any of these administrative reviews should ensure that they meet the requirements of these procedures (e.g., the filing of separate letters of appearance as discussed at 19 CFR 351.103(d)).

These initiations and this notice are in accordance with section 751(a) of the

Act (19 USC 1675(a)), and 19 CFR 351.221(c)(1)(i).

Dated: June 24, 2010.
