Agency Information Collection Request; 60-Day Public Comment Request

AGENCY: Office of the Secretary, HHS.
 In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, is publishing the following summary of a proposed information collection request for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the

use of automated collection techniques or other forms of information technology to minimize the information collection burden.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, e-mail your request, including your address, phone number, OMB number, and OS document identifier, to *Sherette.funncoleman@hhs.gov*, or call the Reports Clearance Office on (202) 690-6162. Written comments and recommendations for the proposed information collections must be directed to the OS Paperwork Clearance Officer at the above e-mail address within 60 days.

Proposed Project: An Assessment of the Sustainability and Impact of Community Coalitions Once Federal Funding Has Expired—OMB No. 0990-NEW—Assistant Secretary Planning Evaluation (ASPE).

Abstract: The Office of the Assistant Secretary for Planning and Evaluation (ASPE) is requesting Office of Management and Budget (OMB) approval on a new collection to conduct a survey of community coalitions formerly funded by the Community Access Program (CAP)/Healthy Communities Access Program (HCAP) to learn about their sustainability and

impact post-federal funding. ASPE will use the CAP/HCAP experience to examine the long-term sustainability of coalitions that successfully completed for grant funding from the Department of Health and Human Services (DHHS). As part of the study, a one-time, self-administered survey will be administered to the 260 coalitions funded through CAP/HCAP, providing a unique set of data to assess coalition sustainability and the factors that enable and hinder sustainability. The survey will focus on CAP/HCAP coalitions' structure, funding, activities, impact, and outcomes post-funding. The survey design and content is informed by a review of the literature on community coalitions including coalition organization, functions, impact, and sustainability. Results from the survey will also inform the selection of sites for key informant interviews and site visits. Specifically, telephone interviews will occur with a subset of 20 CAP/HCAP coalitions that have been sustained as well as 20 CAP/HCAP coalitions that have not been sustained. The key informant interviews will utilize a structured instrument tailored to the coalitions' experiences. Site visits will be conducted with seven coalitions that were sustained post-funding. Data collection activities will be completed within 18 months of OMB Clearance.

Proposed Project: Uniform Data Set (UDS)—Revision—OMB No. 0990-0275—Office of Public Health Science (OPHS)—Office of Minority Health.

Abstract: The Office of Minority Health is requesting an approval on a revised collection for three (3) years for a currently approved collection using the OMB approved Uniform Data Set (OMB No. 0990-0275), the tool used by OMH to collect program management and performance data for all OMH-funded projects. Respondents for this data collection include the project directors leading OMH-funded projects. Affected public includes not-for-profit

institutions and State, Local, or Tribal Governments. The clearance is also to make modifications to the UDS tool, which includes the exclusion of a large number of data elements which significantly reduces reporting burden for grantees, a change in the name of the data collection tool from the UDS to the Performance Data System (PDS), and to increase the frequency of reporting from semi-annual to quarterly reporting. The modifications are intended to evolve the UDS into a system that improves OMH's ability to comply with Federal reporting requirements and monitor and evaluate performance by enabling the efficient collection of more performance-oriented data which are tied to OMH-wide performance reporting needs.

Proposed Project: Evaluation of Pregnancy Prevention Approaches: Implementation Study Data Collection—OMB No. 0970-0360—Office of Adolescent Health in collaboration with the Administration for Children and Families.

Abstract: The Office of Adolescent Health (OAH), Office of Public Health and Science (OPHS), U.S. Department of Health and Human Services (HHS), is requesting approval by OMB on a new collection. OAH is overseeing and coordinating adolescent pregnancy prevention evaluation efforts as part of the Teen Pregnancy Prevention Initiative. OAH is working collaboratively with the Office of the Assistant Secretary for Planning and Evaluation (ASPE), the Centers for Disease Control and Prevention (CDC), and the Administration for Children and

Families (ACF) on adolescent pregnancy prevention evaluation activities.

OAH has provided funding to ACF to oversee the implementation of the Evaluation of Adolescent Pregnancy Prevention Approaches (PPA). PPA is a random assignment evaluation which will expand available evidence on effective ways to reduce teen pregnancy. The evaluation will document and test a range of pregnancy prevention approaches in up to eight program sites. The findings of the evaluation will be of interest to the general public, to policy-makers, and to organizations interested in teen pregnancy prevention.

OAH and ACF are proposing implementation data collection activity as part of the PPA evaluation. The proposed activity involves the collection of information from program records and site visits at two to three points in the program implementation period. Understanding the programs, documenting their implementation and context, and assessing fidelity of implementation will allow for description of each implemented program and the treatment-control contrast evaluated in each site. It will also help in interpreting impact findings, differences in impacts across programs, and differences in impacts across locations or population subgroups.

Respondents: Semi-structured individual and group interviews will be held with program developers, program leaders and staff, participating youths,
