BILLING CODE 8010-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-62394; File No. SR-Phlx-2010-89]

Self-Regulatory Organizations; NASDAQ OMX PHLX, Inc.; Notice of Filing of Proposed Rule Change Relating to Pricing for Direct Circuit Connections

June 28, 2010.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934

(“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on June 24, 2010, NASDAQ OMX PHLX, Inc. (“Phlx” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of the Substance of the Proposed Rule Change

The Exchange is filing with the Securities and Exchange Commission (“SEC” or “Commission”) a proposed rule change to establish pricing for 10Gb direct circuit connections and codify pricing for 10Gb [sic] direct circuit connections for customers who are not co-located in the Exchange's datacenter. The text of the proposed rule change is available at <http://nasdaqtrader.com/micro.aspx?id=PHLXfilings>, on the Commission's Web site at <http://www.sec.gov>, at the Exchange's principal office, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange is proposing to establish fees for direct 10Gb circuit connections, and codify fees for direct circuit connections capable of supporting up to 1Gb, for customers who are not co-located at the Exchange's datacenter. Currently, the Exchange already makes available to co-located customers a 10Gb circuit connection and charges for each a \$1000 initial installation charge as well as an ongoing monthly fee of \$5000. The Exchange is

establishing the same fees for non co-located customers with a 10Gb circuit.³

The Exchange also already makes available to both co-located and non co-located customers direct connections capable of supporting up to 1Gb, with per connection monthly fees of \$500 for co-located customers and \$1000 for non co-located customers. Monthly fees are higher for non co-located customers because direct connections require the Exchange to provide cabinet space and middleware for those customers' third-party vendors to connect into the datacenter and, ultimately, to the trading system. Finally, for non co-located customers the Exchange charges an optional installation fee of \$925 if the customer chooses to use an on-site router.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,⁴ in general, and with Sections 6(b)(5) of the Act,⁵ in particular, in that the proposal is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. In particular, the proposal will provide greater transparency into the connectivity options available to market participants.

The Exchange also believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,⁶ in general, and with Section 6(b)(4) of the Act,⁷ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system which the Exchange operates or controls. The filing codifies and makes transparent the fees imposed for direct connections to non co-located customers. These fees are uniform for all such customers and are either

³ The Exchange provides an additional 1Gb copper connection option to the Exchange for co-located customers. Given the technological constraints of copper connections over longer distances, the Exchange does not offer a copper connection option to users outside of its datacenter.

comparable to fees charged to co-located customers or vary due to different costs associated with providing service to the two customer types.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) By order approve such proposed rule change, or
- (B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change, as amended, is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-Phlx-2010-89 on the subject line.

Paper Comments

- Send paper comments in triplicate to Elizabeth M. Murphy, Secretary, Securities and Exchange Commission, 100 F Street, NE., Washington, DC 20549-1090.

All submissions should refer to File Number SR-Phlx-2010-89. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use

only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street, NE., Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of such filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-Phlx-2010-89 and should be submitted on or before July 23, 2010.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.⁸

Florence E. Harmon,
Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-62395; File No. SR-Phlx-2010-18]

Self-Regulatory Organizations; NASDAQ OMX PHLX, Inc.; Order Approving a Proposed Rule Change To Codify Prices for Co-Location Services

June 28, 2010.

I. Introduction

On January 29, 2010, NASDAQ OMX PHLX ("Phlx" or "Exchange") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² a proposed rule change relating to co-location services and related fees. The proposed rule change was published for comment in

the **Federal Register** on February 9, 2010.³ The Commission received no comment letters on the proposal. This order approves the proposed rule change.

II. Description

As described in the Notice, the Exchange is proposing to codify fees for its existing co-location services. Co-location services are a suite of hardware, power, telecommunication, and other ancillary products and services that allows market participants and vendors to place their trading and communications equipment in close physical proximity to the quoting and execution facilities of the Exchange. Phlx provides co-location services and imposes fees through Nasdaq Technology Services LLC and pursuant to agreements with the owner/operator of its data center where both the Exchange's quoting and trading facilities and co-located customer equipment are housed.⁴ Users of co-location services include private extranet providers, data vendors, as well as the Exchange members and non-members. The use of co-location services is entirely voluntary.

As detailed in its fee schedule, the Exchange imposes a uniform set of fees for various co-location services, including: fees for cabinet space usage, or options for future space usage; installation and related power provision for hosted equipment; connectivity among multiple cabinets being used by the same customer as well as customer connectivity to the Exchange and telecommunications providers;⁵ and related maintenance and consulting services. Fees related to cabinet and power usage are incremental, with additional charges being imposed based on higher levels of cabinet and/or power usage, the use of non-standard cabinet sizes or special cabinet cooling equipment, or the re-selling of cabinet space.

NASDAQ OMX PHLX is implementing a Cabinet Proximity Option program where, for a monthly fee, customers can obtain an option for future use on available currently-unused cabinet floor space in proximity to their existing equipment. Under the program, customers can reserve up to maximum of 20 cabinets that the Exchange will

³ See Securities Exchange Act Release No. 61486 (February 3, 2010), 75 FR 6426 ("Notice").

⁴ Currently, the Exchange provides its co-location services through data centers located in the New York City and Mid-Atlantic areas.

⁵ The Exchange states that these fees are for telecommunications connectivity only. Market data fees are charged independently by NASDAQ OMX PHLX and other exchanges.
