

estimates the aggregate annual cost of the burden hours associated with rule 7d-1 is \$1109.⁶

If a fund were to file an application under the rule, the Commission estimates that the rule would impose initial information collection burdens (for filing an application, preparing the specified charter, bylaw, and contract provisions, designations of agents for service of process, and an initial list of affiliated persons, and establishing a means of keeping records in the United States) of approximately 90 hours for the fund and its associated persons. The Commission is not including these hours in its calculation of the annual burden because no foreign fund has applied under rule 7d-1 to register under the Act in the last three years.

As noted above, after registration, a Canadian fund may file a supplemental application seeking special relief designed for the fund's particular circumstances. Rule 7d-1 does not mandate these applications. The active registrant has not filed a substantive supplemental application in the past three years. Therefore, the Commission has not allocated any burden hours for these applications.

The estimates of burden hours are made solely for the purposes of the Paperwork Reduction Act. The estimates are not derived from a comprehensive or even a representative survey or study of Commission rules and forms.

If a Canadian or other foreign fund in the future applied to register under the Act under rule 7d-1, the fund initially might have capital and start-up costs (not including hourly burdens) of an estimated \$17,280 to comply with the rule's initial information collection requirements. These costs include legal and processing-related fees for preparing the required documentation (such as the application, charter, bylaw, and contract provisions), designations for service of process, and the list of affiliated persons. Other related costs would include fees for establishing arrangements with a custodian or other agent for maintaining records in the United States, copying and transportation costs for records, and the costs of purchasing or leasing computer equipment, software, or other record storage equipment for records

⁶ This estimate is based on the following calculation: \$1109.22 = \$945 + \$16.72 + 147.50.

maintained in electronic or photographic form.

The Commission expects that a fund and its sponsors would incur these costs immediately, and that the annualized cost of the expenditures would be \$17,280 in the first year. Some expenditures might involve capital improvements, such as computer equipment, having expected useful lives for which annualized figures beyond the first year would be meaningful. These annualized figures are not provided, however, because, in most cases, the expenses would be incurred immediately rather than on an annual basis. The Commission is not including these costs in its calculation of the annualized capital/start-up costs because no fund has applied under rule 7d-1 to register under the Act pursuant to rule 7d-1 in the last three years.

Proposed Collection; Comment Request

Upon Written Request, Copies Available

From: Securities and Exchange Commission, Office of Investor Education and Advocacy, Washington, DC 20549-0213.

Extension:

Rule 0-2, Form ADV-NR; SEC File No. 270-214; OMB Control No. 3235-0240.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

The titles for the collections of information are "Rule 0-2" (17 CFR 275.0-2) and "Form ADV-NR" (17 CFR 279.4) under the Investment Advisers Act of 1940 (15 U.S.C. 80b-1). Rule 0-2 and Form ADV-NR facilitate service of process to non-resident investment advisers and their non-resident general partners or non-resident managing agents. The Form requires these persons to designate the Commission as agent for service of process. The purpose of this collection of information is to enable the commencement of legal and or regulatory actions against investment advisers that are doing business in the United States, but are not residents.

The respondents to this information collection would be each non-resident general partner or non-resident managing agent of an SEC-registered adviser. The Commission has estimated that compliance with the requirement to complete Form ADV-NR imposes a total burden of approximately 1.0 hours for an adviser. Based on our experience with these filings, we estimate that we will receive 18 Form ADV-NR filings annually. Based on the 1.0 hours per respondent estimate, the Commission staff estimates a total annual burden of 18 hours for this collection of information.

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-62392; File No. SR-
NASDAQ-2010-077]

Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Notice of Filing of Proposed Rule Change Relating to Pricing for Direct Circuit Connections

June 28, 2010.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on June 21, 2010, The NASDAQ Stock Market LLC (the “Exchange” or “NASDAQ”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of the Substance of the Proposed Rule Change

NASDAQ is filing with the Securities and Exchange Commission (“SEC” or “Commission”) a proposed rule change to establish pricing for 10Gb direct circuit connections and codify pricing for 10Gb [sic] direct circuit connections for customers who are not co-located in NASDAQ’s datacenter. The text of the proposed rule change is available at <http://nasdaq.cchwallstreet.com>, at the Exchange’s principal office, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange is proposing to establish fees for direct 10Gb circuit connections, and codify fees for direct circuit connections capable of supporting up to 1Gb, for customers who are not co-located at the Exchange’s datacenter. Currently, the Exchange already makes available to co-located customers a 10Gb circuit connection and charges for each a \$1,000 initial installation charge as well as an ongoing monthly fee of \$5,000. The Exchange is establishing the same fees for non co-located customers with a 10Gb circuit.³

The Exchange also already makes available to both co-located and non co-located customers direct connections capable of supporting up to 1Gb, with per connection monthly fees of \$500 for co-located customers and \$1,000 for non co-located customers. Monthly fees are higher for non co-located customers because direct connections require NASDAQ to provide cabinet space and middleware for those customers’ third-party vendors to connect into the datacenter and, ultimately, to the trading system. Finally, for non co-located customers the Exchange charges an optional installation fee of \$925 if the customer chooses to use an on-site router.

2. Statutory Basis

NASDAQ believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,⁴ in general, and with Sections 6(b)(5) of the Act,⁵ in particular, in that the proposal is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. In particular, the proposal will provide greater
