

Certification (OFLC), at oflc.portal@dol.gov. For program issues related to H-2A job orders, please e-mail the OFLC Chicago National Processing Center's (CNPC) Help Desk Unit at H-2Ajobregistry.chicago@dol.gov or call (312) 886-8000 (this is not a toll-free number).

SUPPLEMENTARY INFORMATION:

I. Background

On February 12, 2010, the Department of Labor (Department) published in the **Federal Register** a Final Rule governing the Temporary Agricultural Employment of H-2A Aliens in the United States (the 2010 Final Rule). The 2010 Final Rule amended the regulations governing the labor certification process for the temporary agricultural employment of H-2A aliens in the United States, codified at 20 CFR part 655, subpart B, and the enforcement of employer obligations under the H-2A program, codified at 29 CFR part 501. The 2010 Final Rule became effective on March 15, 2010.

The regulations promulgated by the 2010 Final Rule include a requirement that all job orders filed in connection with H-2A applications be posted by the Certifying Officer on a national, publicly accessible electronic job registry until the end of 50 percent of the contract period. As discussed in the preamble to the 2010 Final Rule, requiring the posting of job orders in a national job registry will improve the transparency of agricultural jobs available to U.S. workers and provide an unprecedented level of public access to one of the most frequently requested types of records maintained by the Department.

II. Information on Activation of the National Job Registry

In the 2010 Final Rule, the Department stated it would inform the public through a notice in the **Federal Register** when the job registry becomes operational. The Department is hereby announcing that the job registry will be operational on July 8, 2010. Public access to the job registry will be available through the OFLC iCERT Visa Portal System at <http://icert.doleta.gov>.

On and after July 8, 2010, the job registry will be available for members of the public to search and retrieve H-2A job orders filed in connection with an *Application for Temporary Employment Certification*, ETA Form 9142, and accepted by the Department for recruitment of domestic workers under the 2010 Final Rule. This new Web-based tool will provide an

unprecedented level of public access to H-2A job orders and will allow the Department to fulfill its regulatory obligations under the H-2A program and maintain its commitment to the principles of Open Government.

All information placed on the job registry will be easily accessible through the Internet in an electronic format permitting the highest possible level of granularity and will contain public data collected from the primary source, *i.e.*, the employer/applicant. The Department will not disclose on the job registry information or data subject to privacy, security, or privilege limitations.

The Department will place each job order on the registry promptly after accepting the employer's application. Where the Department accepts a modification to the originally accepted job order (*e.g.*, a change in the start date), the Department will promptly post the modified job order on the registry in place of the original job order, noting that the job order has been modified.

Upon acceptance and placement on the job registry, each job order will be immediately available to the public through a single entry point—the iCERT Visa Portal System. The public will not be required to register on the iCERT system to access the job registry. The job registry will provide an interactive state map from the main iCERT Visa Portal homepage allowing the public to quickly search for any active job order(s) posted on the registry within the last 30 calendar days. Job orders older than 30 days will be accessible to the public through registry search engines. The job order information will be searchable along a series of common data points such as case number, employer name, area of intended employment, work contract period, job title, and primary crop or agricultural activity. All search results will be displayed in a table format with sortable column headers. The public will be able to view a summary of the job order as well as download a copy of the entire job order and all attachments in Adobe PDF format.

III. Help Desk

OFLC has implemented a dedicated Help Desk Unit at the CNPC to serve as a resource to the public on program issues related to job orders filed in connection with an *Application for Temporary Employment Certification*, ETA Form 9142, under the H-2A program. Please submit questions related to job order(s) placed on the H-2A job registry by e-mail to H-2Ajobregistry.chicago@dol.gov. This

H-2A job registry Help Desk e-mail box will be monitored by CNPC staff during normal business hours, *i.e.*, from 8:30 a.m. to 5:00 p.m. Central Time, Monday through Friday. E-mail inquiries will be handled as expeditiously as possible. Members of the public may also contact the job registry Help Desk by calling (312) 886-8000 (this is not a toll-free number).

Please direct requests for technical assistance with the H-2A job registry to the iCERT System Team, OFLC, at oflc.portal@dol.gov, and include "Job Registry—Technical Assistance" in the subject line of the e-mail.

Signed in Washington, DC, this 9th day of June 2010.

Jane Oates,

Assistant Secretary, Employment and Training Administration.

DEPARTMENT OF LABOR

Employment and Training Administration

[TA-W-72,950]

Pittsburgh Coatings, Inc., Ambridge, PA; Notice of Revised Determination on Reconsideration

By application dated May 21, 2010, the Department of Labor (Department) received a request for administrative reconsideration of the Department's Notice of negative determination regarding workers' eligibility to apply for Trade Adjustment Assistance (TAA) and Alternative Trade Adjustment Assistance (ATAA) applicable to workers and former workers of the subject firm. The determination was issued on April 22, 2010. The Department's notice of determination was published in the **Federal Register** on May 20, 2010 (75 FR 28301). The workers were engaged in employment related to the production of painted and coated structural steel.

The negative determination was based on the Department's findings that increased imports did not contribute importantly to worker separations at the subject firm and that no shift in production to a foreign country occurred.

In the request for reconsideration, the petitioner supplied additional information regarding the customers of the subject firm to supplement what had been gathered during the initial investigation.

As a result of new and additional information obtained during the reconsideration investigation, the

Department has determined that, during the relevant period, a major declining customer of the subject firm had increased its imports of articles like or directly competitive with the painted and coated structural steel produced by the subject firm.

The Department has also determined that the increased imports contributed importantly to worker group separations and subject firm sales and/or production declines.

Conclusion

After careful review of the additional facts obtained on reconsideration, I determine that workers of Pittsburgh Coatings, Inc., Ambridge, Pennsylvania, who are engaged in employment related to the production of coated and painted structural steel, meet the worker group certification criteria under Section 222(a) of the Act, 19 U.S.C. 2272(a). In accordance with Section 223 of the Act, 19 U.S.C. 2273, I make the following certification:

All workers of Pittsburgh Coatings, Inc., Ambridge, Pennsylvania, who became totally or partially separated from employment on or after November 23, 2008, through two years from the date of this certification, and all workers in the group threatened with total or partial separation from employment on date of certification through two years from the date of certification, are eligible to apply for adjustment assistance under Chapter 2 of Title II of the Trade Act of 1974, as amended.

Signed in Washington, DC, this 21st day of June 2010.

Del Min Amy Chen,

Certifying Officer, Division of Trade Adjustment Assistance.

BILLING CODE 4510-FN-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (10-072)]

NASA Advisory Council; Education and Public Outreach Committee; Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public Law 92-463, as amended, the National Aeronautics and Space Administration announces a meeting of the Education and Public Outreach Committee of the NASA Advisory Council.

DATES: Monday, July 19, 2010, 10 a.m. to 4 p.m. (Pacific Time).

ADDRESS: Jet Propulsion Laboratory, Von Karman Auditorium, 4800 Oak

Grove Drive, LaCanada-Flintridge, CA 91011.

FOR FURTHER INFORMATION CONTACT: This meeting will also take place telephonically and via WebEx. Any interested person should contact Ms. Erika G. Vick, Executive Secretary for the Education and Public Outreach Committee, National Aeronautics and Space Administration, Washington, DC, at (202) 358-2209, prior to the day of the meeting to get further information about participating via teleconference and/or WebEx.

SUPPLEMENTARY INFORMATION: The agenda for the meeting includes the following topics:

- Summer of Innovation Program
- Social Media Successes, Opportunities, and Challenges
- Regulations that Constrain Public Engagement
- Education and Public Outreach Committee Work Plan

The meeting will be open to the public up to the seating capacity of the room. It is imperative that the meeting be held on this date to accommodate the scheduling priorities of the key participants.

Kathy Dakon,

Acting Director, Advisory Committee Management Division, National Aeronautics and Space Administration.

BILLING CODE P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-346; NRC-2010-0240]

FirstEnergy Nuclear Operating Company; Davis-Besse Nuclear Power Station; Exemption

1.0 Background

FirstEnergy Nuclear Operating Company (FENOC, the licensee) is the holder of Facility Operating License No. NFP-3, which authorizes operation of the Davis-Besse Nuclear Power Station, Unit 1 (DBNPS). The license provides, among other things, that the facility is subject to all rules, regulations, and orders of the U.S. Nuclear Regulatory Commission (NRC, the Commission) now or hereafter in effect.

The facility consists of one pressurized-water reactor located in Ottawa County, Ohio.

2.0 Request/Action

Title 10 of the *Code of Federal Regulations* (10 CFR) part 26, "Fitness for duty programs," Section 26.205(d)(3), "Work hour controls,"

requires licensees to ensure that individuals have, at a minimum, the number of days off as specified in 10 CFR 26.205(d)(3). It is from portions of 10 CFR 26.205(d)(3) that DBNPS now seeks a one-time exemption.

By letter dated May 28, 2010, as supplemented by electronic correspondence dated June 9, June 11, and June 16, 2010, the licensee requested a one-time exemption in accordance with 10 CFR 26.9, "Specific exemptions." The regulation at 10 CFR 26.205(d)(4) and (d)(5) permit the use of less restrictive hour limitations during the first 60 days of a unit outage, in lieu if the requirements of 10 CFR 26.205(d)(3). The licensee has requested a one-time exemption to allow the use of the less restrictive hour limitations described in 10 CFR 26.205(d)(4) and (d)(5). The exemption would apply to operations (who also comprise of the fire brigade), maintenance, security, chemistry and radiation protection personnel as defined in 10 CFR 26.4(a)(1) through (a)(5). Being granted this one-time exemption would allow the licensee to complete work activities to support the current, extended DBNPS refueling outage.

3.0 Discussion of Part 26 Exemption From Certain Work Hour Control Requirements

Pursuant to 10 CFR 26.9, the Commission may, upon application by any interested person or upon its own initiative, grant exemptions from the requirements of 10 CFR part 26 when the exemptions are authorized by law, and will not endanger life or property or the common defense and security, and are otherwise in the public interest.

The approval of this exemption, as noted above, would allow the licensee to use the work hour limitations as described in 10 CFR 26.205(d)(4) and (d)(5), in lieu if the requirements of 10 CFR 26.205(d)(3).

As stated above, 10 CFR 26.9 allows the NRC to grant exemptions from the requirements of 10 CFR 26. The NRC staff has determined that granting of the licensee's proposed exemption would not result in a violation of the Atomic Energy Act of 1954, as amended, or the Commission's regulations. Therefore, the exemption is authorized by law.

Davis-Besse Nuclear Power Station Exemption Request

The licensee provided detailed information in the enclosure of its May 28, 2010 letter, as supplemented by electronic correspondence dated June 9, June 11, and June 16, 2010, requesting an exemption. Specifically, the licensee entered the current outage on February
