

staff's review is complete, the staff transmits its recommendation on accreditation to the Commission for consideration. (A third party conformity assessment body that may ultimately seek acceptance as a firewalled third party conformity assessment body also can initially request acceptance as a third party conformity assessment body accredited for testing of children's products other than those of its owners.) If the Commission accepts a staff recommendation to accredit a firewalled conformity assessment body, the firewalled conformity assessment body will then be added to the CPSC's list of accredited third party conformity assessment bodies. In each case, the Commission will notify the third party conformity assessment body electronically of acceptance of its accreditation. All information to support an accreditation acceptance request must be provided in the English language.

Subject to the limited provisions for acceptance of "retrospective" testing noted in part IV of this document below, once the Commission adds a third party conformity assessment body to the list, the third party conformity assessment body may then begin testing of children's products to support certification of compliance with the regulations identified earlier in part I of this document for which it has been accredited.

IV. Limited Acceptance of Children's Product Certifications Based on Third Party Conformity Assessment Body Testing Prior to the Commission's Acceptance of Accreditation

The Commission will accept a certificate of compliance with the standard included in 16 CFR parts 1632, *Standard for the Flammability of Mattresses and Mattress Pads (FF 4-72, amended)* and/or 1633, *Standard for the Flammability (Open Flame) of Mattress Sets*, based on testing performed by an accredited third party conformity assessment body (including a government-owned or -controlled conformity assessment body, and a firewalled conformity assessment body) prior to the Commission's acceptance of its accreditation if:

- At the time of product testing, the product was tested by a third party conformity assessment body that was ISO/IEC 17025 accredited by an ILAC-MRA member at the time of the test. For firewalled conformity assessment bodies, the firewalled conformity assessment body must be one that the Commission accredited by order at or before the time the product was tested, even though the order will not have

included the test methods in the regulations specified in this notice. If the third party conformity assessment body has not been accredited by a Commission order as a firewalled conformity assessment body, the Commission will not accept a certificate of compliance based on testing performed by the third party conformity assessment body before it is accredited, by Commission order, as a firewalled conformity assessment body;

- The third party conformity assessment body's application for testing using the test methods in the regulations identified in this notice is accepted by the CPSC on or before October 18, 2010;
- The product was tested on or after August 18, 2010 with respect to the regulations identified in this notice;
- The accreditation scope in effect for the third party conformity assessment body at the time of testing expressly included testing to the regulations identified earlier in part I of this document;
- The test results show compliance with the applicable current standards and/or regulations; and
- The third party conformity assessment body's accreditation, including inclusion in its scope the standards described in part I of this notice, remains in effect through the effective date for mandatory third party testing and manufacturer certification for conformity with 16 CFR parts 1632 and/or 1633.

Type of Review: Revision.

Title of Collection: FRSS 98: District Survey of Distance Education Courses for Public Elementary and Secondary School Students: 2009-10.

OMB #: 1850-0733.

Agency Form Number(s): N/A.

Frequency of Responses: One time.

Affected Public: State, Local, or Tribal Gov't, State Education Agencies (SEAs) or Local Educational Agencies (LEAs).

Estimated Number of Annual Responses: 3,806.

Estimated Annual Burden Hours: 1,182.

Abstract: The National Center for Education Statistics (NCES) in the U.S. Department of Education (ED) proposes to employ the Fast Response Survey System (FRSS) to conduct a district survey about technology-based distance education for public elementary and secondary school students. Two previous iterations of the district survey

Distance Education Courses for Public Elementary and Secondary School Students were conducted by NCES for school years 2002–03 and 2004–05. The proposed survey, for school year 2009–10, is a modified version of the earlier surveys. It will provide nationally representative data on this topic by presenting current information about enrollments in distance education courses in the nation's public elementary and secondary schools, as well as covering tracking and monitoring of student progress in distance education courses, district record-keeping, entities with which districts partner to deliver distance education courses, reasons for having distance education, types of distance education courses, and technologies used to deliver these courses. This survey will provide the only current nationally representative data on this topic.

Type of Review: New.

Title of Collection: National Professional Development Program: Grantee Performance Report.

OMB #: 1885–New.

Agency Form Number(s): N/A.

Frequency of Responses: Semi-Annually.

Affected Public: Not-for-profit institutions; State, Local, or Tribal Government, State Educational Agencies (SEAs) or Local Educational Agencies (LEAs).

Estimated Number of Annual Responses: 138.

Estimated Annual Burden Hours: 6,900.

Abstract: The purpose is to implement a data collection process for a new semi-annual reporting for Government Performance and Results Act (GPRA) purposes for the National Professional Development Program (NPD). These data are necessary to assess the performance of the National Professional Development in meeting its stated goals and objectives and report to the U.S. Department of Education (ED's) Budget Service. The National Professional Development program provides professional development activities intended to improve instruction for students with limited English proficiency (LEP) and assists education personnel working with such children to meet high professional standards. The National Professional Development program office is submitting this application to request approval to collect information from NPD grantees. The proposed data collection serves two purposes. First, the data are necessary to assess the performance of the National Professional Development program on Government Performance and Results Act (GPRA) measures.

Second, budget information and data on project-specific performance measures are collected from National Professional Development grantees for project-monitoring information.
