

abundance or changes in distribution since the take of marine mammals incidental to launches from SNI were authorized beginning in August 2001. The surveys do not indicate any significant changes in abundance or distribution; therefore, NMFS proposes that the Navy's revised monitoring plan remain as is. The following are the only proposed modifications to the current LOA; all other mitigation and monitoring requirements would remain unchanged.

Nighttime Launches

The Navy recently acquired forward looking infrared (FLIR) HS-324 Command thermal imaging cameras for nighttime monitoring of pinnipeds before, during, and after each missile launch. Previously, no cameras were available for nighttime monitoring of pinniped haul out sites. The thermal imaging cameras, made by FLIR Systems, Inc., would be located to overlook haul out sites up to 6 hours prior to a launch, depending on safety restrictions. Placement of the cameras would cause minimal disturbance to pinnipeds and would focus on a subgroup of pinnipeds within the haul out aggregation. The cameras record data internally and are capable of storing more than 5 hours of video; however, they do not record sound, so no simultaneous audio recording separate from the acoustic monitoring data, collected as described in the regulations (74 FR 26580) and current LOA (75 FR 28587), would be available. Navy biologists would make direct visual observations of the pinniped groups, prior to deployment of the thermal imaging cameras, in order to record weather conditions, species, locations of any pinnipeds hauled out, etc.

Monitoring of Northern Elephant Seals

The Navy proposes to eliminate targeted monitoring of Northern elephant seals during all future launches of Vandal- and Coyote-size, and smaller, vehicles on SNI. During the majority of launches monitored over the past 9 years, Northern elephant seals exhibited little reaction to vehicle launches. The Navy's most recent monitoring report estimated that zero Northern elephant seals were harassed by launches from SNI. During future launches, Northern elephant seals would only be monitored if they happen to be alongside other monitored pinniped species (i.e., Pacific harbor seals and California sea lions) and in the camera's field of view. Monitoring sites would be chosen based primarily on the presence of Pacific harbor seals and

California sea lions. By eliminating targeted monitoring of Northern elephant seals, the Navy would focus on these more responsive pinniped species and remaining questions about the frequency and extent of these responses. All other aspects of the Navy's monitoring requirements, as stated in the regulations (74 FR 26580) and current LOA (75 FR 28587), would remain the same.

Summary of Activity and Monitoring Conducted During 2010

The Navy submitted a preliminary, qualitative review of marine mammal monitoring activities between June 4, 2010, and September 1, 2010, as part of their proposal for a revised monitoring plan. The review briefly describes two single launches from SNI on two different days. These launches occurred during daylight hours. A single Coyote missile was launched on each of two days, June 9 and July 8, 2010, from the Alpha Launch Complex located 190 m (623 ft) above sea level on the west-central part of SNI. For each launch, three remote video cameras and three or four audio recorders were deployed at varying distances from the launch site. Trained staff also collected general information on environmental conditions and the status and behavior of focal animal groups prior to and following each launch. Behavioral responses were similar to those observed during previously monitored launches. The authorized level of take was not exceeded, and no evidence of injury or mortality was observed during or immediately succeeding the launches for the monitored pinniped species.

Proposed Authorization

The Navy continues to comply with the requirements of the current 2010 LOA. NMFS has preliminarily determined that this action would continue to have a negligible impact on the affected species or stocks of marine mammals on SNI, and there are no subsistence uses of these three pinniped species in California waters. Accordingly, NMFS proposes to issue a revised LOA to the Navy authorizing the take of three marine mammal species, by harassment, incidental to missile launch activities from SNI. The revised LOA would expire one year from the date of issuance.

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List Additions

AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled.

ACTION: Additions to the Procurement List.

SUMMARY: This action adds services to the Procurement List that will be provided by nonprofit agencies employing persons who are blind or have other severe disabilities.

DATES: *Effective Date:* 10/25/2010.

ADDRESSES: Committee for Purchase From People Who Are Blind or Severely Disabled, Jefferson Plaza 2, Suite 10800, 1421 Jefferson Davis Highway, Arlington, Virginia 22202-3259.

FOR FURTHER INFORMATION CONTACT: Barry S. Lineback, Telephone: (703) 603-7740, Fax: (703) 603-0655, or e-mail CMTEFedReg@AbilityOne.gov.

SUPPLEMENTARY INFORMATION:

Additions

On 6/11/2010 (75 FR 33270-33271) and 7/16/2010 (75 FR 41451), the Committee for Purchase From People Who Are Blind or Severely Disabled published notices of proposed additions to the Procurement List.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the services and impact of the additions on the current or most recent contractors, the Committee has determined that the services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will provide the services to the Government.

2. The action will result in authorizing small entities to provide the services to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the services proposed for addition to the Procurement List.

End of Certification

Accordingly, the following services are added to the Procurement List:

Services

Service Type/Location: Grounds Maintenance Service, Great Lakes Naval Training Center, Great Lakes, IL.

NPA: Challenge Unlimited, Inc., Alton, IL.

Contracting Activity: Dept of the Navy, Naval FAC Engineering CMD Midwest, Great Lakes, IL.

Service Type/Location: Transcription Service, US Army, US Army War College, Carlisle, PA (Offsite: 5590 Derry Street, Harrisburg, PA).

NPA: InspiriTec, Inc., Wilmington, DE.

Contracting Activity: Dept of the Army, PR W6BA ACA, Carlisle Barracks, PA.

Barry S. Lineback,

Director, Business Operations.
