

47 CFR Section 73.1201(b)(1) requires that the official station identification consist of the station's call letters immediately followed by the community or communities specified in its license as the station's location. The name of the licensee, the station's frequency, the station's channel number, as stated on the station's license, and/or the station's network affiliation may be inserted between the call letters and station location. Digital Television (DTV) stations, or DAB Stations, choosing to include the station's channel number in the station identification must use the station's major channel number and may distinguish multicast program streams. For example, a DTV station with major channel number 26 may use 26.1 to identify a High Definition Television (HDTV) program service and 26.2 to identify a Standard Definition Television (SDTV) program service. A radio station operating in DAB hybrid mode or extended hybrid mode shall identify its digital signal, including any free multicast audio programming streams, in a manner that appropriately alerts its audience to the fact that it is listening to a digital audio broadcast. No other insertion between the station's call letters and the community or communities specified in its license is permissible. A station may include in its official station identification the name of any additional community or communities, but the community to which the station is licensed must be named first.

47 CFR Section 74.783(e) permits low power TV permittees or licensees to request to be assigned four-letter call signs in lieu of the five-character alpha-numeric call signs.

47 CFR Section 74.1283(c)(1) requires a FM translator station licensee whose identification is made by the primary station must arrange for the primary station licensee to furnish the translator's call letters and location (name, address, and telephone number of the licensee or service representative) to the FCC. The licensee must keep this information in the primary station's files.

Also in this document, the Commission requires such an executive to certify, under penalty of perjury, that cost and demand data submitted to the Fund administrator on an annual basis related to the determination of compensation rates or methodologies are true and correct. The explosive growth in the Fund in recent years and evidence of fraud against the Fund, as evidenced by recent indictments and guilty pleas from call center managers and employees admitting to defrauding the Fund of tens of millions of dollars, require the Commission to take immediate steps in preserving the Fund to ensure the continued availability of TRS. By requiring providers to be more accountable for their submissions, the Commission takes necessary, affirmative steps to preserve the TRS Fund.
