

functional ecosystem that will create habitat for populations of special status species, reduce flooding, and provide a compatible visitor experience. Other aspects of the project, such as public access and bridge construction, will be funded through other sources.

The EIS/EIR describes and evaluates four potential alternatives for improving and restoring the project area; No Action (Alternative 1), Creek Restoration (Alternative 2), Creek Restoration and Small Lagoon Restoration (Alternative 3), and Large Lagoon Restoration (Alternative 4), with Alternative 2 being the preferred alternative. Details of these alternatives and their environmental effects are described in the EIS/EIR.

The proposed Federal decision to approve and grant funds triggers the need for compliance with the NEPA. After an independent review, we find that the EIS/EIR and the ROD, adequately addresses appropriate alternatives and their environmental effects relative to the activities proposed to be funded by our grant. Based on an independent evaluation, the EIS/EIR would meet Department of Interior (DOI) and Service NEPA procedures and guidelines, and would be appropriate for adoption.

Public Review

We provide this notice under regulations implementing NEPA and invite the public to review the final EIS/EIR during the 30-day public comment period (see **DATES**). Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Conclusion

Based on the information summarized above, we intend to adopt the NPS's final EIS/EIR to fully comply with the regulations for implementing NEPA for the proposed Federal grant decision.

After the close of the comment period, we anticipate the preparation and issuance of our Record of Decision to occur in the fall of 2010.

Dated: August 31, 2010.
Alexandra Pitts,
Regional Director, Region 8.

Endangered Species; Marine Mammals; Issuance of Permits

AGENCY: Fish and Wildlife Service, Interior.
ACTION: Notice of issuance of permits.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have issued the following permits to conduct certain activities with endangered species, marine mammals, or both. We issue these permits under the Endangered Species Act (ESA) and Marine Mammal Protection Act (MMPA).

ADDRESSES: Brenda Tapia, Division of Management Authority, U.S. Fish and Wildlife Service, 4401 North Fairfax Drive, Room 212, Arlington, VA 22203; fax (703) 558-7725; or e-mail DMAFR@fws.gov.

FOR FURTHER INFORMATION CONTACT: Brenda Tapia, (703) 358-2104 (telephone); (703) 358-2280 (fax); DMAFR@fws.gov (e-mail).

SUPPLEMENTARY INFORMATION: On the dates below, as authorized by the provisions of the ESA (16 U.S.C. 1531 et seq.), as amended, and/or the MMPA, as amended (16 U.S.C. 1361 et seq.), we issued requested permits subject to certain conditions set forth therein. For each permit for an endangered species, we found that (1) The application was filed in good faith, (2) The granted permit would not operate to the disadvantage of the endangered species, and (3) The granted permit would be consistent with the purposes and policy set forth in section 2 of the ESA.
