III. Cancellation Order

The Agency considers the expiration of a conditional, time-limited registration to be a cancellation under FIFRA section 3. This notice, therefore, serves as a cancellation order issued under FIFRA section 3 for the product registrations identified in Table 1 of Unit II. Under this order, and consistent with the expiration date referenced in the **SUMMARY**, the product registrations identified in Table 1 of Unit II. are hereby cancelled effective September 30, 2010. After September 30, 2010, all sales of Corn Event MON 863 and MON 863 x MON 810 seed are prohibited, except as described in Unit IV. regarding existing stocks. Any distribution, sale, or use of the products identified in Table 1 of Unit II. in a manner inconsistent with this order, including the Provisions for Disposition of Existing Stocks set forth in Unit IV., will be considered a violation of FIFRA section 12(a)(2)(K) and/or section 12(a)(1)(A).

IV. Provisions for Disposition of Existing Stocks

Under FIFRA section 6(a)(1), EPA may permit the continued sale and use of existing stocks of a pesticide whose registration has been cancelled. For purposes of this order, “existing stocks” is defined, pursuant to EPA’s existing stocks policy published in the **Federal Register** issued on June 26, 1991 (56 FR 29362), as those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment (defined under 40 CFR 152.3) prior to the effective date of the cancellation action. The effective date of these cancellations is September 30, 2010. Pursuant to section 6(a)(1) of FIFRA, this cancellation order that is the subject of this notice includes the following existing stock provisions:

1. Prior to seed shipment through July 1, 2011, Monsanto Company (Monsanto) and persons licensed by Monsanto to produce, use, or distribute MON 863-containing seed may apply seed treatment to, and test for germination in order to comply with Federal and State

laws, that seed which has been sold to growers for planting by July 1, 2011.

2. Monsanto and persons licensed by Monsanto to produce, use, or distribute MON 863-containing seed may sell or distribute existing stocks of Corn Event MON 863 and MON 863 x MON 810 seed through July 1, 2011, for planting by July 1, 2011.

3. Existing stocks of Corn Event MON 863 and MON 863 x MON 810 seed can only be planted by July 1, 2011, for the production of a corn crop.

4. An adequate amount of refuge seed must be commercially available to growers to ensure the planting of appropriate corn rootworm and corn borer refuges that are consistent with the previously existing terms and conditions of the Corn Event MON 863 and MON 863 x MON 810 registrations.

5. Monsanto Insect Resistant Management (IRM)/Grower Guides will contain IRM compliance and refuge requirements that are consistent with IRM/Grower Guides required under the previously existing terms and conditions of the Corn Event MON 863 and MON 863 x MON 810 registrations.

6. Any remaining inventory of Corn Event MON 863 and MON 863 x MON 810 seed that has not been sold, distributed, or used by July 1, 2011, will be handled in accordance with legal and regulatory requirements (non-treated seed can be sold as grain, and treated seed must be disposed of properly).

7. Monsanto shall report the following to the Agency:

a. Insect Resistance Management compliance communication and assessment will be reported via the Agricultural Biotechnology Stewardship Technical Committee (ABSTC) Compliance Assurance Program (CAP) in January 2011 for any 2010 planting and in January 2012 for any 2011 planting.

b. Monsanto will submit a Grower Point of Sale (GPOS) Report to EPA in January 2011 for any 2010 sales and in January 2012 for any 2011 sales.

c. Monsanto will submit a Pesticide Use Report to EPA by December 15, 2010, and by December 15, 2011.

d. For the Cry3Bb1 and/or Cry1Ab proteins expressed in Corn Event MON

863 and MON 863 x MON 810, Monsanto will submit results of monitoring and investigations of damage reports in August 2011 for any 2010 planting and in August 2012 for any 2011 planting.

Resmethrin; Notice of Receipt of Requests To Voluntarily Cancel Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of requests by the registrants to voluntarily cancel all remaining registrations of products containing the pesticide resmethrin. The requests would terminate all resmethrin products registered for use in the United States. EPA intends to grant these requests at the close of the comment period for this announcement unless the Agency receives substantive comments within the comment period that would merit its further review of the requests, or unless the registrants withdraw their requests. If these requests are granted, any sale, distribution, or use of products listed in this notice will be permitted after the registration has been canceled only if such sale, distribution, or use is consistent with the terms as described in the final order. Resmethrin users or anyone else that desires the retention of

a resmethrin registration should contact the applicable registrants during the comment period.

DATES: Comments must be received on or before February 22, 2011.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2010-0306, by one of the following methods:

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](http://www.regulations.gov) or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one

complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.
- v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- vi. Provide specific examples to illustrate your concerns and suggest alternatives.
- vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
- viii. Make sure to submit your comments by the comment period deadline identified.

II. Background on the Receipt of Requests to Cancel Registrations

This notice announces receipt by EPA of requests from registrants to cancel all resmethrin product registrations. Resmethrin is a member of the pyrethroid class of pesticides. It is used to control a broad spectrum of flying and crawling insects in residential, commercial and industrial settings as well as in animal living areas. It is used as a crack and crevice spray and enclosed space fog in food handling establishments. There are no agricultural uses registered for resmethrin.

The registrants have requested voluntary cancellation of these resmethrin containing products due to the pending cancellation of the technical product. The 2006 Resmethrin Reregistration Eligibility Decision (RED), coupled with the costs to satisfy the recently issued Endocrine Disrupter Screening Program (EDSP) testing orders are not justified by the market opportunity in the vector control business segment or other uses for

resmethrin. In addition, registrants may not formulate their products, as the technical producer of resmethrin has requested a voluntary cancellation of their technical registration. Resmethrin users or anyone else that desires the

retention of a resmethrin registration should contact the applicable registrants during the comment period. The data required to support a resmethrin product are identified in Table 1. In addition, the generic data requirements

for resmethrin, which are listed in the **Federal Register** of May 19, 2010 (75 FR 28019) (FRL-8825-7), would also be required.

In letters received by the Agency, the registrants requested EPA to cancel all pesticide product registrations identified in this notice in Table 2. Specifically, the registrants have requested voluntary cancellation of all remaining products containing resmethrin. This action would terminate the use of resmethrin products

registered in the United States including its use as a wide area mosquito abatement insecticide.

III. What Action is the Agency Taking?

This notice announces receipt by EPA of requests from registrants to cancel all remaining registrations of products containing the pesticide resmethrin. The

affected products and the registrants making the requests are identified in Tables 2 and 3 of this unit.

Unless a request is withdrawn by the registrant or if the Agency determines that there are substantive comments that warrant further review of this request, EPA intends to issue an order canceling the affected registrations.

IV. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**.

Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The resmethrin registrants have not requested that EPA waive the 180-day comment period. Accordingly, EPA will provide a 180-day comment period on the proposed requests.

V. Procedures for Withdrawal of Requests

Registrants who choose to withdraw a request for product cancellation should submit the withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the action. If the request(s) for voluntary cancellation are granted, the Agency intends to publish the cancellation order in the **Federal Register**.

In any order issued in response to these requests for cancellation of product registrations, EPA proposes to include the following provisions for the treatment of any existing stocks of the products listed in Table 2.

After December 31, 2012, registrants are prohibited from formulating, selling, or distributing existing stocks of products containing resmethrin for all uses, including the use of resmethrin as a wide area mosquito abatement insecticide.

Persons other than the registrant may sell, distribute, or use existing stocks of canceled products until supplies are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

Fenoxycarb; Notice of Receipt of Request To Voluntarily Cancel Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of requests by registrants to voluntarily cancel registrations of products containing the pesticide fenoxycarb. The request would terminate the last fenoxycarb products registered for use in the United States. EPA intends to grant these requests at

the close of the comment period for this announcement unless the Agency receives substantive comments within the comment period that would merit its further review of the request, or unless a registrant withdraws its request. If these requests are granted, any sale, distribution, or use of products listed in this notice will be permitted after the registrations have been canceled only if such sale, distribution, or use is consistent with the terms as described in the final order.
