POLICY JUSTIFICATIONPakistan – BELL 412EP Helicopters

The Government of Pakistan has requested a possible sale of up to thirty BELL 412EP Helicopters, spare and repair parts, support equipment, ferry services, air worthiness certification, publications and technical data, personnel training and training equipment, U.S. Government and contractor logistics, engineering, and technical support services, and other related elements of logistics support. The estimated cost is \$397 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for economic progress in South Asia and a partner in overseas contingency operations.

The proposed sale of the helicopters will increase Pakistan's air capabilities to execute counterinsurgency operations, border security, search and rescue, and support for the civilian population in Pakistan. Pakistan, which already has Bell 412EP Helicopters in its inventory, will have no difficulty absorbing these additional helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Bell Helicopter in Fort Worth, Texas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U. S. Government personnel in country. It is anticipated that two U.G. Government personnel will travel to Pakistan two times per year, one week per trip, for a period of up to five years to provide logistic support services.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
