These programs appear in the Code of Federal

Regulations at 7 CFR, parts 1150 and 1160, and parts 1205 through 1260.

These programs carry out projects relating to research, consumer information, advertising, sales promotion, producer information, market development, and product research to assist, improve, or promote the marketing, distribution, and utilization of their respective commodities. Approval of the programs is required through referendum of affected parties. The programs are administered by industry boards composed of producer, handler, processor, and in some cases, importer and public members appointed by the Secretary of Agriculture. Program funding is generated through assessments on designated industry segments.

The Secretary also approves the board's budgets, plans, and projects. These responsibilities have been delegated to AMS. The applicable commodity program areas within AMS have direct oversight of the respective programs.

The information collection requirements in this request are essential to carry out the intents of the various Acts authorizing such programs, thereby providing a means of administering the programs. The objective in carrying out this responsibility includes assuring the following: (1) Funds are collected and properly accounted for; (2) expenditures of all funds are for the purposes authorized by the enabling legislation and (3) the board's administration of programs conforms to USDA policy. The forms covered under this collection require the minimum information necessary to effectively carry out the requirements of the respective orders, and their use is necessary to fulfill the intents of the Acts as expressed in orders. The information collected is used only by authorized employees of the various boards and authorized employees of USDA.

The various boards utilize a variety of forms including; reports concerning status information such as handler and importer reports; transaction reports; exemption from assessment forms and reimbursement forms; forms and information concerning referenda including ballots; forms and information concerning board nominations and selection and acceptance statements; certification of industry organizations; and recordkeeping requirements. The forms and information covered under this information collection require the minimum information necessary to effectively carry out the requirements of the programs and their use is necessary

to fulfill the intent of the applicable authorities.

As part of this renewal collection for the National Research, Promotion, and Consumer Information Programs, AMS is merging the "Sorghum Promotion, Research, and Information Order, 0581-0246;" "Lamb Promotion, Research and Information Program, 0581-0198;" "Honey Packers and Importers Research, Promotion, Consumer Education and Industry Information Order, Referendum Procedures, 0581-0245;" and "Establishment of the New Honey Packers and Importers R&P Program, 0581-0247." Upon approval of this revision of 0581-0093, AMS will request a Discontinuation Request for 0581-0246, 0581-0198, 0581-0245, and 0581-0247 to retire these collections. This action will keep all research and promotion collections under one generic collection since similar forms are used to collect information and to prevent duplication of burden.

AMS is committed to complying with the E-Government Act, which requires Government agencies in general to provide the public the option of submitting information or transacting business electronically to the maximum extent possible.
