

To address these issues, the NHES is transitioning from a Random Digit Dial (RDD) interviewer administered study to an Address Based Sample, self-administered study. A feasibility test of the methodology was conducted successfully in 2009. In 2011, the National Center for Education Statistics (NCES) will conduct a large scale pilot test to further refine the methodology. A number of interventions to improve response rates and data quality will be tested in 2011. In 2012, NCES will conduct the first full-scale production data collection utilizing the new design. The 2011 test and 2012 data collections will utilize the Parent and Family Involvement in Education (PFI) and Early Childhood Program Participation (ECPP) modules.
