

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), July 1, 2010, through 1200 hrs, A.l.t., July 31, 2010.

FOR FURTHER INFORMATION CONTACT: Steve Whitney, 907-586-7269.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. processors in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2010 Pacific halibut PSC sideboard limit specified for the shallow-water species fishery for catcher/processors subject to sideboard limits established under the Central GOA Rockfish Program in the GOA is 11 metric tons, for the period 1200 hrs, A.l.t., July 1, 2010, through 1200 hrs, A.l.t., July 31, 2010, as established by § 679.82(d), the final 2010 and 2011 harvest specifications for groundfish of the GOA (75 FR 11749, March 12, 2010), and as posted as the Catcher/Processor Sideboards at <http://www.alaskafisheries.noaa.gov/sustainablefisheries/goarat/default.htm>.

In accordance with § 679.82(d)(9)(i)(B), the Administrator, Alaska Region, NMFS, has determined that the 2010 Pacific halibut PSC sideboard limit specified for the shallow-water species fishery for catcher/processors subject to sideboard limits established under the Central GOA Rockfish Program in the GOA is insufficient to support directed fishing for the shallow-water species fisheries. Consequently, in accordance with § 679.82(d)(9)(ii)(A), NMFS is prohibiting directed fishing for species that comprise the shallow-water species fishery for catcher/processors subject to sideboard limits established under the Central GOA Rockfish Program in the GOA. The species and species groups that comprise the shallow-water species fishery for the sideboard limit are shallow-water flatfish and flathead sole.

After the effective date of this closure the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and

opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. Notice and comment is unnecessary because there is insufficient halibut PSC sideboard limit to support a directed fishery and therefore the Regional Administrator has no discretion for any action other than to prohibit directed fishing.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and § 679.82 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: July 1, 2010.

Carrie Selberg,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Fisheries of the Economic Exclusive Zone Off Alaska; Deep-Water Species Fishery by Catcher/Processor Rockfish Cooperatives in the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for species that comprise the deep-water species fishery by catcher/processor rockfish cooperatives subject to sideboard limits established under the Central Gulf of Alaska (GOA) Rockfish Program in the GOA. This action is necessary because the 2010 Pacific halibut prohibited species catch (PSC) sideboard limit specified for the deep-water species fishery by catcher/processor rockfish cooperatives subject to sideboard limits established under the Central GOA Rockfish Program in the GOA is insufficient to support directed fishing for the deep-water species fisheries.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), July 1, 2010, through 1200 hrs, A.l.t., July 31, 2010.

FOR FURTHER INFORMATION CONTACT: Steve Whitney, 907-586-7269.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2010 Pacific halibut PSC sideboard limit specified for the deep-water species fishery by catcher/processor rockfish cooperatives subject to sideboard limits established under the Central GOA Rockfish Program in the GOA is 16 metric tons, for the period 1200 hrs, A.l.t., July 1, 2010, through 1200 hrs, A.l.t., July 31, 2010, as established by § 679.82(d), the final 2010 and 2011 harvest specifications for groundfish of the GOA (75 FR 11749, March 12, 2010), and as posted as the Catcher/Processor Sideboards at <http://www.alaskafisheries.noaa.gov/sustainablefisheries/goarat/default.htm>.

In accordance with § 679.82(d)(9)(i)(B), the Administrator, Alaska Region, NMFS, has determined that the 2010 Pacific halibut PSC sideboard limit specified for the deep-water species fishery by catcher/processor rockfish cooperatives subject to sideboard limits established under the Central GOA Rockfish Program in the GOA is insufficient to support directed fishing for the deep-water species fisheries. Consequently, in accordance with § 679.82(d)(9)(ii)(B), NMFS is prohibiting directed fishing for species that comprise the deep-water species fishery by catcher/processor rockfish cooperatives subject to sideboard limits established under the Central GOA Rockfish Program in the GOA. The species and species groups that comprise the deep-water species fishery for the sideboard limit include deep-water flatfish, rex sole, and arrowtooth flounder.

After the effective date of this closure the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA

(AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. Notice and comment is unnecessary because there is insufficient halibut PSC sideboard limit to support a directed fishery and therefore the Regional Administrator has no discretion for any action other than to prohibit directed fishing.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and § 679.82 and is exempt from review under Executive Order 12866.

[Docket No. 0910131363-0087-02]

RIN 0648-XX17

Fisheries of the Exclusive Economic Zone Off Alaska; Greenland Turbot in the Aleutian Islands Subarea of the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for Greenland turbot in the Aleutian Islands subarea of the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the 2010 Greenland turbot total allowable catch (TAC) in the Aleutian Islands subarea of the BSAI.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), July 1, 2010, through 2400 hrs, A.l.t., December 31, 2010. Applicable beginning June 29, 2010.

FOR FURTHER INFORMATION CONTACT: Obren Davis, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2010 Greenland turbot TAC in the Aleutian Islands subarea of the BSAI is 1,615 metric tons (mt) as established by the final 2010 and 2011 harvest specifications for groundfish in the BSAI (75 FR 11778, March 12, 2010).

In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region, NMFS, has determined that the 2010 Greenland turbot TAC in the Aleutian Islands subarea of the BSAI will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 1,215 mt, and is setting aside the remaining 400 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed

fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for Greenland turbot in the Aleutian Islands subarea of the BSAI.

After the effective date of this closure the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of Greenland turbot in the Aleutian Islands subarea of the BSAI. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of June 28, 2010.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: June 29, 2010.
