

issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on May 18, 2010, applicable to workers of BlueScope Buildings North America, Laurinburg, North Carolina. The notice was published in the **Federal Register** on June 7, 2010 (75 FR 32224).

At the request of the State Agency, the Department reviewed the certification for workers of the subject firm. The workers are engaged in activities related to prefabricated metal building components.

New information shows that some workers separated from employment at BlueScope Buildings North America had their wages reported through a separate unemployment insurance (UI) tax account under the name Butler Manufacturing Company, a division of BlueScope Buildings North America.

Accordingly, the Department is amending this certification to properly reflect this matter.

The intent of the Department's certification is to include all workers of the subject firm who were adversely affected by a shift in the production of prefabricated metal building components to Mexico.

The amended notice applicable to TA-W-73,758 is hereby issued as follows:

All workers of BlueScope Buildings North America, including workers whose unemployment insurance (UI) wages are reported through Butler Manufacturing Company, Laurinburg, North Carolina, who became totally or partially separated from employment on or after March 19, 2009, through May 18, 2012, and all workers in the group threatened with total or partial separation from employment on date of certification through two years from the date of certification, are eligible to apply for adjustment assistance under Chapter 2 of Title II of the Trade Act of 1974, as amended.

Determinations Terminating Investigations of Petitions for Worker Adjustment Assistance

After notice of the petitions was published in the **Federal Register** and

on the Department's Web site, as required by Section 221 of the Act (19 U.S.C. 2271), the Department initiated investigations of these petitions.

The following determinations terminating investigations were issued because the petitioner has requested that the petition be withdrawn.

TA-W No.	Subject firm	Location	Impact date
72,463	Draexlmaier Automotive of America, LLC	Duncan, SC.	
72,771	HMC Technologies	New Albany, MS.

74,383	Blen-Col, Inc., DBA L&A Molding (Hudson Color Concentrates).	Leominster, MA.	
74,451	StarTek USA, Inc., Off-Site Worker	Denver, CO.	

The following determinations terminating investigations were issued because the petitioning groups of

workers are covered by active certifications. Consequently, further investigation in these cases would serve

no purpose since the petitioning group of workers cannot be covered by more than one certification at a time.

74,449	StarTek USA, Inc	Enid, OK.	
74,450	StarTek USA, Inc	Grand Junction, CO.	

The following determinations terminating investigations were issued because the Department issued a negative determination on petitions related to the relevant investigation

period applicable to the same worker group. The duplicative petitions did not present new information or a change in circumstances that would result in a reversal of the Department's previous

negative determination, and therefore, further investigation would duplicate efforts and serve no purpose.

I hereby certify that the aforementioned determinations were issued during the period of August 9, 2010 through August 13, 2010.
