

COMMODITY FUTURES TRADING COMMISSION

17 CFR Parts 1, 20, and 151

RIN 3038-AC85

Federal Speculative Position Limits for Referenced Energy Contracts and Associated Regulations

AGENCY: Commodity Futures Trading Commission.

ACTION: Proposed rules; withdrawal.

SUMMARY: On January 26, 2010, the Commodity Futures Trading Commission (“CFTC” or “Commission”) proposed to implement position limits for futures and option contracts based on a limited set of exempt commodities,¹ namely certain energy commodities (“Federal Speculative Position Limits for Referenced Energy Contracts and Associated Regulations,” for ease of reference, herein referred to as the “Energy Proposal”).² In accord with the significant amendments introduced to the Commodity Exchange Act of 1936 (“Act” or “CEA”) by the recent enactment of the Dodd-Frank Wall Street Reform and Consumer Protection Act (“Dodd-Frank Act”),³ the Commission is withdrawing its Energy Proposal as it plans to issue a notice of rulemaking proposing position limits for regulated exempt commodity contracts, including energy commodity contracts, as directed by the Act.

FOR FURTHER INFORMATION CONTACT: Bruce Fekrat, Special Counsel, Office of the Director, Division of Market Oversight, Commodity Futures Trading Commission, Three Lafayette Centre, 1155 21st Street, NW., Washington, DC 20581, telephone (202) 418-5578, facsimile number (202) 418-5527, e-mail bfekrat@cftc.gov.

SUPPLEMENTARY INFORMATION: On January 26, 2010, the Commission issued the Energy Proposal to establish CFTC-set position limits for four enumerated contracts—the New York Mercantile (“NYMEX”) Henry Hub natural gas contract, the NYMEX Light Sweet crude oil contract, the NYMEX New York Harbor No. 2 heating oil contract, and the NYMEX New York Harbor gasoline blendstock (RBOB) contract—as well as for, with limited exceptions, any other contract that was

exclusively or partially based on the above referenced contracts’ commodities and delivery points. The Energy Proposal included, inter alia, provisions relating to exemptions for *bona fide* hedging transactions and certain swap dealer positions maintained to manage the risk of an unbalanced swaps book.

At that time, section 4a(a) of the Act authorized the Commission to establish position limits for contracts traded on or subject to the rules of a designated contract market or significant price discovery contracts traded on exempt commercial markets. The purpose of such limits, as stated in prior section 4a(a), was to eliminate or prevent excessive speculation causing sudden or unreasonable fluctuations or unwarranted changes in the price of a commodity. Section 4a(a) of the CEA, as amended by the Dodd-Frank Act, directs the Commission to set position limits for all regulated exempt and agricultural commodity derivatives. More specifically, amended section 4a(a)(2)(B) of the Act requires the Commission to establish limits for exempt and agricultural commodity derivatives within 180 and 270 days, respectively, of the Dodd-Frank Act’s enactment date. In addition, amended section 4a(a) of the Act explicitly requires the implementation of aggregate position limits across certain derivatives positions established on designated contract markets, swap execution facilities, or foreign boards of trade, or through bilateral trading. Thus, the CFTC intends to publish a notice of rulemaking proposing Commission-set position limits and exemptions therefrom for such derivatives pursuant to section 4a(a) and other related provisions of the CEA, as amended by the Dodd-Frank Act. In doing so, the Commission intends to take account of the Energy Proposal and build on the substantive issues raised by the commenters thereon.

In light of the broadened scope and new requirements of the CEA, as amended by the Dodd-Frank Act, and amended section 4a(a) of the Act in particular, the Commission has determined to withdraw the pending Energy Proposal as it plans to issue a notice of rulemaking proposing position limits and exemptions therefrom for regulated exempt commodity derivatives, including energy derivatives, as directed by the Dodd-Frank Act.

Issued by the Commission this August 12, 2010, in Washington, DC.

David Stawick,

Secretary of the Commission.

TRICARE; Changes Included in the National Defense Authorization Act for Fiscal Year 2010; Expansion of Survivor Eligibility Under the TRICARE Dental Program

AGENCY: Office of the Secretary, DoD.

ACTION: Proposed rule.

SUMMARY: The Department is publishing this proposed rule to implement section 704 of the National Defense Authorization Act for Fiscal Year 2010 (NDAA for FY10). Specifically, that legislation expands the survivor eligibility under the TRICARE Dental Program (TDP). The legislation entitles a child or unmarried person placed in legal custody of a member or former member continuation of eligibility for the TDP. The period of continued eligibility for these dependents shall be the longer of the following periods beginning on the date of the member’s death: Three years; the period ending on the date on which such dependent attains 21 years of age; or in the case of such dependent who, at 21 years of age, is enrolled in a full-time course of study in a secondary school or in a full-time course of study in an institution of higher education approved by the administering Secretary and was, at the time of the member’s death, in fact dependent on the member for over one-half of such dependent’s support, the period ending on the earlier of the following dates: The date on which such dependent ceases to pursue such a course of study, as determined by the administering Secretary; or the date on which such dependent attains 23 years of age. This proposed rule does not expand the TDP eligibility of other eligible survivors.

Survivors, who meet the new eligibility requirements, will regain TDP eligibility as of the publishing of the final rule in the **Federal Register**. Retroactive payment of premiums or claims paid for dental treatment during the time of loss of TDP eligibility will

SUPPLEMENTARY INFORMATION:

I. Background

This proposed rule expands the survivor eligibility under the TRICARE Dental Program (TDP). The legislation entitles a child or unmarried person placed in legal custody of a member or former member, as defined in 10 U.S.C. 1072(2), subparagraph (D) or (I), continuation of eligibility for the TDP. The period of continued eligibility for these dependents shall be the longer of the following periods beginning on the date of the member's death: (1) Three years; (2) the period ending on the date on which such dependent attains 21 years of age; or (3) in the case of such dependent who, at 21 years of age, is enrolled in a full-time course of study in a secondary school or in a full-time course of study in an institution of higher education approved by the administering Secretary and was, at the time of the member's death, in fact dependent on the member for over one-half of such dependent's support, the period ending on the earlier of the following dates: (a) The date on which such dependent ceases to pursue such a course of study, as determined by the administering Secretary; or (b) the date on which such dependent attains 23 years of age.

This proposed rule does not expand the TDP eligibility of other eligible survivors. Currently, all eligible survivors are entitled to continued TDP enrollment for up to three years from the date of the member's death. The proposed rule will maintain the government's payment of both the government and dependent's portion of the premium share during the period of continuous enrollment.

This proposed rule will amend the Code of Federal Regulations to allow the TDP to conform to the new statutory authority. Public comments are invited. All comments will be carefully considered. A discussion of the major issues received by public comments will be included with the issuance of the final rule.

II. Regulatory Procedures

Executive Order 12866 and Regulatory Flexibility Act

Executive Order 12866 requires that a comprehensive regulatory impact analysis be performed on any economically significant regulatory action, defined as one that would result in an annual effect of \$100 million or more on the national economy or which would have other substantial impacts. The Regulatory Flexibility Act (RFA) requires that each Federal agency prepare, and make available for public comment, a regulatory flexibility analysis when the agency issues a regulation which would have a significant impact on a substantial number of small entities. This rule is not an economically significant regulatory action and will not have a significant impact on a substantial number of small entities for purposes of the RFA, thus this proposed rule is not subject to any of these requirements.

Unfunded Mandates Reform Act

This rule does not contain a Federal mandate that may result in the expenditure by State, local, and tribal governments, in aggregate, or by the private sector, of \$100 million or more in any one year.

Paperwork Reduction Act

This rule will not impose additional information collection requirements on the public under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3511).

Federalism

We have examined the impact(s) of the proposed rule under Executive Order 13132 and it does not have policies that have federalism implications that would have substantial direct effects on the States,

on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, therefore, consultation with State and local officials is not required.
