

should be deemed to be entitled to the action requested by the application.

Applicants for orders can include registered investment companies, affiliated persons of registered investment companies, and issuers seeking to avoid investment company status, among other entities. Commission staff estimates that it receives approximately 125 applications per year under the Act. Although each application typically is submitted on behalf of multiple entities, the entities in the vast majority of cases are related companies and are treated as a single respondent for purposes of this analysis.

The time to prepare an application depends on the complexity and/or novelty of the issues covered by the application. We estimate that the Commission receives 20 of the most time-consuming applications annually, 80 applications of medium difficulty, and 25 of the least difficult applications. Based on conversations with applicants, we estimate that in-house counsel would spend from ten to fifty hours helping to draft and review an application. We estimate a total annual hour burden to all respondents of 3,650 hours [(50 hours × 20 applications) + (30 hours × 80 applications) + (10 hours × 25 applications)].

Much of the work of preparing an application is performed by outside counsel. The cost outside counsel charges applicants depends on the complexity of the issues covered by the application and the time required for preparation. Based on conversations with attorneys who serve as outside counsel, the cost ranges from approximately \$10,000 for preparing a well-precedented, routine application to approximately \$150,000 to prepare a complex and/or novel application. This distribution gives a total estimated annual cost burden to applicants of filing all applications of \$9,650,000 [(20 × \$150,000) + (80 × \$80,000) + (25 × \$10,000)].

We request written comment on: (a) Whether the collections of information are necessary for the proper performance of the functions of the Commission, including whether the information has practical utility; (b) the accuracy of the Commission's estimate of the burdens of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted

in writing within 60 days of this publication.

#### Extension:

Rule 302, SEC File No. 270-453, OMB Control No. 3235-0510.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is soliciting comments on the existing collection of information provided for in Rule 302 (17 CFR 242.302) of Regulation ATS (17 CFR 242.300 *et seq.*) under the Securities and Exchange Act of 1934 ("Act") (15 U.S.C. 78a *et seq.*). The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

Regulation ATS sets forth a regulatory regime for "alternative trading systems" ("ATSs"), which are entities that carry out exchange functions but which are not required to register as national securities exchanges under the Act. In lieu of exchange registration, an ATS can instead opt to register with the Commission as a broker-dealer and, as a condition to not having to register as an exchange, must instead comply with Regulation ATS. Rule 302 of Regulation ATS (17 CFR 242.302) describes the recordkeeping requirements for ATSs. Under Rule 302, ATSs are required to make a record of subscribers to the ATS, daily summaries of trading in the ATS, and time-sequenced records of order information in the ATS.

The information required to be collected under Rule 302 should increase the abilities of the Commission, state securities regulatory authorities,

and the self-regulatory organizations to ensure that ATSs are in compliance with Regulation ATS as well as other applicable rules and regulations. If the information is not collected or collected less frequently, the regulators would be limited in their ability to comply with their statutory obligations, provide for the protection of investors, and promote the maintenance of fair and orderly markets.

Respondents consist of ATSs that choose to register as broker-dealers and comply with the requirements of Regulation ATS. There are currently 81 respondents. These respondents will spend approximately 10,530 hours per year (81 respondents at 130 burden hours/respondent) to comply with the recordkeeping requirements of Rule 302. At an average cost per burden hour of \$59, the resultant total related cost of compliance for these respondents is \$621,270.00 per year (10,530 burden hours multiplied by \$59/hour).

Written comments are invited on (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's estimates of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.
