SUPPLEMENTARY INFORMATION: The information required by FERC-582, "Electric Fees; Annual Charges; Waivers; and Exemptions;" OMB Control No. 1902-0132, covers the filing requirements in the Code of Federal Regulations (CFR) under Title 18, Part 381¹ and Part 382.²

FERC-582 is used by the Commission to implement the statutory provisions of the Independent Offices Appropriation Act of 1952 (IOAA) (31 U.S.C. 9701) which authorizes the Commission to establish fees for its services.³ In

¹ Title 18 CFR, Sections 381.105, 381.106, 381.108, 381.302, and 381.305.

² Title 18 CFR, Sections 382.102, 382.103, 382.105, 382.106, and 382.201.

³ The most recent "Annual Update of Filing Fees" was issued on 1/20/2010 and is posted at <http://elibrary.ferc.gov/idmws/common/opennat.asp?fileID=12249237>. Other reporting requirements, associated with the estimation of annual charges or filing fees, are separate from the FERC-582 and not a subject of Docket Number IC10-582 or the FERC-582 clearance request. They

addition, the Omnibus Budget Reconciliation Act of 1986 (OBRA) (42 U.S.C. 7178) authorizes the Commission "to assess and collect fees and annual charges in any fiscal year in amounts equal to all the costs incurred by the Commission in that fiscal year."

In calculating electric fees and annual charges, the Commission first determines the total costs of its electric regulatory program and then subtracts all electric regulatory program filing fee collections to determine the total collectible electric regulatory program costs. The data submitted under FERC-582⁴ is used to determine the annual charge levied on each utility and is based on the total megawatt-hours (MWh) of transmission of electric energy in interstate commerce. This is measured by the sum of the MWh of all unbundled transmission (including MWh delivered in wheeling transactions and MWh delivered in exchange transactions) and the MWh of all bundled wholesale power sales (to the extent these later MWh were not separately reported as unbundled transmission).

Public utilities and power marketers subject to these annual charges must submit FERC-582 data to the Commission by April 30 of each year (18 CFR 382.201). The Commission issues bills for annual charges, and public utilities and power marketers then must pay the charges within 45 days of the Commission's issuance of the bill.

Requests for waivers and exemptions of fees and charges (required by 18 CFR Parts 381 and 382) are filed, based on need. The Commission's staff uses the filer's financial information to evaluate the request for a waiver or exemption of the obligation to pay a fee or an annual charge.

Public Comment and FERC response. Following is a summary of the comment filed by the public on FERC-582

are approved separately by OMB and include: (a) FERC-583 ("Annual Kilowatt Generating Report (Annual Charges)," OMB Control Number 1902-0136) for hydropower generation facilities; (b) FERC Form No. 2 (Major Natural Gas Pipeline Annual Report, OMB Control Number 1902-0028), FERC Form No. 2A (Non-Major Natural Gas Pipeline Annual Report, OMB Control Number 1902-0030), and FERC Form No. 6 (Annual Report of Oil Pipeline Companies, OMB Control Number 1902-0022) for estimating charges for natural gas and oil pipelines; and (c) FERC-587 (Land Description: Public Land States/Non-Public Land States (Rectangular or Non Rectangular Survey System Lands in Public Land States); OMB Control Number 1902-0145) for estimating fees associated with the use of Federal lands.

⁴ FERC-582 Annual Charges Reports are available in FERC's eLibrary system (at <http://www.ferc.gov/docs-filing/elibrary.asp>), by searching under the document class and type of "Report/Form/Annual Charges Report."
