SUPPLEMENTARY INFORMATION:

Background: The President directed that the Commission be established to conduct a comprehensive review of policies for managing the back end of the nuclear fuel cycle. The Commission will provide advice and make recommendations on issues including alternatives for the storage, processing, and disposal of civilian and defense spent nuclear fuel and nuclear waste.

The Co-chairs of the Commission requested the formation of the T&S Subcommittee to answer the question: “[s]hould the US change the way in which it is storing used nuclear fuel and high level waste while one or more final disposal locations are established?”

Purpose of the Meeting: The purpose of the meeting is to hear from Federal, State and local officials, industry representatives, and others having expertise in siting interim storage facilities for spent fuel, and for other similar facilities. The intent is to focus on what attributes and processes have, or have not, worked to support successful siting of potentially controversial facilities in a manner that is transparent, equitable, and that is viewed as credible to the public. The subcommittee will also explore transportation and logistics issues related to such siting efforts.

Tentative Agenda: The meeting is expected to begin at approximately 8:30 a.m. on Thursday, September 23, 2010, with speaker presentations beginning at 8:45 a.m. and ending at 2:15 p.m. A public comment period will be held from 2:15 p.m. to 3 p.m.

Public Participation: Subcommittee meetings are not required to be open to the public; however, the Commission has elected to open the presentation sessions of the meeting to the public. Approximately 45 minutes will be reserved for public comments from 2:15 p.m. to 3 p.m. Time allotted per speaker will depend on the number who wish to speak but will not exceed 5 minutes.
