

which a review is requested. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the 245 day time period for the preliminary results up to 365 days.

The Department has determined it is not practicable to complete this review within the present deadline because we require additional time to complete our analysis of the respondent's cost-of-production data and to analyze other information needed for our preliminary results. Accordingly, the Department is extending the time limits for completion of the preliminary results of this administrative review until no later than August 2, 2010. We intend to issue the final results in this review no later than 120 days after publication of the preliminary results.

This notice is issued and published in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: June 25, 2010.

John M. Andersen,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Polyester Staple Fiber from Taiwan: Final Results of Changed-Circumstances Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) has determined, pursuant to section 751(b) of the Tariff Act of 1930, as amended (the Act), that Far Eastern New Century Corporation (FENC) is the successor-in-interest to Far Eastern Textile Limited (FET) and, as a result, should be accorded the same treatment previously accorded to Far Eastern Textile Limited with regard to the antidumping duty order on polyester staple fiber from Taiwan.

DATES: *Effective Date:* July 8, 2010.

FOR FURTHER INFORMATION CONTACT: Michael A. Romani or Richard Rimlinger, AD/CVD Operations, Office 5, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington,

DC 20230; telephone: (202) 482-0198, or (202) 482-4477, respectively.

SUPPLEMENTARY INFORMATION:

Background

On January 26, 2010, pursuant to a request from FENC, we initiated a changed-circumstances review of the antidumping duty order on polyester staple fiber from Taiwan to determine whether FENC was the successor-in-interest to FET after the company changed its name. Concurrent with the initiation, we preliminarily determined that FENC is the successor-in-interest to FET. See *Polyester Staple Fiber From Taiwan: Initiation and Preliminary Results of Changed-Circumstances Antidumping Duty Administrative Review*, 75 FR 4044 (January 26, 2010). We did not receive any comments from interested parties. We did not hold a hearing as one was not requested. Based on our analysis, we are now affirming our preliminary results.

Scope of the Order

The product covered by the order is certain polyester staple fiber (PSF). PSF is defined as synthetic staple fibers, not carded, combed or otherwise processed for spinning, of polyesters measuring 3.3 decitex (3 denier, inclusive) or more in diameter. This merchandise is cut to lengths varying from one inch (25 mm) to five inches (127 mm). The merchandise subject to the order may be coated, usually with a silicon or other finish, or not coated. PSF is generally used as stuffing in sleeping bags, mattresses, ski jackets, comforters, cushions, pillows, and furniture. Merchandise of less than 3.3 decitex (less than 3 denier) currently classifiable in the Harmonized Tariff Schedule of the United States (HTSUS) at subheading 5503.20.00.20 is specifically excluded from the order. Also specifically excluded from the order are PSF of 10 to 18 denier that are cut to lengths of 6 to 8 inches (fibers used in the manufacture of carpeting). In addition, low-melt PSF is excluded from the order. Low-melt PSF is defined as a bi-component fiber with an outer sheath that melts at a significantly lower temperature than its inner core.

The merchandise subject to the order is currently classifiable in the HTSUS at subheadings 5503.20.00.45 and 5503.20.00.65. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise subject to the order is dispositive.

Final Results of the Review

For the reasons stated in the preliminary results, we continue to find

that FENC is the successor-in-interest to FET and, as a result, FENC should be accorded the same treatment as FET for the purposes of the antidumping duty order on polyester staple fiber from Taiwan. We will instruct U.S. Customs and Border Protection to collect cash deposits at 1.97 percent, the weighted-average dumping margin we found for FET in the most recently completed review. See *Certain Polyester Staple Fiber From Taiwan: Final Results of Antidumping Duty Administrative Review*, 74 FR 18348 (April 22, 2009).

Notification

This notice serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.306. Timely written notification of the destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

This notice is published in accordance with sections 751(b)(1) and 777(i) of the Act and 19 CFR 351.216 and 351.221.

Dated: June 30, 2010.

John M. Andersen,

Acting Deputy Assistant Secretary for Import Administration.

Foreign-Trade Zones Board

[Order No. 1690]

Termination of Foreign-Trade Subzone 39J Lewisville, TX

Pursuant to the authority granted in the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u), and the Foreign-Trade Zones Board Regulations (15 CFR part 400), the Foreign-Trade Zones Board has adopted the following order:

Whereas, on December 4, 2008, the Foreign-Trade Zones Board issued a grant of authority to the Dallas/Fort Worth International Airport Board (grantee of FTZ 39) authorizing the establishment of Foreign-Trade Subzone 39J at The Apparel Group facility in Lewisville, Texas (Board Order 1592, 73 FR 79049, 12/24/08);

Whereas, subzone status is no longer needed at the facility due to changed circumstances and the grantee concurs
