[Docket No. FDA-2010-N-0437]

Development and Distribution of Patient Medication Information for Prescription Drugs; Public Hearing

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of public hearing; request for comment.

SUMMARY: The Food and Drug Administration (FDA) is announcing a 2-day public hearing to obtain input on a new framework for development and distribution of patient medication information (PMI) to be provided to patients who are prescribed drug products. Under the current system, patients may receive several different

types of information, developed by different sources that may be duplicative, incomplete, or difficult to read and understand. FDA has determined that the current system is not adequate to ensure that patients receive the essential medication information that is needed to use the drug safely. Based on recommendations from FDA's Risk Communication Advisory Committee (RCAC) and other stakeholder input, FDA sees merit in adopting use of a single document that is standardized with respect to content and format. The purpose of this hearing is to solicit public input on processes and procedures for standardizing PMI using a quality system approach for monitoring development and distribution of PMI.

DATES: The public hearing will be held on September 27 and 28, 2010, from 8:30 a.m. to 4:30 p.m. Registration requests and requests to present at the public hearing should be received by September 13, 2010 (see section III of this document for details). Electronic or written comments will be accepted after the public hearing until October 29, 2010 (see section V of this document for details).

ADDRESSES: The public hearing will be held at FDA's White Oak Campus, 10903 New Hampshire Ave., Bldg. 31, rm. 1503, Silver Spring, MD 20993. To register for the public hearing, email your registration information to PMIpublicmeeting@fda.hhs.gov. See section III of this document for registration details. Submit electronic comments to <http://www.regulations.gov>. Submit written comments to the Division of Dockets Management (HFA-305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852. Identify comments with the docket number found in brackets in the heading of this document.

SUPPLEMENTARY INFORMATION:

I. Background

Ensuring that patients who are prescribed medical products have access to quality information about those products is an important component of medical product safety. Currently, patients receive multiple types of written prescription drug information in varying formats, which
