### Background

Section 615(d) of the Fair Credit Reporting Act ("FCRA"), 15 U.S.C. 1681m(d)(1), requires that any person who uses a consumer report in order to make an unsolicited firm offer of credit or insurance to the consumer, shall provide with each written solicitation a clear and conspicuous statement that:

- (A) information contained in the consumer's consumer report was used in connection with the transaction;
- (B) the consumer received the offer of credit or insurance because the consumer satisfied the criteria for credit worthiness or insurability under which the consumer was selected for the offer;
- (C) if applicable, the credit or insurance may not be extended if, after the consumer

responds to the offer, the consumer does not meet the criteria used to select the consumer for the offer or any applicable criteria bearing on credit worthiness or insurability or does not furnish any required collateral; (D) the consumer has a right to prohibit information contained in the consumer's file with any consumer reporting agency from being used in connection with any credit or insurance transaction that is not initiated by the consumer; and (E) the consumer may exercise the right referred to in subparagraph (D) by notifying a notification system established under section 604(e) [of the FCRA].

Section 615(d)(1) of the FCRA [15 U.S.C. 1681m(d)(1)].

The Fair and Accurate Credit Transactions Act of 2003, Pub. L. 108-159, 117 Stat. 1952 ("FACT Act") was signed into law on December 4, 2003. Section 213(a) of the FACT Act amended FCRA Section 615(d) to require that the statement mandated by Section 615(d) "be presented in such format and in such type size and manner as to be simple and easy to understand, as established by the Commission, by rule, in consultation with the Federal banking agencies and the National Credit Union Administration." The Commission published the Final Rule in the **Federal Register** on January 31, 2005 and the Rule became effective August 1, 2005.

The Rule adopted a "layered" notice approach that requires a short, simple, and easy-to-understand statement of consumers' opt-out rights on the first page of the prescreened solicitation, along with a longer statement containing additional details elsewhere in the solicitation. Specifically, the Rule required that a short notice be placed on the front side of the first page of the principal promotional document in the solicitation, or, if provided electronically, on the same page and in close proximity to the principal marketing message. The Rule specifies that the type size be larger than the type size of the principal text on the same page, but in no event smaller than 12-point type, or if provided by electronic means, then reasonable steps shall be taken to ensure that the type size is larger than the type size of the principal text on the same page. The Rule further provides that the long notice, that appears elsewhere in the solicitation, be in a type size that is no smaller than the type size of the principal text on the same page, but in no event smaller than 8-point type. The long notice shall begin with a heading in capital letters and underlined, and identifying the long

notice as the "PRESCREEN & OPT-OUT NOTICE" in a type style that is distinct from the principal type style used on the same page and be set apart from other text on the page. The Rule also includes model notices in English and Spanish.

### Burden statement

**Estimated total annual hours burden:** 1,000 to 1,500 hours

As in the 2007 PRA burden analysis when the Commission last sought renewed clearance,<sup>2</sup> FTC staff estimates that between 500 and 750 entities make prescreened solicitations and will each spend approximately 2 hours to monitor compliance with the Rule. Accordingly, cumulative total annual burden is between 1,000 to 1,500 hours. Additionally, FTC staff assumes that in-house legal counsel will handle most of the compliance review, and at an estimated average hourly wage of \$250/hour. Accordingly, cumulative labor cost for all affected entities would be between \$250,000 and \$375,000. Capital and other non-labor costs should be minimal, at most, since the Rule has been in effect several years, with covered entities now equipped to provide the required notice.

burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, e-mail your request, including your address, phone number, OMB number, and OS document identifier, to [Sherette.funncoleman@hhs.gov](mailto:Sherette.funncoleman@hhs.gov), or call the Reports Clearance Office on (202) 690-5683. of this notice directly to the OS OMB Desk Officer; faxed to OMB at 202-395-5806.

*Proposed Project:* Uniform Data Set (UDS)—Reinstatement with Change—OMB No. 0990-0275—Office of Public Health Science (OPHS)—Office of Minority Health.

*Abstract:* The Office of Minority Health is requesting a three year OMB approval on a revised collection, Uniform Data Set (OMB No. 0990-0275), the tool used by the Office of Minority Health (OMH) to collect program management and performance data for all OMH-funded projects. Respondents for this data collection include the project directors leading OMH-funded projects. Affected public includes not-for-profit institutions and

State, Local, or Tribal Governments. The clearance is also to make modifications to the UDS tool, which includes the exclusion of a large number of data elements which significantly reduces reporting burden for grantees, a change in the name of the data collection tool from the UDS to the Performance Data System (PDS), and to increase the frequency of reporting from semi-annual to quarterly reporting. The modifications are intended to evolve the UDS into a system that improves OMH's ability to comply with Federal reporting requirements and monitor and evaluate performance by enabling the efficient collection of more performance-oriented data which are tied to OMH-wide performance reporting needs.
