

Carrollton, Ohio and Roaring Springs, Pennsylvania. The violations include failing to meet the industrial refrigerant leak repair, testing, recordkeeping and reporting regulations at 40 CFR part 82, Subpart F, and, at the West Carrollton facility only, failing to limit visible emissions from two coal-fired spreader boilers as required by the facility's Title V permit. Under the proposed Decree, Defendant agrees, among other things, to comply with the opacity limitation specified in the Title V permit and to replace industrial process refrigeration appliances containing ozone-depleting substances with appliances that contain non-ozone depleting refrigerants. Defendant also agrees to pay a civil penalty in the amount of \$96,324.00 and complete a Supplemental Environmental Project.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the proposed Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and either e-mailed to pubcomment-ees.enrd@usdoj.gov or mailed to P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611, and should refer to Appleton Papers Inc., D.J. Ref. No. 90-5-2-1-09575.

The proposed Decree may be examined at the Office of the United States Attorney, 517 E. Wisconsin Avenue, Suite 530, Milwaukee, Wisconsin 53202-4588 and at U.S. EPA Region 5, 77 W. Jackson Blvd., 16th Floor (EPA Library), Chicago, Illinois 60604. During the public comment period, the proposed Decree may also be examined on the following Department of Justice Web site http://www.usdoj.gov/enrd/Consent_Decrees.html. A copy of the proposed Decree may also be obtained by mail from the Consent Decree Library, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611 or by faxing or e-mailing a request to Tonia Fleetwood (tonia.fleetwood@usdoj.gov), fax no. (202) 514-0097, phone confirmation number (202) 514-1547. In requesting a copy from the Consent Decree Library, please enclose a check in the amount of \$11.00 (25 cents per page reproduction cost) payable to the U.S. Treasury or, if by e-mail or fax, forward a check in that

amount to the Consent Decree Library at the stated address.

Maureen Katz,

Assistant Chief Environmental Enforcement Section.

BILLING CODE 4410-15-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: (10-113)]

NASA Advisory Council; Meeting.

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public Law 92-463, as amended, the National Aeronautics and Space Administration announces a meeting of the NASA Advisory Council.

DATES: Wednesday, October 6, 2010, 8 a.m.-5 p.m. (local time). Thursday, October 7, 2010, 8 a.m.-12 noon (local time).

ADDRESSES: The AERO Institute, 38256 Sierra Highway, Palmdale, CA 93550.

FOR FURTHER INFORMATION CONTACT: Ms. Marla King, NAC Administrative Officer, National Aeronautics and Space Administration Headquarters, Washington, DC 20546, (202) 358-1148.

SUPPLEMENTARY INFORMATION: The agenda for the meeting will include reports from the NAC Committees:

- Aeronautics.
- Audit, Finance, and Analysis.
- Commercial Space.
- Education and Public Outreach.
- Exploration.
- Information Technology Infrastructure.
- Science.
- Space Operations.
- Technology and Innovation.

The meeting will be open to the public up to the seating capacity of the room. It is imperative that the meeting be held on this date to accommodate the scheduling priorities of the key participants. Due to technical problems associated with original publication, this meeting notice is being re-submitted for publication less than 15 days in advance.

Dated: September 23, 2010.

P. Diane Rausch,

Advisory Committee Management Officer, National Aeronautics and Space Administration.

BILLING CODE P

NEIGHBORHOOD REINVESTMENT CORPORATION

Regular Board of Directors Meeting; Sunshine Act

TIME AND DATE: 2 p.m., Wednesday, September 22, 2010.

PLACE: 1325 G Street NW., Suite 800, Boardroom, Washington, DC 20005.

STATUS: Open.

CONTACT PERSON FOR MORE INFORMATION:

Erica Hall, Assistant Corporate Secretary, (202) 220-2376, ehall@nw.org.

AGENDA:

- I. Call to Order.
 - II. Approval of the Minutes.
 - III. Summary Report of the Corporate Administration Committee.
 - IV. Summary Report of the Corporate Administration Committee.
 - V. Approval of the Minutes.
 - VI. Summary Report of the Finance, Budget and Program Committee.
 - VII. Approval of the Minutes.
 - VIII. Approval of the Minutes.
 - IX. Summary of the Audit Committee.
 - X. Approval of the Minutes.
 - XI. Approval of the Revised Minutes.
 - XII. Board Policy Regarding Elected Officials.
 - XIII. NeighborWorks Transition Grant_CHC.
 - XIV. Financial Report.
 - XV. Corporate Scorecard.
 - XVI. Chief Executive Officer's Quarterly Management Report.
 - XVII. Strategic Planning Discussion.
 - XVIII. Adjournment.
- No. 06-2.

Erica Hill,

Assistant Corporate Secretary.

BILLING CODE 7570-02-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 040-8027; NRC-2010-0306]

Notice of License Amendment for the Sequoyah Fuels Corporation's Facility at Gore, OK

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Notice of Action.

FOR FURTHER INFORMATION CONTACT: Ken Kalman, Project Manager, Decommissioning and Uranium Recovery Licensing Directorate, Division of Waste Management and Environmental Protection, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; Telephone: (301) 415-6664; fax number (301) 415-5369; e-mail: kenneth.kalman@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is considering

issuance of a license amendment to Sequoyah Fuels Corporation (SFC or licensee) for License No. SUB-1010. This action would authorize SFC to implement the groundwater corrective action plan (CAP) proposed for its site in Gore, Oklahoma. SFC's proposal for the CAP was first submitted to the NRC by letter dated June 16, 2003, and was supplemented by additional information submitted to the NRC by letters dated, December 16, 2005, July 2, 2009, and July 31, 2009. By letter dated August 18, 2010, SFC submitted a June 14, 2010, revision of the CAP that encompasses all supplements in a single document. NRC previously issued an Environmental Impact Statement (EIS) in support of this action in accordance with the requirements of 10 CFR part 51. See NUREG-1888, "Environmental Impact Statement for the Reclamation of the Sequoyah Fuels Corporation Site in Gore, Oklahoma," issued May 2008.

II. Proposed Action

The purpose of this proposed CAP is to remediate existing groundwater contamination and to facilitate the eventual termination of License No. SUB-1010. This CAP is part of an overall site reclamation program described in SFC's Reclamation Plan (RP) dated January 2003. SFC's RP was reviewed and approved by NRC on April 20, 2009 (License Amendment 33). Whereas the RP primarily addresses the site decommissioning, disposal cell construction, and surface reclamation, the CAP addresses residual contamination in groundwater.

III. NRC Review

The NRC staff reviewed the CAP and supporting documents using Section 4.0 of NUREG-1620, "Standard Review Plan for the Review of a Reclamation Plan for Mill Tailings Sites Under Title II of the Uranium Mill Tailings Radiation Control Act of 1978," Rev. 1, issued June 2003. The staff's review process included evaluating the site hydrogeology particularly with respect to the locations and types of groundwater restoration structures. Effectiveness of the proposed action was then evaluated by reviewing flow and transport models, as well as actual volume and concentration data from the current structures. Finally, the staff reviewed groundwater flow and contaminant transport models to evaluate the long-term groundwater contaminant concentrations and pollutant loads during and after corrective actions are completed.

SFC's CAP specifies the use of interceptor trenches and recovery wells placed in hydrologically strategic

positions to intercept groundwater contamination remaining onsite. The CAP does not draw back any contamination that has passed the extraction points. Consequently, the CAP allows small pollutant loads (defined as pollutant concentration x volumetric flow) to enter the surface water system. However, NRC staff determined that the pollutant loads to surface water pose little threat to human health and safety and the environment. A Safety Evaluation Report (SER) dated September 20, 2010 (ML101170749) documents the NRC staff's technical review of the CAP to determine its compliance with 10 CFR Part 40, Appendix A.

SFC's request for the proposed amendment was previously noticed in the **Federal Register** (68 FR 51033; Aug. 25, 2003) with a notice of an opportunity to request a hearing. The State of Oklahoma and the Cherokee Nation submitted requests for hearing on September 29, 2003 and October 2, 2003, respectively. Both requests were subsequently denied on November 19, 2003. No other comments or requests for a hearing were received.

The Final EIS for the Reclamation of the Sequoyah Fuels Corporation Site in Gore, Oklahoma (NUREG-1888) was issued on May 20, 2008. The EIS documented the NRC staff's determination that all steps in the proposed reclamation could be accomplished in compliance with the NRC public and occupational dose limits, effluent release limits, and residual radioactive material limits. In addition, the EIS concluded that approval of the proposed action, in accordance with the commitments in NRC License SUB-1010 and the final RP, would not result in a significant adverse impact on the environment.

The findings, required by the Atomic Energy Act of 1954, as amended, necessary to support the proposed site reclamation activities will be documented in an SER that will be issued in connection with this license amendment.

IV. Further Information

Documents related to this action, including the application for amendment and supporting documentation, are available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. From this site, you can access the NRC's Agency-wide Document Access and Management System (ADAMS), which provides text and image files of NRC's public documents. The ADAMS accession
