The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person in the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

i. *Description of Existing Facilities:* (1) A granite masonry dam, 156 feet long and 10 feet high with provisions for installing 12-inch flashboards; (2) a reservoir of negligible storage capacity; (3) a headrace, 14 to 40 feet wide and 39 feet long; (4) a powerhouse, 40 feet wide and 39 feet long, containing a turbine with a rated capacity of 745 kW, connected to a generator with a rated capacity of 700 kW; (5) a 400-foot-long, 5-kV transmission line, a 1,000-kVA transformer, and a 70-foot-long, 15-kV transmission line; (6) a tailrace; and (7) other appurtenances.

j. *Description of Proceeding:*

18 CFR 6.4 of the Commission's regulations provides, among other things, that it is deemed to be intent of a licensee to surrender a license, if the licensee abandons a project for a period of three years. In addition, standard Article 16 of the license for Project No. 3037, provides, in pertinent part:

If the Licensee shall cause or suffer essential project property to be removed or destroyed or to become unfit for use, without adequate replacement, or shall abandon or discontinue good faith operation of the project or refuse or neglect to comply with the terms of the license and the lawful orders of the Commission * * *, the Commission will deem it to be the intent of the Licensee to surrender the license * * *

A minor license for the project was issued in 1981 to Roosevelt Hydro Electric Company (Roosevelt Hydro). 16 FERC ¶ 62,040 (1981). The project has not operated since 2001 when Roosevelt Hydro filed for bankruptcy and is currently in disrepair. BTSFEO purchased the project in 2004 through the bankruptcy proceeding, and in December 2006 it sold the project to Tai-O. In September 2009, Tai-O entered into a contract with Rhode Island DEM to sell the project to Rhode Island DEM. The sale has been completed.

By order issued July 09, 2010, the Commission dismissed an application for approval to transfer the license to Tai-O (because Tai-O sold the project and does not intend to act as a licensee) and initiated a proceeding to terminate the license for Project No. 3037 by implied surrender.

k. *Location of the Order:* A copy of the order is available for inspection and reproduction at the Commission in the Public Reference Room or may be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. l. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

m. *Filing and Service of Responsive Documents*—Any filings must bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE", and "RECOMMENDATIONS FOR TERMS AND CONDITIONS", as applicable, and the Project Number of the proceeding.

n. *Agency Comments*—Federal, states, and local agencies are invited to file comments on the described proceeding. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments.

SUPPLEMENTARY INFORMATION:

Number of Respondents and Responses: 56 respondents; 56 responses.

Estimated Time Per Response: 2 hours.

Frequency of Response: On occasion reporting requirement, recordkeeping requirement and third party disclosure requirement.

Obligation to Respond: Mandatory. Statutory authority for this information collection is contained in 47 U.S.C. section 220.

Total Annual Burden: 112 hours.
 Total Annual Cost: N/A.
 Privacy Act Impact Assessment: N/A.
 Nature and Extent of Confidentiality:

Ordinarily questions of a sensitive nature are not involved in the preservation of records of communications common carriers. The Commission contends that areas in which detailed information is required are fully subject to regulation and the issue of data being regarded as sensitive will arise in special circumstances only. In such circumstances, the respondent is instructed on the appropriate procedures to follow to safeguard sensitive data. For procedures for requesting confidential treatment of data, go to 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission will submit this expiring information collection to the Office of Management and Budget (OMB) after this comment period to obtain the three year clearance from them. There is no change in the reporting, recordkeeping and/or third party disclosure requirements. There is no change to the Commission's burden estimates.

Section 220 of the Communications Act of 1934, as amended, makes it unlawful for carriers to willfully destroy information retained for the Commission. Part 42 of the Commission's rules prescribes guidelines to ensure that carriers maintain the necessary records needed by the FCC for its regulatory obligations.

Section 42.2 requires a carrier to: (1) Maintain at its operating company headquarters a master index of records which identifies the records retained, the related retention period, and the locations where the records are maintained; and (2) to explain the premature loss or destruction of any records by adding a certified statement to the index listing the lost records and describing the circumstances of the loss.

Section 42.5 requires that records kept in a machine-readable medium be accompanied by a statement indicating the type of data included in the record and certifying that the information contained in it has been accurately duplicated.

Section 42.6 requires a carrier to retain telephone toll records for 18 months that are necessary to provide the following billing information about telephone toll calls; the name, address, and telephone number of the caller, telephone number called, date, time and length of the call.

Section 42.7 allows a carrier to establish its own retention periods for all of its records, except records of telephone toll calls and records relevant to complaint proceedings.

Section 42.10 requires a nondominant interexchange carrier (IXC) to make available to the public, in at least one location, during normal business hours, information on the current rates, terms, and conditions for all of its interstate, domestic interexchange services. The information also must be made available on a carriers Internet website.

Section 42.11 requires that a nondominant IXC maintain, for submission to the Commission and to state regulatory commissions upon request, price and service information regarding all of the carrier's international and interstate, domestic, interexchange service offerings. (Both 47 CFR sections 42.10 and 42.11 are approved under OMB control number 3060-0704.)

Documentation of premature records destruction is necessary so that the Commission can be aware of the frequency and consequences of such destruction. If carriers were allowed to destroy records at will, the Commission could lose historical information, thus making it impossible to regulate the industry properly. A specific retention period for telephone toll records of eighteen months is imposed to assist Department of Justice in law enforcement. See section 42.6 of the Commission's rules.

Federal Communications Commission.

Secretary, Office of the Secretary, Office of Managing Director.
