

Bridging Cultures through Film: International Topics Grants Program, submitted to the Division of Public Programs at the July 28, 2010 deadline.

8. *Date:* September 28, 2010.

Time: 8:30 a.m. to 5 p.m.

Room: 415.

Program: This meeting will review applications for Research and Development in Research and Development, submitted to the Division of Preservation and Access at the July 1, 2010 deadline.

9. *Date:* September 29, 2010.

Time: 9 a.m. to 5 p.m.

Room: 421.

Program: This meeting will review applications for Europe and *Asia in Bridging Cultures* through Film: International Topics Grants Program, submitted to the Division of Public Programs at the July 28, 2010 deadline.

10. *Date:* September 30, 2010.

Time: 8:30 a.m. to 5 p.m.

Room: 415.

Program: This meeting will review applications for Research and Development in Research and Development, submitted to the Division of Preservation and Access at the July 1, 2010 deadline.

Michael P. McDonald,

Advisory Committee, Management Officer.

BILLING CODE 7536-01-P

NATIONAL SCIENCE FOUNDATION

Notice of Availability of a Draft Site-Specific Environmental Assessment and Notice of Public Hearings

AGENCY: National Science Foundation.

ACTION: Notice of the availability of a Draft Site-Specific Environmental Assessment (Draft SSEA) for the Ocean Observatories Initiative (OOI), request for public comment on the Draft SSEA, and notice of public hearings.

SUMMARY: The National Science Foundation (NSF) gives notice of the availability of the Draft SSEA for the OOI, and requests public review and comment on the document. NSF also provides notice of public hearings on the Draft SSEA for the OOI. The Division of Ocean Sciences in the Directorate for Geosciences (GEO/OCE) has prepared a Draft SSEA for the OOI, a multi-million dollar Major Research Equipment and Facilities Construction effort intended to put moored and cable infrastructure in discrete locations in the coastal and global ocean. The Draft SSEA has been prepared to assess the potential impacts on the human and

natural environment associated with proposed site-specific requirements in the design, installation, and operation of the OOI that were previously assessed in a 2008 Programmatic Environmental Assessment (PEA) and a 2009 Supplemental Environmental Report (SER). The scope of the environmental impact analysis of the SSEA is tiered from the previously prepared PEA, associated Finding of No Significant Impact (FONSI), and SER. It focuses only on those activities and the associated potential impacts, including cumulative impacts, resulting from the site-specific installation and operation of OOI assets and not previously assessed in the PEA and SER. The Draft SSEA is available for public comment for a 30-day period. Comments may be mailed to Jean McGovern, National Science Foundation, Division of Ocean Sciences, 4201 Wilson Blvd., Arlington, VA 22230, or submitted via e-mail at nepacommments@nsf.gov. The deadline for submitting comments is September 15, 2010.

NSF will conduct three public hearings to receive oral and written comments on the Draft SSEA. Federal, state, and local agencies, Native American Tribes and Nations, and interested individuals are invited to be present or represented at the public hearings. This notice announces the dates and locations of the public hearings for this Draft SSEA. An open house session will precede the scheduled public hearing at each of the locations listed below and will allow individuals to review the information presented in the Draft SSEA. NSF representatives will be available during the open house sessions to clarify information related to the Draft SSEA.

Dates and Addresses: All hearings will start with an open house session from X p.m. to X p.m. A presentation and formal public comment period will be held from X p.m. to X p.m. Public hearings will be held on the following dates and at the following locations:

- Wednesday, September 1, 2010, at Westport Maritime Museum, Westport, WA.
- Thursday, September 2, 2010, at Guin Library Seminar Room, Hatfield Marine Science Center, Newport, OR.
- Wednesday, September 8, 2010, at New Bedford Library, 613 Pleasant Street, New Bedford, MA 02740-6203.

FOR FURTHER INFORMATION CONTACT: Copies of the Draft SSEA are available upon request from: Jean McGovern, NSF, Division of Ocean Sciences, 4201 Wilson Blvd., Arlington, VA 22230; Telephone: (703) 292-7591. The Draft SSEA is also available at the following

Web site: <http://www.nsf.gov/geo/oce/envcomp/index.jsp>.

SUPPLEMENTARY INFORMATION:

Oceanographic research has long relied on research vessel cruises (expeditions) as the predominate means to make direct measurements of the ocean. Remote sensing (use of satellites) has greatly advanced abilities to measure ocean surface characteristics over extended periods of time. A major advancement for oceanographic research methods is the ability to make sustained, long-term, and adaptive measurements from the surface to the ocean bottom. "Ocean Observatories" are now being developed to further this goal. Building upon recent technology advances and lessons learned from prototype ocean observatories, NSF's Ocean Sciences Division (OCE) is proposing to fund the OOI, an interactive, globally distributed and integrated infrastructure that will be the backbone for the next generation of ocean sensors and resulting complex ocean studies presently unachievable. The OOI reflects a community-wide, national and international scientific planning effort and is a key NSF contribution to the broader effort to establish focused national ocean observatory capabilities through the Integrated Ocean Observing System (IOOS).

The OOI infrastructure would include cables, buoys, deployment platforms, moorings, junction boxes, electric power generation (solar, wind, and/or fuel cell.), and two-way communications systems. This large-scale infrastructure would support sensors located at the sea surface, in the water column, and at or beneath the seafloor. The OOI would also support related elements, such as unified project management, data dissemination and archiving, modeling of oceanographic processes, and education and outreach activities essential to the long-term success of ocean science. It would include the first U.S. multi-node cabled observatory; fixed and re-locatable coastal arrays coupled with mobile assets; and advanced buoys for interdisciplinary measurements, especially for data limited areas of the Southern Ocean and other high-latitude locations.

The OOI design is based upon three main technical elements across global, regional, and coastal scales. At the global and coastal scales, moorings would provide locally generated power to seafloor and platform instruments and sensors and use a satellite link to shore and the Internet. Up to four Global Scale Nodes (GSN) or buoy sites are proposed for ocean sensing in the

Eastern Pacific and Atlantic oceans. The Regional-Scale Nodes (RSN) off the coast of Washington and Oregon would consist of seafloor observatories with various chemical, biological, and geological sensors linked with submarine cables to shore that provide power and Internet connectivity. Coastal-Scale Nodes (CSN) would be represented by the fixed Endurance Array, consisting of a combination of cabled nodes and stand-alone moorings, off the coast of Washington and Oregon, and the relocatable Pioneer Array off the coast of Massachusetts, consisting of a suite of stand-alone moorings. In addition, there would be an integration of mobile assets such as autonomous underwater vehicles (AUVS) and/or gliders with the GSN, RSN, and CSN observatories.

The Draft SSEA is available upon request from: Jean McGovern, NSF, Division of Ocean Sciences, 4201 Wilson Blvd., Arlington, VA 22230; Telephone: (703) 292-7591. It is also available for electronic public viewing at the following Web site: <http://www.nsf.gov/geo/oce/envcomp/index.jsp>.

Federal, state, local agencies, Native American Tribes and Nations, and interested parties are invited to be present or represented at the public hearings. Written comments can also be submitted during the open house sessions preceding the public hearings or at any time during the 30-day public review period of the Draft SSEA.

Oral statements will be heard and transcribed by a stenographer; however, to ensure the accuracy of the record, all statements should be submitted in writing. All statements, both oral and written, will become part of the public record on the Draft SSEA and will be responded to in the Final SSEA. Equal weight will be given to both oral and written statements. In the interest of available time, and to ensure all who wish to give an oral statement have the opportunity to do so, each speaker's comments will be limited to three (3) minutes. If a long statement is to be presented, it should be summarized at the public hearing with the full text submitted either in writing at the hearing or mailed to Jean McGovern, National Science Foundation, Division of Ocean Sciences, 4201 Wilson Blvd., Arlington, VA 22230. In addition, comments may be submitted via e-mail at nepacommments@nsf.gov.

Dated: August 10, 2010.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-P

NATIONAL SCIENCE FOUNDATION

Advisory Committee for Environmental Research and Education; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

Name: Advisory Committee for Environmental Research and Education (9487).

Dates: September 8, 2010–September 9, 2010, 8:30 a.m.–1 p.m.

Place: Stafford I, Room 1235, National Science Foundation, 4201 Wilson Blvd., Arlington, Virginia 22230.

Type of Meeting: Open.

For Further Information Contact: Melissa Lane, National Science Foundation, Suite 705, 4201 Wilson Blvd., Arlington, Virginia 22230. Phone 703-292-8500.

Minutes: May be obtained from the contact person listed above.

Purpose of Meeting: To provide advice, recommendations, and oversight concerning support for environmental research and education.

Agenda

September 8, 2010

- Update on recent NSF environmental activities.
- Discussion of Research Centers and Networks.
- Meeting with the Director.

September 9, 2010

- Discussion of Better Integrating Social and Physical Science Research.
- Update and Discussion of NSF Science, Engineering and Education for Sustainability (SEES) Portfolio.

Dated: August 10, 2010.

Susanne Bolton,
Committee Management Officer.

BILLING CODE P

NUCLEAR REGULATORY COMMISSION

[Docket No. 70-27 EA; ASLBP No. 10-902-01-EA-BD01]

Babcock & Wilcox Nuclear Operations Group, Inc.; Establishment of Atomic Safety and Licensing Board

Pursuant to delegation by the Commission dated December 29, 1972

(37 FR 28710), and the Commission's regulations, *see* 10 CFR 2.106, 2.300, 2.313(a), and 2.318, notice is hereby given that an Atomic Safety and Licensing Board (Board) is being established to preside over the following proceeding:

Babcock & Wilcox Nuclear Operations Group, Inc. (Lynchburg, VA Facility).

This proceeding concerns an Order Imposing Civil Monetary Penalty served upon the Licensee, Babcock & Wilcox Nuclear Operations Group, Inc., on February 23, 2010. Pursuant to a Request for Hearing published in the **Federal Register** (74 FR 75 35846) dated June 23, 2010, the Licensee, represented by Morgan, Lewis & Bockius LLP, submitted a Request for Hearing on July 27, 2010.

The Board is comprised of the following administrative judges: Alan S. Rosenthal, Chair, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

E. Roy Hawkens, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

Nicholas Tsoulfanidis, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

All correspondence, documents, and other materials shall be filed in accordance with the NRC E-Filing Rule, which the NRC promulgated in August 2007 (72 FR 49139).

Issued at Rockville, Maryland, this 6th day of August 2010.

E. Roy Hawkens,

Chief Administrative Judge, Atomic Safety and Licensing Board Panel.

BILLING CODE 7590-01-P

OVERSEAS PRIVATE INVESTMENT CORPORATION

Sunshine Act; Public Hearing, September 9, 2010

TIME AND DATE: 2 p.m., Thursday, September 9, 2010.

PLACE: Offices of the Corporation, Twelfth Floor Board Room, 1100 New York Avenue, NW., Washington, DC.

STATUS: Hearing open to the Public at 2 p.m.

PURPOSE: Public Hearing in conjunction with each meeting of OPIC's Board of Directors, to afford an opportunity for any person to present views regarding the activities of the Corporation.

PROCEDURES:
