General Services Administration Acquisition Regulation; Rewrite of GSAR Part 541, Acquisition of Utility Services

AGENCIES: Office of Acquisition Policy, General Services Administration (GSA).

ACTION: Final rule.

SUMMARY: The General Services Administration (GSA) is amending the General Services Administration Acquisition Regulation (GSAR) to improve the acquisition of utility services. Two clauses specific to utility services are being added to this part, they are the availability of funds clause

which replaces the FAR clause and the disputes clause which supplements the FAR clause.

DATES: *Effective Date:* September 13, 2010.

SUPPLEMENTARY INFORMATION:

A. Background

This rule is part of the GSAM Rewrite Project to revise the regulation in order to maintain consistency with the Federal Acquisition Regulation (FAR), update regulations, and implement streamlined and innovative acquisition procedures. The GSA Acquisition Manual (GSAM) incorporates the GSAR as well as internal agency acquisition policy.

On February 15, 2006, GSA published in the **Federal Register** at 71 FR 7910, an Advanced Notice of Proposed Rulemaking (ANPR) with a request for comments on the entire GSAM. As a result, no public comments were received on GSAR part 541. In addition, applicable statutes, GSA Acquisition Letters, Public Buildings Service (PBS) Procurement Instructional Bulletins, and GSA delegations of authority were considered in developing the initial draft. Prior to publication of a proposed rule, there was internal review and comment.

The proposed rule aligned GSAR part 541 to the structure of FAR part 41. This rule added GSA-unique clauses in GSAR Subpart 541.5—Solicitation Provisions and Contract Clauses.

Two GSA-unique clauses are prescribed under GSAR subpart 541.5. These clauses are outlined in GSAR section 541.501, Solicitation provisions and contract clauses, and shall be inserted by contracting officers in all utility contracts and solicitations. The first clause, GSAR 552.241–70, Availability of Funds for the Next Fiscal Year or Quarter is added as regulatory text for inclusion in all GSA utility solicitations and contracts instead of FAR 52.239–19. The second clause, GSAR 552.241.71/552.233–71, Disputes (Utility Contracts), was relocated from GSAM part 533 and added to this subpart to specifically align with utility acquisitions.

Discussion of Comments

A proposed rule for GSAR part 541 was published in the **Federal Register** on May 19, 2009, at 74 FR 23374. The public comment period for GSAR part 541 closed on July 20, 2009. A total of 2 comments were received by the close of the comment period.

Comment: One commenter stated that the proposed rule adds a new clause GSAR “552.241–xx, Availability of Funds for the Next Fiscal Year or Quarter” and FAR 52.232–19 is not currently used in Utility contracts (which generally last for many years) since the clause is to be used in one-year IDIQ or requirements contracts which cross fiscal years. The respondent would like to use GSAR 552.232–73, which doesn’t require fill-ins instead of the new clause added to GSAR part 541.

Response: GSA does not concur with the commenter. The new clause is specific to utility acquisitions and is not intended to be limited to a one-year acquisition. Furthermore, the clause at GSAR 552.232–73 that the commenter would prefer to use was deleted from the GSAR on recommendation of GSA’s Office of General Counsel. The new clause has fill-ins for the contracting officer which can coincide with the acquisitions period of performance.

Since this is a utilities contract, the explicit language in 31 U.S.C. 1308 allows GSA to obligate and record amounts quarterly (in accordance with our apportionment). This satisfies the recordation statute.

Additionally, in order to limit GSA’s legal liability to the contractor and satisfy the Anti-Deficiency Act (ADA), GSA has to have an ADA clause that sets limits on the amount of our liability (either by amount of money or by set period of time) and the clause must provide that the limit can only be increased by affirmative action of the Government.

Comment: The second commenter stated that the proposed rule moves the existing GSAR clause 552.233–71 (Disputes-Utilities Contracts) from GSAR part 533 to GSAR part 541.

However, preceding GSAR change #24, which is the rewrite of GSAR part 533, deleted the clause in entirety since the use of FAR clauses is preferred. The subject clause was deleted from the Public Building Service (PBS) contract writing system clause module. In the meantime, there is no authority to use the clause in the GSAR and no prescription to use it.

Response: GSA does not concur with the commenter. There are no FAR clauses which adequately address disputes for utility contracts. However,

GSAR 552.241–71 (currently GSAR 552.233–71) will be relocated to this part. All clauses relevant to utilities contracts will now be located in GSAR part 541. The rewrite of GSAR part 541 will provide an authority and prescription for use. After publication of this rule, PBS can add the clause back in their contract writing system.

This is not a significant regulatory action and, therefore, was not subject to review under Section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

B. Regulatory Flexibility Act

The General Services Administration certifies that this final rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the revisions are not considered substantive. The revisions only update and reorganize existing coverage.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the changes to the GSAR do not impose recordkeeping or information collection requirements, or otherwise collect information from offerors, contractors, or members of the public that require approval of the Office of Management and Budget under 44 U.S.C. chapter 35, *et seq.*
