AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of priorities for consideration of applications.

DATES: This notice is effective for all applications received by FRA after October 29, 2010.

FOR FURTHER INFORMATION CONTACT: Barbara Amani, Chief of the Credit Programs Division, Office of Railroad Development, Federal Railroad Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590 (*telephone:* (202) 493-6051; *fax:* (202) 493-6333; and *e-mail:* Barbara.Amani@dot.gov); or Casey Symington, Attorney Advisor, Office of Chief Counsel, Federal Railroad Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590 (*telephone:* (202) 493-6349; *fax:* (202) 493-6068; and *e-mail:* Casey.Symington@dot.gov).

SUPPLEMENTARY INFORMATION: Title V of the Railroad Revitalization and Regulatory Reform Act of 1976, Public Law 94-210 (1976), authorized a program of financial assistance necessary to furnish assistance to

railroads for facilities maintenance, rehabilitation, improvements and acquisitions. FRA used this financial assistance program to provide financial assistance to portions of the then-fiscally challenged rail industry. The program was most active during the four years following the enactment of the statute. The improving financial condition of the rail industry subsequent to enactment of the Staggers Rail Act of 1980 and the partial economic deregulation of the rail industry helped improve the larger railroads' access to private capital, reducing interest in the program.

The Federal Credit Reform Act of 1990 resulted in fundamental changes in all federal credit programs, by requiring that the subsidy cost of any federal credit assistance be reserved prior to the credit assistance being made available. Although the subsidy cost required an appropriation, FRA's subsequent annual appropriations acts contained a specific prohibition on the use of FRA's funds for this purpose. As a result, use of the Title V program was limited to projects specifically authorized by Congress.

A secondary impact of the Staggers Rail Act of 1980 was a more liberalized approach to restructuring railroads, which led to the growth in the number and importance of short line and regional railroads (also known as Class III and Class II railroads). A number of studies conducted during the 1980s and 1990s concluded that significant portions of the short line and regional railroad industry were challenged by deferred maintenance and a lack of access to the private capital markets at rates and terms comparable to debt financing opportunities available to the larger, Class I railroads.

In 1998, Title V of the Railroad Revitalization and Regulatory Reform Act of 1976 was amended by the Transportation Equity Act for the 21st Century of 1998, Public Law 105-178 (1998) (TEA-21) to establish the RRIF Program. TEA-21 authorized a program of financial assistance to the rail industry in the form of loans and loan guarantees and other financial instruments. The program was subsequently amended and expanded in the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users, Public Law 109-59 (2005) (SAFETEA-LU) and the Rail Safety Improvement Act of 2008 (RSIA), Division A of Public Law 110-432.

TEA-21 addressed capital needs by providing a program of loans and loan guarantees for rail investment purposes. A combined total of \$3.5 billion in direct loans and loan guarantees was
