NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period

of records already authorized for disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

DATES: Requests for copies must be received in writing on or before October 25, 2010. Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memorandums that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

ADDRESSES: You may request a copy of any records schedule identified in this notice by contacting the Life Cycle Management Division (NWML) using one of the following means:

Mail: NARA (NWML), 8601 Adelphi Road, College Park, MD 20740-6001.

E-mail: request.schedule@nara.gov.

FAX: 301-837-3698.

Requesters must cite the control number, which appears in parentheses after the name of the agency which submitted the schedule, and must provide a mailing address. Those who desire appraisal reports should so indicate in their request.

FOR FURTHER INFORMATION CONTACT: Laurence Brewer, Director, Life Cycle

Management Division (NWML), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. Telephone: 301-837-1539. E-mail: records.mgt@nara.gov.

SUPPLEMENTARY INFORMATION: Each year Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval, using the Standard Form (SF) 115, Request for Records Disposition Authority. These schedules provide for the timely transfer into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

The schedules listed in this notice are media neutral unless specified otherwise. An item in a schedule is media neutral when the disposition

instructions may be applied to records regardless of the medium in which the records are created and maintained. Items included in schedules submitted to NARA on or after December 17, 2007, are media neutral unless the item is limited to a specific medium. (See 36 CFR 1225.12(e).)

No Federal records are authorized for destruction without the approval of the Archivist of the United States. This approval is granted only after a thorough consideration of their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and whether or not they have historical or other value.

Besides identifying the Federal agencies and any subdivisions requesting disposition authority, this public notice lists the organizational unit(s) accumulating the records or indicates agency-wide applicability in the case of schedules that cover records that may be accumulated throughout an agency. This notice provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction). It also includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it too includes information about the records. Further information about the disposition process is available on request.

NUCLEAR REGULATORY COMMISSION

[NRC-2010-0302]

Evaluation of the Groundwater Task Force Report: Public Meeting

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of public meeting; solicitation of public comments.

SUMMARY: In response to incidents involving radioactive contamination of groundwater wells and soils at nuclear power plants, the Nuclear Regulatory Commission (NRC) convened a Groundwater Task Force (GTF) in March 2010 to determine whether past, current, and planned actions should be augmented. The GTF, in its final report dated June 2010, determined that the NRC is meeting its mission of protecting public health, safety, and the environment. However, in view of stakeholder concerns, the GTF recommended that the NRC consider changes to its oversight of licensed material outside of its designed

confinement. The NRC established a senior management review group to evaluate the GTF report, identify next steps, and make recommendations to the Commission about potential policy changes. The NRC will host a meeting with the public to discuss and solicit input on the potential policy changes being considered. The meeting will serve as a forum for members of the public to provide oral comments. The NRC is also requesting written comments on the potential policy issues, particularly for those members of the public unable to attend the meeting. The potential policy issues can be found in Section C, "Topics for Discussion: Potential Policy Issues," in the **SUPPLEMENTARY INFORMATION** section of this notice.

DATES: *Public Meeting Date:* Monday, October 4, 2010, from 9 a.m. to 5 p.m.

Comment Dates: For individuals who wish to provide written comments on the potential policy issues, the comments are requested by October 15, 2010. Comments received after this date will be considered if it is practical to do so, but the NRC is able to assure consideration only for comments received on or before this date.

ADDRESSES: The public meeting will be held in the Commission Hearing Room at the NRC Headquarters building, 11555 Rockville Pike, Rockville, Maryland 20852. The NRC Headquarters building is located across the street from the White Flint metro station. For most attendees, the metro system is likely the most convenient mode of transportation, as there is very limited parking available. Please also allow time to register with building security. Individuals unable to travel to the NRC Headquarters building may participate by teleconference or observe by live Webcast. Please contact the individual listed below to get details for participating in this manner.

You may submit comments by any one of the following methods. Please include Docket ID NRC-2010-0302 in the subject line of your comments. Comments submitted in writing or in electronic form will be posted on the NRC Web site and on the Federal rulemaking Web site Regulations.gov. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed.

The NRC requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their
